FOLEY'S HONEY AND TAR

stops the cough and heals lungs

## STARTING THE STAMPEDE

Bryan is Gratified to Learn of a Democratic Victory in a Republican Stronghold

Fairview, Lincoln, Neb., July 17.—The defeat yesterday of a Taft man mayor of Walla, Walla, Wash., a Republican stronghold, was the cause of much jubilation at Fairview. With unfeigned delight, William Jennings Bryan announced the receipt of this telegram from W. H. Dunphy, Democratic leader of that city:

"The Democrats of Walla Walla, Wash., send greetings as the first favorable augury of victory at yesterday's election in this city, the home of United States Senator Ankeny, heretofore a Republican stronghold, which elected Eugene Taustie, the Democratic candidate for mayor, over W. P. McKean, a Republican, by a majority of nine hundred and forty-two. Mr. McKean is president of the local Taft club."

Bryan decided that the election was significant, in that it showed to the country that the Democrats have been justified in their forecast of a trend of political sentiment throughout the country.

## MISS CAMMACK REFUSES A MILLION

And Thereby Proves She Is One Woman in a Billion—Remains Comparatively Poor Rather Than Violate Her Father's Wish

Washington, July 17.—Her apparent under the law to \$1,000,000; her, in fact, by her father's will to \$50,000; refusing to contest that document and content and determined to continue her labors, as for nine years heretofore, as a \$600 per annum government clerk, the attitude assumed by Miss Anna S. Cammack, daughter of the late Washington millionaire, John Cammack, is perhaps without parallel in the history of the local courts or departments.

Settled in her modest apartments today, Miss Cammack, formerly Mrs. Anna Cammack Hardesty, until marital troubles overtook her and restored her maiden name, discussed in a most unassuming and unusual manner the peculiar stand she has taken.

"I shall not contest my father's will," she said. "I have never had any such intention. He left me \$50,000 in trust, the income from which I may use during my life, and which reverts to the estate when I die.

"It is true that he left to my stepmother and stepbrother the residue of the estate, estimated at from \$2,000,000 to \$3,000,000. I presume he had some intention. He left me \$50,000 in trust, the income from which I may use during my life, and which reverts to the estate when I die.

"I believe there was some objection," she replied evasively. Cammack continued that after her second marriage and after her own, the two branches of the family were on fairly good terms and exchanged visits. Those acquainted with the inner history of the elder Cammack's displeasure at his daughter's marriage, say that the will is evidence that he never fully forgave her.

The late John Cammack was a retired florist and occupied a magnificent home near Brightwood. His death occurred June 15 last. When his will was filed it was found that he had left practically all of his fortune to his wife, Elizabeth Cammack, and a minor son, John Edmund Cammack. Miss Anna Cammack is the only other direct heir. Mr. Cammack married about three years after the death of his first wife, twenty years ago.

## WAR AGAINST CONSUMPTION

All nations are endeavoring to check the ravages of consumption, the "white plague," that claims so many victims each year. Foley's Honey and Tar cures coughs and colds perfectly and you are in no danger of consumption. Do not risk your health by taking some unknown preparation when Foley's Honey and Tar is safe and certain in results. Sold by all dealers.

## LAUNCHES BUILT TO ORDER

The public is cordially invited to inspect the "Morrison," the beautiful launch at Silver Springs that I built entirely from keel to awning. I am prepared to build launches of any style and any reasonable size and completely finish and equip them ready for the water at moderate charges and in the very best workmanship. The work is fully guaranteed. If you want a beautiful model, a strong, safe and well built and speedy boat, place your order with me. Frank Mathews.

Ocala, May 18.

## The Doctor Away from Home When Most Needed

People are often very much disappointed to find their family physician is away from home when they most need his services. Diseases like cramp colic and cholera morbus require prompt treatment, and have in many instances proven fatal before medicine could be procured or a physician summoned. The right way is to keep at hand a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. No physician can prescribe a better medicine for these diseases. By having it in the house you escape much pain and suffering and all risk. Buy it now; it may save life. For sale by all druggists.

## ROADS MAY RAISE RATES

The Question Being Considered in a Conference of Railway Magistrates in Louisville

Louisville, Ky., July 17.—A conference of executive officials of Southern railroads operating south of the Potomac and east of the Mississippi was called here yesterday for the purpose of discussing a proposed increase in freight rates on certain commodities.

