LONG VIGIL IN GREENLAND.

Left to Guard Peary's Stores, Rich Man Will Winter With Eskimos.

A letter was recently received at New Haven, Conn., from Harry Whitney, a wealthy young man from that city, who sailed with Commander Robert E. Peary's arctic exploration party. He writes that he has been left at Etah, north Greenland, in charge of Commander Robert E. Peary's provisions. His letter, which is dated on Aug. 16, says:

"When you get this I will be in darkness, as we will lose the sun Oct. 12 and will see it no more until March 14. So it will be a long, dark winter, but am in the finest musk ox and reindeer country in the world, and I decided I would never get a better chance to kill some than by staying here this winter. Have six Eskimos with me.

"The Roosevelt, with Commander Peary aboard, left here yesterday at 4:30 p. m. and started north, but the ice was very heavy, and she was making very little headway when the snow started, and we could see no more of her. Peary left me in charge of a big lot of provisions for his return trip, and I have got to get all the fresh meat possible.

"Have been working hard building a log house and will live in it for three weeks so as to be here to kill wolves. Then I shall take the dogs and sledges and go to Annock, sixty miles north of here. Annock is the most northern settlement in the world. About twelve Eskimos live there. Also have a big lot of provisions for Dr. Cook, whom no one seems to know much about.

"As it is uncertain about the Roosevelt ever getting out of the ice, I am going to have a ship sent up for me next August and shall hope to be with you all some time about the middle of October, 1909, as I want to run no chances of having to stay up here more than a year at a time.

"The man whom Cook left in charge of his provisions is going back on the Eric. I am going to live and eat as nearly like an Eskimo as I can, the only way to live in this country.

"Ship leaving in a few hours. Must say that in some ways I hate to see her go. I am all alone."

ROAD MAP FOR AUTOISTS.

Invention of Edison's Daughter Can Be Used at Night.

Miss Madeline Edison, recently turned twenty-one, both winsome and intellectual, is following the inventive footsteps of Thomas A. Edison, her distinguished father. Miss Edison has for years past been the inspirational comrade of her father in his magical experiments in the field of electricity. Now, in conjunction with her brother, Billy Edison, she has invented an ingenious automobile road map for autoing.

An enthusiastic autoist, she has been a familiar figure in her big forty-five horsepower Hotchkiss speeding along the smooth roads about the Oranges, in New Jersey. This road map, like the compass of a ship, goes on the steering column in a dust and rain proof case and is lighted by electricity at night.

When a car is speeding along the road laid out in the tour being taken a cyclometer attachment records the miles, and a tiny black steel bar indicates the location of the car at the time.

RED CROSS HOLIDAY STAMP.

Proceeds Are to Be Used For Fighting Tuberculosis.

In an effort to increase its fund for fighting tuberculosis the National Red Cross association is going to issue a special Christmas stamp for use on holiday mail. The stamp will have, of course, no carrying power, but will be used simply as a Christmas greeting.

A special design has already been prepared by Howard Pyle. Beneath a wreath of holly will be the inscription, "A Merry Christmas and a Happy New Year." The stamps will sell for 1 cent each or in little book of nine for 10 cents. A supply will be sent out to cities and towns before the holiday season begins.

The idea originated in Denmark, where the stamps were sold by the government. The first experiment netted $20,000.

For Chronic Diarrhoea

"While in the army in 1863 I was taken with chronic diarrhoea," says Geo. M. Felton, of South Gibson, Pa., "I have since tried many remedies but without any permanent relief, until Mr. A. W. Miles, of this place, persuaded me to try Chamberlain's Colic, Cholera and Diarrhoea Remedy, one bottle of which stopped it at once." For sale by the Titusville Pharmacy.

FARM FOR WOMEN ONLY.

Fruits and Flowers to Be Grown Each Month by Electricity.

Long Island is to have an "Adamless Eden." Mme. Davidoff, a native of Russia, but now a resident of New York city, is establishing an experimental farm at Bellecrest, near Northport, N. Y., which will be operated by women. Men will be barred from the greenhouses, where fruits and flowers are to be grown every month in the year by the aid of electricity. While similar experiments have been made by this and other governments, Mme. Davidoff believes her experiments will prove more successful than those carried on by the bureau of plant industry of the department of agriculture.

