

# Your Stomach Is Your Friend

If you have a good stomach and wish to keep it, steer clear of lard-cooked food. Lard is made from hog fat, and is more apt to be impure than it is to be clean and healthful.

*Cottolene* is the most reliable frying and shortening medium. It is a pure, wholesome, digestible product, that is bound to be more satisfactory than lard wherever it is given a fair test.

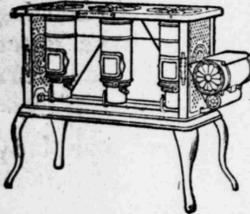

Besides being more healthful, *Cottolene* is more economical than lard or cooking butter, one-third less being required. It will, moreover, make more nutritious food than either lard or butter.

With all these advantages on the side of *Cottolene*, what argument have you for not using it? Your own grocer, if he is progressive, has *Cottolene* for sale. Buy a pail to-day, use it according to directions, and we will warrant you will never go back to the lard habit.

Nature's Gift from the Sunny South

## Don't Heat the Kitchen

All the necessary family cooking may be done as well on a New Perfection Wick, Blue Flame Oil Cook-Stove as on the best coal or wood range.

By using the "New Perfection" Oil Stove, the annoyance of an overheated and stuffy kitchen is entirely avoided, even in midsummer. The construction of the

## NEW PERFECTION

### Wick Blue Flame Oil Cook-Stove

is such that the heat is thrown directly upward against the kettle or pan upon the stove top, without affecting the atmosphere of the room to an appreciable degree.

You can at once see the advantage of this stove over a great range which throws heat in all directions—it is the ideal summer stove.

If your dealer does not have the "New Perfection" write our nearest agency.

The **Rayo Lamp** is substantially made of brass, finely nickelled and very handsome. Gives a powerful light and burns for hours with one filling. Portable, safe, convenient—just what every home needs. If not with your dealer, write our nearest agency.

STANDARD OIL COMPANY (Incorporated)

## Sanitary Security

Sanitary security and bathing comfort are yours when your bath room fixtures are sanitary and your plumbing modern.

"Standard" baths and lavatories are sanitary and beautiful—our plumbing work modern and our prices reasonable. We sell these famous fixtures and combine with their installation the workmanship which has made our reputation.

## F. E. & C. U. OF A.

Moss Bluff, June 22, 1908. To the Editor of the Star: In compliance with the wishes of our good brother, Carl Harter of Citra, the Moss Bluff local No. 169 held a meeting on the 20th inst., and appointed the writer for our correspondent, which I am not capable of doing owing to my limited education, but none of the members would have it, so I had to take leave or have no correspondent, and I hope the editor will please pardon poor writing and all mistakes. The Moss Bluff local has 23 members in good standing. We appointed delegates to the county union with instructions to push the matter of building a cotton factory also cotton gin and a seed crusher, so we can manufacture our own cotton and crush our own seed within our state, which will enable us to keep it out of the hands of the gamblers and speculators. By doing this the money will flow into our state instead of flowing out as it does now.

I appeal to all locals within the state to put their shoulders to the wheel and push and keep pushing until we accomplish this grand idea. Let us have all our cotton goods made at home and everything else we need. Then, and not until then, can we say we are independent.

**Appeal Number Two**  
I appeal to all members of the farmers' union within the state to give their local their attention and their regular attendance. Each and every member should consider it his important duty to attend his local. Let nothing except sickness hold him from his local. When one stays away he encourages others to do likewise, which is weakening our glorious cause. Our union is like a crop of cotton—it needs your regular attention as well as your attendance to keep it growing.

The writer would like to correspond with Brother Harter. I also wish to thank the editor of the Star for his kindness in giving us space in his pages, and I will be in the city in a month or so and will pay him a visit and a year's subscription. I wish to say if wholesale houses and factories will send me their prices and catalogues I will hand them to our members. Please find attached a clipping from the Jasper News and give space.

Yours for honest dealing in all things, Isaac Perry.  
Moss Bluff, Marion Co. Fla.  
P. S.—Moss Bluff local No. 196 will meet again on July 13.

**Cotton Situation—Some Suggestions**  
Your editorial in the Jeffersonian on "What is Cotton Worth?" is to my mind one of the most interesting articles you have published in many a day.

Presenting facts, you caused me to pause and think. I wish I knew of some way whereby the farmer could save that fifty dollars he is losing on each bale of his cotton. Now it has occurred to me that every pound of cotton grown in the South, should be manufactured in the South—and by the farmers themselves. I know I am not the only one that has thought this, but I would like to see a determination among Southern cotton growers to carry out the plan. I would like to see a great cotton factory owned and operated by farmers. I would be happy to see the work done in a factory by m. h. I would like for their wives to be at home, their children in school and the men in the factory at work. Why could we not have a factory in every congressional district to keep company with the agricultural sector?