It can be stated that no increase of cotton and lumber rates are contemplated. It is highly probable, however, that the rate on cotton seed oil will be raised, as well as rates on other commodities. It is not likely that rates on general merchandise will be changed.

It is learned that the railroads will plead among other things in justification of any increase in rates that may be deemed expedient the necessity of overcoming rate reductions recently effective, notably with reference to passenger traffic.

The claim is made that the railroads have already gone the limit in the matter of reducing their operating expenses through curtailment of salaries in every branch where a cut could be made without inviting serious complications. Hence, the question now is the raising of revenue sufficient to meet the absolute exigencies of their properties.

Another justification for raising certain rates will be the necessity of meeting greatly increased operating expenses incident to the handling of this fall's business, and the fact that in many instances salaries which were reduced last spring will be restored to their former basis. Notice of an increase of rates in packing house and grain products August 1st has already been given.

While rates on certain commodities, notably cottonseed oil, will be raised, as a result of the Louisville conference, it can be said that the general question of rate increase will be treated very delicately, and no rates raised that can be allowed to remain as now fixed.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years doctors pronounced it a local disease, and prescribed local remedies, and by constantly falling to cure with local treatment pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from ten drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. Cheney & Co., Toledo, O. Sold by all druggists. 75c. Take Hall's Family Pills for constipation.

## HONOLULU IS HAPPY

Enthusiastic Reception Given to the Battleship Fleet on Its Arrival at the Cross Roads of the Pacific

Honolulu, July 16.—Not since the dusky and adipose Queen of the Paradise of the Pacific stepped down from her throne and resigned her crown and scepter and Uncle Sam, Rex, ruled in her stead has there been such an outburst of truly American patriotism as was seen when the American battleship fleet, under Rear-Admiral Sperry, reached here yesterday from San Francisco. It is not alone the Americans who were excited, but the native Hawaiians are quite as much so, and even the swarming thousands of Japanese—that horde of little brown men who, say the alarmists, will some day arise in their might and replace the Star Spangled Banner with the blazing ensign of the Mikado—even these have caught the infection and have become, for the moment at least, patriotic Americans.

When the battleship fleet arrived in the crescent-shaped harbor it had traversed a distance of 2,095 miles since leaving San Francisco nine days ago. The floating fortresses will remain here until next Thursday before resuming the voyage, with Auckland, New Zealand, as the next stopping place. During the week in Honolulu there will be scores of entertainments for both officers and sailors, and if Commander-in-Chief Sperry and the other rear-admirals of the fleet do not die of indigestion it will not be the fault of the entertainment committee.

As the vessels steamed through the narrow but deep channel which gives entrance through the coral reef to the harbor which is known as "the crossroads of the Pacific," the enthusiasm of the people, already boiling over, passed all bounds. Practically all of Honolulu's 40,000 population was on hand to give a welcome and was augmented by thousands of others from every part of the island of Oahu. It was a cosmopolitan crowd on the pier to greet the "jacksies," shouting "Aloha" ("Love to you") in the musical tongue of the Kanakas. There were wreaths of flowers which were thrown over the heads of the Americans as they stepped on the pier. It was an offering of a music and flower loving people. In the crowd were the full-bodied and plump-faced natives, Americans, Chinese, Japanese and Portuguese and mixtures of nearly all of these races.

## PLANTING DYNAMITE IN TOBACCO PATCHES

Scheme of Citizens of Lake County, Ky., to Head Off the Night Riders

Nashville, Tenn., July 17.—The depredations of the Night Riders have caused the citizens of Tiptonville, in Lake county, to adopt extraordinary means for their mutual protection. Five hundred pounds of dynamite have been planted in the shape of mines at every place in the county likely to receive a visit from the Riders, and a committee from the Law and Order League, named for the purpose, have been trained to set off the mines at the proper moment.

Five hundred men have been arrested in the Fourth district for alleged night riding. The arrests were based on information furnished from Ohio county. Other arrests are to follow. It is said that many prominent men are under suspicion of being aligned with the depredators.

## A TERRIBLE EXPLOSION

In a Pennsylvania Mine Causes the Death of Seven Men

Pottsville, Pa., July 17.—Seven mine workers were instantly killed and ten fatally injured here yesterday in a terrible explosion of gas in the Williamson colliery of the Summit Branch Mining Co., in the lower part of the anthracite coal field.

The explosion was one of the most terrific ever experienced in this section and the loss of life would have been much larger but for the small force at work at the time.

