Examiner Appointed

As a result of the motion made by Hon. L. C. Massey, special council for the railroad commission, before Judge W. B. Sheppard of the United States district court, for the northern district of Florida, at Pensacola recently, Judge Sheppard has appointed Hon. Emmett Wilson, of Pensacola, as examiner to take testimony to be given by the railroad commission of Florida in the L. & N. three cent rate case. This testimony will be presented just as soon as a date can be arranged between the counsel for the railroad and the counsel for the commission.

Jetties for Mosquito Inlet

The last issue of the DeLand News states that Mr. Thomas C. Buddington, of Hawks Park, has spent the week in DeLand getting out printed information relative to the advantages of opening up Mosquito Inlet for ocean vessels and establishing a port of entry there. He has prepared a very comprehensive story of the matter, and has gotten the most of it in print. He will call upon the leading citizens of Volusia and the interior counties of this section of the state and urge their co-operation in getting the port opened and the channel made permanent. There is already deep water at this inlet, and all that is needed to maintain the deep water and make the channel permanent is concrete work that will cost the government a mere bagatelle. With the establishment of a port of entry there and a regular line of ocean steamers there is no question that we should be given better freight rates in this section of the state, and that there would soon be a railroad built to the inland counties, such as Orange, Lake, Polk, and Osceola. The News hopes that Mr. Buddington, who is only a representative of the leading business men of New Smyrna, will receive every encouragement in his efforts.

Frank Clark's Open Denial

In an open letter directed to the editor of the Miami Metropolis, Congressman Frank Clark denies the statement made in that paper that he, Clark, had been "rebuked" by his colleagues for his course in congress on the tariff question and that he had also been defeated for re-election as secretary of the National Democratic congressional committee, all of which caused him to be discredited among his party associations, etc.

The following paragraphs of general interest are taken from Mr. Clark's letter to the Metropolis:

"Each delegation in congress elects its own member of the congressional committee and such member holds for two years. Two years ago Mr. Sparkman and Mr. Lamar elected me as the Florida member of that committee. When the committee met two years ago to organize, I was unanimously chosen over my protest as secretary. I accepted the position as a duty placed upon me by my associates and served in that capacity, and in the campaign last year not only spent many months of hard work but more than a thousand dollars of hard cash out of my own pocket for the benefit of the Democratic cause.

"When my term expired a few weeks ago and it became necessary for our delegation to again elect a member of this committee, both Col. Sparkman and Mr. Mays expressed the desire for me to retain the place. I declined it and suggested that we elect Mr. Mays as the Florida member of the new committee. Colonel Sparkman agreed to this and Mr. Mays was elected.

"Not being a member of the committee I was in no sense a candidate for secretary of it and therefore could not have been 'rebuked' in this connection by anybody."
