### Coburn's Fine Minstrel Show

Coburn's minstrels played to a small but very appreciative house here Monday night. This show is first class in every respect and the fun they presented was fast and furious, the songs the newest the dancing unsurpassed and the orchestra especially fine. The jokes were new, bright, clever and really witty—the old-time ones being buried so deep they cannot be heard. The best minstrel show ever presented in Titusville is the general verdict.

### Records Must Be at County Seat

Brevard's newly elected county treasurer, Mr. R. F. Hatch, has made the discovery that he cannot remove the treasurer's books and records from the county seat and keep them at his home in Rockledge, hence he has secured Ex-Treasurer John Henry to act for him until such time that he can arrange his business affairs so as to remove to the county seat and take charge of the treasurer's office himself.

Mr. Hatch made the run for treasurer under legal advisement that he could attend to the duties of that office at Rockledge as long as he met with the county commissioners and school board first of each month.

There is no statute prohibiting such being done; but the constitution of Florida, which is higher than any statute, bears plainly upon this subject and reads as follows:

Article XVI, section 4.—Miscellaneous Provisions—All county officers shall hold their respective offices, and keep their official books and records, at the county seats of their counties; and the clerk and sheriff shall either reside or have a sworn deputy within two miles of the county seat.

## LATEST NEWS AND INCIDENTS

### Personal Paragraphs About People that Travel Here and There

Dr. Miller, Dentist, Titusville.

Father M. J. Curley, of DeLand, was in town over Sunday and held service in the Catholic church Sunday evening.

Mr. Geo. R. Gomph, late cashier of the Fort Dallas National bank, has returned to Miami. He will be a witness in the Brown trial for the government, which was to commence yesterday, to be tried by Judge E. M. Sheppard, of Pensacola, as Judge Loeke could not be present.

Mrs. Julia Howell arrived Wednesday from Dade county on a visit to her mother, Mrs. Nettie Feaster, and relatives in Titusville. Mrs. Feaster and little nephew, Walter Anderson, left yesterday afternoon for Miami, where Mrs. Feaster will spend some time with her son, Mr. Jerome Feaster.

The work on the new city dock was brought to a standstill Saturday by the motor on the pile driver breaking down. Up to the time of the accident the piles were being put down at a lively rate. Another motor was secured Wednesday and the piling is being rapidly driven. Mr. Mobley expects to complete the pile driving in a day or two, so the first or middle of next week should see the connection made to the old dock at fish house No. 5, where the new dock will stop until funds are secured to carry it further out.

The rapid rise of a man to a position of the greatest responsibility is exemplified in that of the incoming president of the New York Central railroad, Mr. W. C. Brown, who assumes the presidency of the above named road on the 1st of February. He began his railroad career as a wood corder on a Milwaukee and St. Paul locomotive in 1869, when 16 years old. Within two years he became a telegraph operator and rose rapidly to many responsible positions. Mr. Brown is an own cousin to Mrs. Adhemar Brady, of this place, and naturally she feels very proud of the distinguished position he has been called upon to fill.

### Park Dramatic Company

The Park Dramatic company is playing here in Titusville this entire week under their own canvas and have played some very interesting and instructive dramas. The members of the company are experienced in stage work and the support in every act has been fine.

Monday night they played Lena Rivers to a fairly well filled tent notwithstanding the attraction of Coburn's Minstrels at the opera house, and each night so far they have had a splendid patronage for the size of this town; Tuesday night, Tempest and Sunshine was the play; Wednesday night, the high class and inspiring drama, Thelma; yesterday afternoon at matinee, Lena Rivers was given again by special request; last night the play was The Great West; tonight the show will be Queen Bess.

These plays are away above the average dramatic tent shows and everyone who has attended them has been highly pleased. With special scenery and fairly full stage effects the company is enabled to make an as attractive presentation under canvas as seen in many theatrical halls. After concluding their week's entertainment here tomorrow night they go to New Smyrna.

### Auto Service to Palm Beach

The Jacksonville Metropolis is authority for the statement that the Florida East Coast Hotel company is about to inaugurate an automobile service between Ormond, Daytona and Palm Beach, and while the THE STAR wishes the enterprise success it hardly thinks such a scheme practicable under the present condition of certain stretches of roads between Oak Hill and the charming city on Lake Worth.

Here is what the Metropolis says:

"A regular line of automobile service between Ormond, Daytona and Palm Beach is about to be inaugurated by the Florida East Coast Hotel company for the benefit of the guests of the hotels of those resorts. The service will be furnished by three 40-horse power A. L. Co. cars, which were shipped to them a few days ago by the American Locomobile company.

"The cars were selected after a competitive investigation of various makes. It is said that one consideration of importance was the distinctive feature of a direct drive on both the third and fourth speeds in the A. L. Co. cars which will enable the chauffeurs in the sandy roads to slip from the highest speed into the next one lower and still be on a direct drive."