Each farmer holding cotton for the union price should resolve to help manufacture it as he is so slow about getting the union price. In nearly every congressional district we could find:  
5 men able to invest \$2,000. \$ 10,000  
16 men able to invest 1,000. 16,000  
26 men able to invest 600. 15,600  
30 men able to invest 600. 18,000  
46 men able to invest 400. 18,400  
59 men able to invest 200. 11,800  
109 men able to invest 100. 10,900  
200 men able to invest 40. 8,000  
500 men able to invest 20. 10,000  
Total ..... \$168,000

That amount would put a good mill in close proximity to every farmer and in a few years could be increased until all the cotton goods could be made at home. To put this money in a cotton factory would be a good investment. It would be safer than a National Bank. To manufacture the cotton the farmer would get the benefit of protection. Just think of it, we pay the freight on our cotton from here to England and New England, then pay the freight on the cloth back and besides lose fifty dollars per bale. More we could manufacture the cloth here cheaper than they can in New Hampshire or other New England states. There are no coal mines in Maine, New Hampshire, Vermont, Massachusetts, Rhode Island nor Connecticut. Thousands of car loads of coal go from the middle states to New England. Of course water power is largely used in the East, but we have it here.

There is hardly a county in Georgia, but what has water enough to spin all the cotton grown therein into thread and weave it into cloth. We do not send our corn to New Hampshire to have it ground into meal, nor our sugar cane to have it changed to syrup. If we raise 12,000,000 bales per year and gain \$50 per bale by manufacturing it ourselves we will add \$600,000,000 to our wealth each year. Let us hope that some enterprising Farmers' Union will begin this work. Let others join in until all this work is done at home and the South in a few years will be the richest part of all the earth.—Citizen, in F. U. Dept., Jeffersonian.

The eight thousand union farmers of Florida could possibly double the above figures and organize a cotton mill company for the purpose of manufacturing both, short and Sea Island cotton. As soon as the money could be paid in, the company could also do the fact that the Farmers' Union Quarter Million Dollar Cotton Factory would be located in the town or city in this state which would offer the best inducements for its location.

There are at least a dozen towns in the state that, for the location of a mill of this kind, would make a large donation in cash to the company, would donate sufficient lands for building purposes and would exempt from taxation for a long number of years. In co-operation there is union and economy, and in union and economy, there is strength.

**Consumptives Made Comfortable**  
Foley's Honey and Tar has cured many cases of incipient consumption and even in the advanced stages affords comfort and relief. Refuse any but the genuine Foley's Honey and Tar. Sold by all druggists.

## BELLEVIEW

We are very sorry to say that Mrs. J. F. Pelot of this place has been on the sick list for the last few days, but are glad to state she is on the mend.

The melon crop at this place is about all in, as the rain came too late to do them any good, but still it does some good any way.

Lake Lillian, our beautiful little lake, is lower than it ever was, so the old settlers say.

Mr. M. A. Dudley, the hustling clerk for McGehee & Mayo, made another trip to Wildwood this week. Business must be "picking up," eh Manville?

Tuesday morning, June 23rd, the "City of Oaks" commenced the construction of the Ocala-Lake Weir hard road through the city limits, under the supervision of Mr. J. A. Freeman, chairman of the street committee. Let us hope that it will be a success.

Rev. E. F. Freer, pastor of the Baptist church at this place, filled his regular appointment here Sunday last. Mr. George Perry of Oxford and Miss Maud Deuser, one of the charming young ladies of this place, and Mr. T. Whisenant and Mr. James Cuthbert of this place, left here to go to the picnic at Oak Grove, near Oxford.

Judge L. L. Hopkins of this place made a trip to Ocala to meet the executive committee in place of Mr. J. A. Freeman, as business was so the latter could not be present.

Miss Lorenz Freeman, the charming daughter of Mr. and Mrs. J. A. Freeman of this place, left Sunday night via the Seaboard for Winston-Salem, N. C., where she will spend a few months with relatives, and also take a position as stenographer. Her father went as far as Jacksonville with her and returned Tuesday morning.

**Making Good.**  
There is no way of making lasting friends like "Making Good," and Doctor Pierce's medicines will exemplify this, and their friends, after more than two decades of this place, left here to go to the picnic at Oak Grove, near Oxford.

A good, honest, square-deal medicine of known composition is Dr. Pierce's Golden Medical Discovery. It still enjoys an immense sale, while most of the preparations that were once popular in the earlier period of its popularity have "gone by the board" and are never heard of. There must be some reason for this long-time popularity, and that is to be found in its superior merits.

When once given a fair trial for weak stomach, or for liver and blood affections, its superior curative qualities are so manifest, hence it has survived and grown in popular favor, while scores of less meritorious articles have suddenly flashed into favor for a brief period and then been as soon forgotten.

For a torpid liver with its attendant indigestion, dyspepsia, headache, nervousness, foul breath, nasty coated tongue, with bitter taste, loss of appetite, with distress after eating, nervousness and debility, nothing is so good as Dr. Pierce's Golden Medical Discovery. It is an honest, square-deal medicine with all its ingredients printed on bottle-wrapper—no secret, no hocus-pocus humbug, therefore don't accept a substitute that the dealer may possibly make a little bigger profit. Insist on your right to have what you call for.

