

### A Useful Weed.

Kelp, as is known by those living on the sea coast is a crude alkaline matter, produced by the combustion of seaweeds. These are dried in the sun and then burned in shallow excavations at a low heat. About twenty or twenty-four tons of seaweed yield one ton of kelp. Kelp is composed of chloride of sodium, carbonate of soda, sulphate of soda and potash, chloride of potassium, iodine of potassium or sodium, insoluble salts, and coloring matter. It used to be the great source of soda, but a better quality is now obtained from the composition of sea salt. A ton of good kelp will yield about eight pounds of iodine, large quantities of chloride of potassium and also by destructive distillation a large quantity of volatile oil, from four to fifteen gallons of paraffin oil, three or four gallons of naphtha and from one and a half to four hundred weight of sulphate of ammonia. This latter as well as the sulphate of soda and potash enter into many of the commercial fertilizers.

There are in Scotland twelve factories, most of them at Glasgow, and two in Ireland which produce annually in all from this marine plant 130 tons of iodine. At Finisterre in France there are factories which produce 50 tons of iodine.

Seaweeds of several kinds are used for forage. Oxen, sheep and deer seek the fucus vesiculosus on the seashore in winter when other supplies are scarce; in the Swedish province of Gothland it is boiled and mixed with a little coarse flour as food for hogs; and in Norway, fucus seratus is used as food for cattle, generally sprinkled with a little meal.—Farm, Field and Fireside.

### Siberian Gentleman's Life.

"For five months of the year the Siberian man of fashion lives in the open air, either at the mining camp or in the hunting field," says Thomas G. Allen, Jr., writing of "Fashionable Life in Siberia," in the Ladies Home Journal. "He is an early bird under all circumstances, and invariably rises between 7 and 8 o'clock, although he may have had but a couple of hours' rest. Nearly every meal is succeeded by a nap. However, dressing duties do not take very long, for when he retires the Siberian only divests himself of his coat and boots. Shirts are unknown in Siberia, and in many houses, beds also. The samovar is set on the dining-room table at eight a. m., together with eggs, black and white bread, sardines, and cakes, etc. Breakfast is eaten and washed down by five or six glasses of tea stirred up with sugar, cream and sometimes jam. At 9 o'clock dinner is served, and at five in the afternoon another small meal, much like that of the morning, is taken. A meat supper follows at nine o'clock."

There was to have been a wedding near McKee, Ky., the other day, the contracting parties being Mr. Ed Lunsford and Miss Bettie Hayes. The prospective bridegroom procured the license and hastened to the home of the would-be bride, hoping to carry out his plans and have the ceremony performed before the unsuspecting parents learned of it, but to his surprise, he was met at the door by the girl's father, who, with a 45-calibre Colt's in his hand, completely upset the young Lochinvar's dream by firing two shots under his feet and threatening to kill him unless he left, never to set his foot on the premises again. Lunsford next day returned his license to the County Clerk's office, "not executed."

### A Long Look Ahead.

The politicians are even now beginning to weigh the possibilities involved in the next Presidential election. The papers are full of electioneering gossip, and venture predictions as to the future which are somewhat too self-confident. But it is safe to say that a systematic course of Hot-tetter's Stomach Bitters will renew health in the moribund, bilious, rheumatic, costive or nervous.

### Beauty Is Blood Deep.

### Origin of "Norway Oats."

David W. Ramsdell, aged seventy-three, died at his home, near South Royalton, Vt., recently. He was born in Washington, Vt., and always lived in that state. In 1861, in a package of seeds he received from the government at Washington, Ramsdell found a peculiar variety of seeds which experiments showed to be a new kind of oats which he named "Norway oats." Ramsdell in ten years made an enormous fortune from the sale of this grain. Over \$3,000,000 was spent in advertising it. Poor business ability, however, dissipated his riches, and he died practically a poor man.

### Electric Spanking.

Electricity tells us: Warden C. P. Hoyt, of Denver, is said to have designed an electric spanking chair for use in the industrial school in that city. It consists of a seatless chair, on which the refractory pupil is placed, and is high enough from the ground to allow of four paddles being operated, presumably by a small electric motor. The pupils who are made to go through this ordeal will probably no longer believe in the old saying that "lightning never strikes twice in the same spot."

