PROFESSOR J. H. BRINSON

Professor Jasper Hardee Brinson is a product of Marion county. He was born near Eureka and received all his early training in the public schools of the county. He attended the Ocala High School in 1883 and soon began teaching in the county schools. He improved every opportunity to advance his general education and attended several schools in other states. He continued to return to Marion county and teach in the winter. He served as principal of several of the best county schools and was located at Orange Springs when the Legislature made an appropriation to establish a commercial department in the East Florida Seminary at Gainesville. Having made a specialty of business and practical education he was easily chosen as principal of this department and went to work organizing and equipping same. His work here was eminently successful and satisfactory to the authorities. He remained in charge for four years when the institution was abolished by the famous Buckman bill with all the State schools. Professor Brinson's services were in immediate demand by Rolling College at Winter Park. He is serving his fourth year with them and has represented the college for three summers in a traveling capacity. In addition to his regular college duties he is chairman of the faculty committee on publicity. His department is always crowded with students and he has a large number in the various cities of the State holding lucrative positions. He keeps well abreast of educational thought and attends all the important associations of this character.

He has always been loyal to his native county and has remained a citizen of Marion and owns a home at Eureka on the Oklawaha river.

Possibly in no way has his educational work been of more widespread and permanent benefit than in his summer normal institutes held at Orange Springs at Ft. McCoy in which many of the county's best teachers have been trained. He is an enthusiastic and practical educator of which the county feels justly proud.

Prof. Brinson is a candidate for the important office of Superintendent of Public Instruction for Marion county, and will make a vigorous and manly campaign throughout the county. The interests of the public schools would be indeed safe in his hands.

BOARD OF PUBLIC INSTRUCTION

March 3rd, 1908.

The Board of Public Instruction, in and for Marion County, Florida, met this the 3rd day of March, 1908, in regular session, with Isaac Stevens, Chairman, B. R. Blitch and J. S. Grantham present.

Minutes of the last meeting were read and approved.

A petition from the Hurricane Pond School asking the Board to apply necessary funds to continue their school to the end of the term, which will amount to \$57.50 in painting and furnishing the house. The request was granted as the school has been suspended, on account of the death of the teacher, for nearly two months.

The Reddick colored school was ordered to stop for this term unless the trustees order it continued.

The resignation of Mr. D. L. Grantham, a trustee of the Sparr school district, was accepted and the appointment of some one to fill the unexpired term was deferred, as the regular election of trustees will take place the first Tuesday after the first Monday in April.

Mr. Cahoon, a trustee of the Griner Farm School, appeared and protested against the Board paying their teacher for the part of the last month he taught, saying he gave up the school without notifying the trustees or the school board that he would resign. That he thought he had broken his contract and a majority of the trustees protested against paying him. The matter was deferred until next meeting of the Board.

A bill of Smith and Roberts, for \$3.75 was presented to the Board for chairs claimed to be lost, in renting chairs to the School Board for a Teachers' Convention about one year ago. The bill was refused payment, as the chairs were rented with the agreement that Smith and Roberts should put the chairs in the Armory and take them out after the Convention, and as the Board did not handle the chairs in any way it did not think it was responsible for the loss.

A request from several of the patrons of the Andalusia school, asking for permission to send to the Citra school, after the expiration of the term at Andalusia, was read. As some of the trustees of the Citra school had suggested that the district continue the term at Andalusia, the Board thought that would be more satisfactory.

As the first Tuesday in April, 1908,