Don't buy Dr. Pierce's Favorite Prescription expecting it to prove a "cure-all." It is only advised for woman's special ailments. It makes weak women strong and sick women well. Less advertised than some preparations sold for like purposes, its sterling curative virtues still maintain its position in the front ranks, where it has stood for two decades ago. As an invigorating tonic and strengthening nerve, it is unequalled. It won't satisfy those who want "booze," for there is not a drop of alcohol in it.

**Dr. Pierce's Pleasant Pellets, the original Little Liver Pills,** although the first pill of their kind in the market, still lead, and when once tried are ever afterwards in favor. Easy to take as candy—only three a dose. Much imitated but never equaled.

**SPIRITED RACES**  
The automobile and motor cycle races for cash prizes, on the Fourth of July, will be something new for these parts and promise to be big crowd drawers.

**DALLAS**  
We had a real nice shower last Tuesday, which was very acceptable and appreciated by all.

The shipping season is about over now and times are a little dull.

Mr. G. R. Smith of Ocala is down visiting his relatives and friends at this place.

Mr. and Mrs. H. T. Morris will leave today for Tampa and will remain a while with relatives.

Misses Ola and Jimmie Smith and Mrs. Grove and Lem Blackmon anticipate going to the Oak Grove picnic today. We hope they will have a nice time.

**JELL-O**  
The Dairy Dessert  
PREPARED INSTANTLY. Simply add boiling water, cool and serve. 10c. per package at all grocers. 7 flavors. Refuse all substitutes.

**HERBINE**  
All careful women use  
Woman who suffer from severe headaches, and all diseases due to a torpid liver, should not fill their stomach with calomel and other drugs.

**HERBINE QUICKLY CURES**  
Biliousness, Constipation, Chills and Fever, Dyspepsia, Malaria and all Liver Complaints.

Mrs. C. D. Phillely, Marble Falls, Tex., writes: "I find Herbine the best liver corrective I ever tried. It has done my family and myself a world of good. I recommend it to my friends."

## CITRA

Mrs. E. T. Burleson and Miss Beulah Alderman went to Ocala Monday for the treatment of their eyes.

Mrs. Evans and daughter, Mrs. Baker, of Island Grove, spent Wednesday with Mrs. W. J. Crosby.

Mrs. E. O. Sherouse spent Friday in Rochelle visiting Mrs. John Thomas.

Mrs. M. A. Rice left Wednesday for St. Augustine, where she will receive medical treatment. She was accompanied by Mr. Rice and her niece, Mrs. Tom Steele.

Mrs. J. B. Borland spent Thursday in Micanopy.  
Capt. W. H. Harrison has been on the sick list this week.

Mr. R. J. Steele went to Ocala Friday.

Misses Clara Vase and Clarnelle Leubeth of Island Grove, spent Tuesday in Citra.

Mrs. Charles Nottage spent Saturday at Sparr visiting relatives.

The following gentlemen were at the Redditt House this week, namely: Messrs. George E. Land, Jacksonville; P. D. Howard, High Springs; S. F. Davis, Hague; Harry Durst, Camden, Ohio; H. H. King, High Springs; B. R. Pound, Jacksonville; R. R. Young, Atlanta, Ga.

Sore eyes seem to be raging in this place now.

Mrs. M. L. Steele of Norfolk, Va., is visiting her sons at this place. Mrs. Steele was a resident here years ago. Her old friends are very glad to see her again.

# \$100 REWARD

## FOR JOHN PICKETT

Wanted for Murder

## MR. JOHN N. POTTER

On Night of May 15th, 1908

## DESCRIPTION

Color: Dark ginger cake, quite dark, some people might call black, but not absolutely.  
Height: About 5 ft. 9 in.  
Weight: 160 or 170 pounds.  
Age: About 45 years.  
Has small pox scars on face and enough mustache to show, but scanty. Face also rather full. One upper front tooth gold or shows gold plainly—possibly crown work or gold covered. (But he may remove this tooth to hide his identity.) Also some other teeth defected (snaggle tooth).

Said to walk somewhat sluefooted and supposed to carry himself fairly erect.

Has a medium coarse voice.

Turpentine hand worked for McGehee & Mayo, Levon, 1908 up to May 2nd, then Hall & Bigham, Pickettville, up to time of murder, May 15th, and last seen going toward Saganaw from Weeks still about 15 miles from Brooksville and going under name of Will Jones and accompanied with a smaller negro calling himself Will Bowman. Pickett was wearing blue pants, light shirt and black hat. Murder was done with double barrel breech loading shotgun, which he carried off with him; also will probably have small satchel.

Pickett is a widower and left two children with John Brooks, near Wildwood, and may get letter from that point.

Mr. Potter, whom Pickett murdered, was a well known young white man of excellent character and a nephew of Dr. W. V. Newsom of Ocala, and was manager of McGehee & Mayo at Levon camp, and leaves a young wife with a child two years old.

Notify Sheriff of Sumter county, Marion county, or us.
