Teethina was first used by Dr. Charles J. Moffett, a graduate of Jefferson Medical college, Philadelphia, Pa., in his extensive and successful treatment of children in Georgia in overcoming the troubles incident to teething and hot summers. Teethina (Teething Powders) counteracts the effect of hot weather and keeps the digestive organs in a healthy condition, and has saved the lives of thousands of children in the doctor's native state, where physicians prescribe and all mothers give it, and it is criminal in mothers of our section to allow their babes and little children to suffer and perhaps die when relief can be so easily obtained by giving Teethina. It costs only 25 cents at druggists; or mail 25 cents to C. J. Moffett, M. D., St. Louis, Missouri.

PROTECTION.

Your home needs more substantial protection than is given by a hose and fire engine. Your best plan is to

INSURE AGAINST FIRE!

A policy in a fire insurance company will cost you only a small amount per year, and provide you with the means to build a new home, should your present one burn.

INSURE AGAINST ACCIDENTS!

They are bound to happen, be you ever so careful.

INSURE YOUR LIFE!

For you must die. Then what about your family.