Mme. Davidoff is a writer for magazines. She says the experiments will be based on the theory that the growth of vegetable matter, which ceases at sundown, will continue through the night if proper artificial light is supplied to stimulate the developing powers of plants. Fruits and flowers that are grown near New York only in the spring and summer months, she believes, can be cultivated during the entire year by supplying the necessary artificial heat through the electrical process that will be adopted.

"This is not intended as a money making enterprise," said Mme. Davidoff the other night. "While, of course, we expect the experiments to prove successful and the farm to be self supporting, yet my object is to make it a philanthropic enterprise with the view of helping members of my own sex as well as to prove the scientific value of the plan with which I have been experimenting for several years. There is no connection between my venture and the utterances of Sir Oliver Lodge, the English savant, relative to the influence of electricity on plant life. The two systems differ chiefly from the fact that all of my experiments are made under glass and under certain conditions a static machine is used in addition to dynamos."

Active work on the farm at Bellecrest will begin, she says, within one month, upon the completion of the necessary buildings and the installation of the electrical apparatus.

CHURCH BUSINESS MANAGER.

Innovation to Be Tried by Methodists In Cleveland.

The Epworth Memorial Methodist church in Cleveland, O., has decided to try a new system of church management. A business manager has been appointed, who will give his entire time and attention to the finances of the church. As executive secretary he will collect the benevolences, dues of members, subscriptions, etc., and pay all expenses. He will serve as secretary of the standing committees of the church and keep a record of their business for transmission to the official board. This, it is expected, will leave the pastor free to give attention to the larger plans of the work and to his pulpit and pastoral duties.

Epworth Memorial has the largest membership of all the Protestant churches in Cleveland. It has an extensive charity work and handles over $35,000 in contributions every year. Dr. G. K. Morris, district superintendent, strongly commends the innovation. "To my mind," he says, "it is the ideal of church government. I expect to see the plan adopted in many other cities."

Why Colds are Dangerous

Because you have contracted ordinary colds and recovered from them without treatment of any kind, do not for a moment imagine that colds are not dangerous. Every one knows that pneumonia and chronic catarrh have their origin in common cold. Consumption is not caused by a cold, but the cold prepares the system for the reception and development of the germs that would have not otherwise have found lodgment. It is the same with all infectious diseases. Diphtheria, scarlet fever, measles and whooping cough are more likely to be contracted when the child has a cold. You will see from this that more real danger lurks in a cold than in any other of the common ailments. The easiest and quickest way to cure a cold is to take Chamberlain's Cough Remedy. The many remarkable cures effected by this preparation have made it a staple article of trade over a large part of the world. For sale by the Titusville Pharmacy.

A Thanksgiving Dinner For Two.

A little dinner for two who have much to be thankful for may be easily prepared and still be quite elaborate enough:

Oysters on the half shell.
Cream of celery soup.
Roast chicken. Baked sweet potatoes.
Peas. Currant jelly.
Cream cheese and nut salad.
Fig cream.
Coffee.
—Harper's Bazar.

Why James Lee Got Well

Everybody in Zanesville, O., knows Mrs. Mary Lee, of rural route 8. She writes: "My husband, James Lee, firmly believes he owes his life to the use of Dr. Kings New Discovery. His lungs were so severely affected that consumption seemed inevitable, when a friend recommended New Discovery. We tried it, and its use has restored him to perfect health." Dr. King's New Discovery is the King of throat and lung remedies. For coughs and colds it has no equal. The first dose gives relief. Try it! Sold under guarantee at Banner Drug Store. 50c. and $1.00. Trial bottle free.

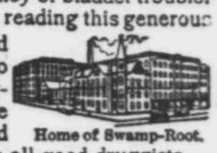
DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, kidney, bladder, uric acid troubles and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's **Swamp-Root** is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work, in private practice, among the helpless too poor to purchase relief and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty cent and dollar sizes are sold by all good druggists.



Home of Swamp-Root.

Don't make any mistake, but remember the name, Swamp-root, Dr. Kilmer's Swamp-Root, and the address, Binghampton, N. Y., on every bottle.

