A BANK'S CHARACTER

A bank's character is and should be determined by the standing and ability of its officers and directors. They must be men who have been successful in their own affairs, and give careful attention to the bank's affairs. The long banking experience of each of the officers of the Munroe & Chambliss Bank, and the good standing of its directors, are reasons for the high character and sound judgment which has marked all of the bank's transactions.

KING CARLOS KILLED

Sovereign of Portugal and his Heir Apparent, Prince Luiz, Victims of Assassins' Bullets

Lisbon, Feb. 3.—King Carlos of Portugal, and the Crown Prince, Luiz Philippe, were assassinated Saturday afternoon. The king's second son, Prince Manuel, was slightly wounded, but Queen Amelia, who strove to save the crown prince's life by throwing herself upon him, was unhurt. The royal family were returning from Villa Vicosa where they had been sojourning and were on their way from the railroad station to the palace. A strong guard was in attendance, because of the recent uprising in the city and the discovery of a plot to assassinate Premier Franco and overthrow the monarchy.

Ambushed in the Heart of the City
A band of men waiting at the corner of the Praco do Commercio and the Rua do Arsenal suddenly sprang toward the open carriage, in which the family were driving to the palace, and leveling carbines, which they had concealed upon them, fired. The king and the crown prince, upon whom the attack was directed, were each shot three times and they lived only long enough to be carried to the Marine Arsenal, nearby, where they expired.

Three of the Assassins Killed
The guards sprang upon the regicides, the number of whom is somewhat uncertain, and killed three of them and captured three others. One of these committed suicide after being placed in prison. It is charged that one of the murderers was a Spaniard named Cordova.

An examination of the wounds of the king, who was already dead when he reached the arsenal, showed that three bullets had found their mark. One wound was at the nape of the neck, a second in the shoulder, and the third, which was the fatal wound, severed the carotid artery. The crown prince, who was still breathing, but who died almost immediately after admission to the arsenal, had suffered three wounds in the head and chest.

Two bullets had struck Prince Manuel, one in the lower jaw and the other in the arm.
Manuel Is Now King
Premier Franco, the dictator of the kingdom, hastened to the palace, protected by a squadron of cavalrymen, and there conferred with the queen and high officials of state on what immediate action should be taken. It is understood that Queen Amelia will be regent during the minority of King Manuel, who is now in his nineteenth year.

WON'T CARRY WHISKY

Into Prohibition States—An Important Announcement by the Louisville and Nashville Railroad

Louisville, Ky., Feb. 3.—Announcement is made by the Louisville & Nashville railroad that it will no longer receive shipments of liquor into Georgia or Alabama, states which have recently passed prohibition acts. A high official of the road gave the reason for the action by explaining that the right of the road to ship into prohibition territory, even though the traffic be interstate commerce, has been called in question by a suit filed in the federal court of Indiana, affecting the practice as carried on between Indiana points and points in Kentucky, which have voted against the sale of liquor.

\$100 REWARD, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for testimonials. Address: F. J. Cheney & Co., Toledo, O. Sold by all druggists, 75c. Take Hall's Family Pills for constipation.

IN AN INSANE ASYLUM

Harry Thaw Now Impatiently Waits the Action of the Golden File that He Hopes Will Cut his Iron Chains

New York, Feb. 3.—Adjudged not guilty of the murder of Stanford White by reason of insanity at the time the fatal shots were fired, Harry Kendall Thaw was held by the court to be a dangerous lunatic and was whirled away to the state hospital for the criminal insane at Matteawan. The verdict was brought in at 12:40 p. m. Saturday. Judge Dowling at once ordered that Thaw be sent to the asylum, saying no evidence had ever been produced in his court to show that it was not dangerous to the public for such a lunatic to be at large. Thaw rebelled at the decision and demanded that his counsel at once take out a writ of habeas corpus. Littleton, however, overruled his client and succeeded in convincing him that it was best for him to go to the asylum and await the slower but surer process by which he might be freed.

Jerome Hopes to Keep Thaw Jugged
So far as lies within his power, District Attorney Jerome will resist any effort to have Thaw liberated at any time in the near future. Neither will he willingly consent to his transfer to a sanitarium.

**NEGLECTED COLDS
THREATEN LIFE**

(From the Chicago Tribune.)
"Don't trifle with a cold," is good advice for prudent men and women. It may be vital in the case of a child. Proper food, good ventilation, and dry, warm clothing are the proper safeguards against colds. If they are maintained through the changeable weather of autumn, winter and spring, the chances of a surprise from ordinary colds will be slight. But the ordinary light cold will become severe if neglected, and a well established ripe cold is to the germs of diphtheria what honey is to the bee. The greatest menace to child life at this season of the year is the neglected cold. Whether it is a child or adult, the cold slight or severe, the very best treatment that can be adopted is to give Chamberlain's Cough Remedy. It is safe and sure. The great popularity and immense sale of this preparation has been attained by its remarkable cures of this ailment. A cold never results in pneumonia when it is given. For sale by all druggists.

**HORRIBLE TORTURE
INFLECTED ON HAMLIN**
Revolt Story of the Conduct of Officers in the Illinois State Reformatory

Pontiac, Ill., Feb. 3.—Members of the board of managers of the Illinois State Reformatory in this city heard stories from the lips of officers of the institution themselves of brutality and torture inflicted upon William Hamlin, an inmate, whose death and the conflicting explanation thereof have raised a storm of criticism.

The chief developments were the admissions wrung from officers of the institution that young Hamlin was chained up to the bars of the "solitary," his wrists held by handcuffs to a point even with the top of his head, for 22 hours the first day of his punishment, for 16 hours the second day, and that the third evening he was tied up, with every indication that he faced a similar period of torture, but his endurance gave out after five hours, and after he had revived from a faint he either tried to commit suicide or escape.

Being chained up again he climbed up the bars of his cell, probably while in a delirium. He fainted the first day of his torture and the third night, and for long periods during these fainting spells he hung by his wrists, suspended from a bar of his cell, his legs too limp to support his weight.

The "cold water cure" was applied, quart after quart of ice water being thrown over him to make him "quit shamming," and once it was poured down his throat until he choked.

After he was injured he was left lying on the concrete floor of the "solitary" with only a blanket under him and another over him, his back broken in three places and his body paralyzed, all but the arms, for 12 hours before the reformatory physician was called.

To make Hamlin rise to his feet, it was asserted, James W. Rogers, officer at the reformatory, kicked Hamlin while the latter lay prostrate in a cell. Then Rogers, in his excitement, when he saw the real physical condition of the prisoner, told J. E. Ash, another

guard, of the kicking, and Ash made it in a diary. These assertions made to the board of managers by A. Wilson, farmer of the institution, Wilson testified that the story was repeated to him by Ash.