### Inflammatory Rheumatism.

From St. Lawrence Plumber, Canton, N. Y.  
To suffer for years with a prevailing painful ailment, which baffled skillful medical treatment, yet which was cured by a simple household remedy, is the lot which befell Mrs. George L. Rogers, of West Main Street, Canton, N. Y.

"Thirteen years ago," said Mrs. Rogers to a reporter, "I was attacked with inflammatory rheumatism and a complication of diseases. You can judge somewhat of what I endured, when you look at these hands. They were distorted, twisted and swollen. My foot, too, is so much out of shape that the big toes lays across the others, the end touching the little toe."

### "Notwithstanding I am sixty-five years old, have a pleasant home and other comforts, life to me was far from enjoyable, for all other things pale into insignificance when you are without good health. I tried different doctors and many proprietary remedies, but was not benefited.

"Last March I tried Dr. Williams' Pink Pills for Pale People and before I had finished the first box I began to feel that they were doing me good. I continued using them and steadily grew better.

"I have used thirteen boxes of the pills and to-day feel better than for the past fifteen years. My appetite is good, I feel bright, cheerful and have a desire to live and enjoy society.

"I have been a member of the Methodist church for many years, but for six years was unable to attend. I am able now to attend the church services regularly and certainly appreciate that privilege. I consider Dr. Williams' Pink Pills for Pale People a wonderful medicine and am confident no other medicine could have effected the wonderful cure they have in my case." Dr. Williams' Pink Pills for Pale People are composed of vegetable remedies that exert a powerful influence in purifying and enriching the blood thus curing many diseases.

### Three Good Things.

Three good things about Tetterine, besides the one great, good fact that it cures, are that it is painless, harmless and has no bad odor. It is the only cure for Tetter, Ringworm, Eczema, Cures them so they stay cured. No matter how long you have had them, 50 cents gets a box at druggists, or by mail for 50 cents in cash or stamps from J. T. Shuprine, Savannah, Ga.

DOCTORS FAIL, BUT GERSTLE'S FEMALE PANACEA CURES

My wife was taken sick and I at once called our family physician, and he thought best to call in another physician for consultation. After using their medicines for two months I found she was very little better, so I then purchased a bottle of Gerstle's Female Panacea and commenced treating her. Before she had finished taking the second bottle she was in better health than she had enjoyed in years previous. I then recommended the Panacea to three of my neighbors with good results.

# TEXAS LADIES SPEAK THE TRUTH.

Mrs. Lucille Seale De Leon, Tex., writes: I am a widow, and can strongly recommend Dr. M. A. Simmons Liver Medicine, it having saved my life 6 years ago, when I was down with Liver Complaint and Kidney Disease. I think it a far better medicine than that made by "Zellin" and "Black Draught."

During the period of gestation the tension upon the muscles and ligaments of the womb is greatly increased and the blood vessels are taxed to their utmost. If there is any tendency to uneasiness or pain, we recommend frequent warm injections of our Mexican Female Remedy and two or three doses, every day, of Dr. Simmons Squaw Vine Wine. This treatment will strengthen the ligaments, will assist in holding the uterus in place, lessen pain, make the uterus more pliable and elastic, and prepare the organs for the final effort. It also lessens the danger of death to child and mother, and fortifies her against liability to convulsions, flooding and other dangerous symptoms, and with ordinary prudence guarantees a rapid recovery.

# J. O. McTavish

Cleste, Tex., says: Dr. M. A. Simmons Liver Medicine is the best in the world for Biliousness, Indigestion and Torpid Liver. Have used it 10 years, and recommend it to my friends, and they all praise it. I think there is as much difference between it and "Zellin" and "Theford's" as between day and night.

Anemia is a condition often called "poverty of blood" from deficiency of the red corpuscles which give to this fluid its characteristic color. It arises from insufficient assimilation of the proper materials of food to replenish the blood, as in chlorotic girls. It may occur in persons who have long suffered with hemorrhoids, or in women from repeated discharges of blood from the uterus. The lips and tongue lose their natural red color and become white and the face looks wax.

The most efficient remedy for this condition is Dr. Simmons Squaw Vine Wine. The improvement produced by its use is frequently almost magical; an enfeebled heart becomes strong and equable in its action, digestion improves, the lips and cheeks lose their pallor, and the eye becomes bright and the step elastic.