THIRD CABINS NOW.

For Those Who Can't Afford Second and Don't Want to Go Steerage.

The North German Lloyd line of steamers announces that it will have next season accommodations for third cabin passengers, those who find the steerage not good enough and the second cabin too expensive. The first ship in the service of the North German Lloyd to have third cabins will be the George Washington, which will be launched on Oct. 31 and will be christened by the American ambassador to Germany, Dr. David Jayne Hill.

The third class passengers will have a smoking room, a dining room and a social room for women. The staterooms will be for two, four and six persons. Families of small means may thus visit Europe on less money than they might pay to cross the continent.

More Than Enough Is Too Much

To maintain health, a mature man or woman needs just enough food to repair the waste and supply energy and body heat. The habitual consumption of more food than is necessary for these purposes is the prime cause of stomach troubles, rheumatism and disorders of the kidneys. If troubled with indigestion, revise your diet, let reason and not appetite control and take a few doses of Chamberlain's Stomach and Liver Tablets and you will soon be all right again. For sale by Titusville Pharmacy.

Ugliness of French Villas.

"Doing France in my motor," said an architect, "I was struck with the ugliness of the French villa. The taste of France is exquisite—it leads the world—in furniture, tapestries, jewelry, women's dress, painting, sculpture, and so on. Why does it fail in the villa?

"The reason, Rodin told me, is that every Frenchman who erects a villa wants it to resemble as nearly as his purse will allow a chateau; hence all French villas are high, narrow, tawdry affairs, with a lot of mansard roof and a good deal of tower. And the butcher or grocer who serves the occupant of the typical villa never fails to say three or four times in the course of every sale:

"'The chops will be sent to the chateau,' or 'The chateau should easily fetch this season $25 a month,' or 'Last night's wind, I hope, did not blow down the chateau.'

"That pleases the occupant of the typical villa profoundly. He knows it is a cheap and ugly villa, he knows he is only a hairdresser or a tailor, but everybody speaks of him as living in a chateau. Quel bonheur! What a happiness!"

Shaking Up

may all be very well as far as the trusts are concerned, but not when it comes to chills and fever and malaria. Quit the quinine and take a real cure—Ballard's Heroine. Contains no harmful drugs and is as certain as taxes. If it doesn't cure you get your money back. Sold by Titusville Pharmacy and Banner Drug Store.

Wild Cotton Experiments.

Wild cotton from Jamaica will be made the subject of experiments by the department of agriculture with a view of providing a new point of departure for breeding purposes with the domestic cultivated plant.

Don't be deceived by imitations of DeWitt's Carbolized Witch Hazel Salve. When you ask for DeWitt's be sure to get it. The name is stamped on every box. There is just one original. It is especially good for piles. We sell and recommend them. Sold by Banner Drug Store.

Rounding Up With Autos.

Automobiles are now used in rounding up cattle on the big ranches in Texas. One auto line runs from San Angelo to Ozona, 180 miles.

A FACT ABOUT THE "BLUES"

What is known as the "Blues" is seldom occasioned by actual existing external conditions, but in the great majority of cases by a disordered LIVER.

THIS IS A FACT which may be demonstrated by trying a course of

Tutt's Pills

They control and regulate the LIVER. They bring hope and bouyancy to the mind. They bring health and elasticity to the body.

TAKE NO SUBSTITUTE.

FERRY'S SEEDS

For freshness, purity and reliability, Ferry's Seeds are in a class by themselves. Farmers have confidence in them because they know they can be relied upon. Don't experiment with cheap seeds—your surety lies in buying seeds sent out by a conscientious and trustworthy house.

Ferry's Seed Annual for 1908 is FREE. Address D. M. FERRY & CO., DETROIT, MICH.

DIARRHOEA

There is no need of anyone suffering long with this disease, for to effect a quick cure it is only necessary to take a few doses of

Chamberlain's Colic, Cholera and Diarrhoea Remedy

In fact, in most cases one dose is sufficient. It never fails and can be relied upon in the most severe and dangerous cases. It is equally valuable for children and is the means of saving the lives of many children each year.

In the world's history no medicine has ever met with greater success.