The mine was completely wrecked and caught fire immediately after the explosion. The explosion occurred in number one shaft, and is believed to have been caused by one of the men lifting the gaze of his lantern just after the explosion of a shot had brought down a large body of coal.

Everything possible for the relief of the ten men caught like rats in a trap was done, but many of them were so badly mashed and burned that it is hardly possible they will live.

The scene around the mouth of the shaft during the work of rescue was pitiful, as many of the wives and daughters of men employed in the mine gathered quickly, and in many instances assisted with shovel and spade in digging out the buried men.

## IF YOU KNEW

The merits of the Texas Wonder, you would never suffer from kidney, bladder or rheumatic trouble. \$1 bottle two months' treatment. Sold by druggists or by mail. Send for testimonials. Dr. E. W. Hall, 2926 Olive street, St. Louis, Missouri.

## ADAMS WAS ACQUITTED

Grand Junction, Colo., July 17.—Steve Adams, member of the Western Federation of Miners, was acquitted of the murder of Arthur Collins yesterday.

Adams' alleged confession of the crime was excluded as evidence by Judge Shackelford, and eight witnesses testified to an alibi for the accused man. Collins, who was manager of the smugler-union mine at Telluride, was shot November, 1902, while playing cards in his office.

## THE WORLD'S BEST CLIMATE

is not entirely free from disease. On the high elevations fever, malaria, while on the lower levels malaria is encountered to a greater or less extent, according to altitude. To overcome climate afflictions, malaria, jaundice, biliousness, fever and ague and general debility, the most effective remedy is Electric Bitters, the great alternative and blood purifier, the antidote for every form of bodily weakness, nervousness, and insomnia. Sold under guarantee at all druggists. Price 50c.

## TROY'S MYSTERIOUS TRAGEDY

Police Hunting for the Murderers of a Pretty Girl Whose Body Was Found Floating in a Pond

Troy, N. Y., July 17.—Rivalling in mystery and horrible detail the killing of Grace Brown, at Big Moose Lake, for which crime Chester Gillette paid the penalty in the electric chair, is the murder of Miss Hazel Drew, the pretty 18-year-old daughter of John Drew of this city, which is being proved by the police now.

The police are closely watching Frank Smith, a half-witted boy, and Rudolph Gunderman, a charcoal peddler, who admits having seen Hazel Drew on the night she is supposed to have been slain.

Both are being "sweated" in the hope of finding a clue to the mystery of the murder.

On the night of the murder, Smith is said to have made a frenzied trip to an Averill Park drug store, and, unable to gain entrance, ran back.

Although it is said this was done on a bet that he could not make the trip in 15 minutes, the police are endeavoring to find another reason.

The only clue to the murderers is found in the statement of Chris Crupe, proprietor of a hotel near Teal pond, that two women and a man dashed past his house the night of July 4 in an automobile, and that a few hours later two men and one woman were turned in the same machine. It is believed that Miss Drew was either murdered and taken to Teal pond and thrown into the water or that she was persuaded to go there and then was murdered.

Miss Drew was a governess in the family of Prof. E. R. Carey, head of the Rensselaer Polytechnic institute, and was a young woman of rare beauty.

The body was found by Gilbert Miller, a farmer, who, in driving to the city each day, passes the pond. He noticed the body several days last week but thought it was merely a bundle of clothes. Finally it had floated near the shore and then he discovered that the seeming bundle of clothes was a human body. He investigated and then notified the authorities of Rensselaer county here.

Investigation by Garvin C. O'Brien, district attorney of Rensselaer county, and County Detective Duncan Kaye led to the identification of the body by the girl's father, John Drew, of 400 Fourth avenue, and the discovery that she had been missing from the home of Professor Carey since Friday, July 3.

On that day the girl went to see her sister and took some clothes with her in a grip. She told her sister that she was going to see some friends at Watervliet, near here, and that was the last seen of her alive.

When the body was found in the pond, the girl's hat and gloves were found on the bank placed in such a position by the slayers as to give the impression that the girl had placed them there herself and had committed suicide.

When the district attorney and County Detective Kaye examined the body, they were found a heavy bruise at the base of the skull. This had plainly resulted from a blow with a heavy metal instrument. An autopsy was ordered, and the coroner found that the girl's skull had been fractured. The autopsy also showed that death was not due to drowning. The girl had not been mistreated before she was slain.

Coroner Straupe, of Poestenkill, arrived at the spot three hours after the finding of the body was reported. There was no doubt, he said, that a most foul murder had been committed. If the woman had fallen into the pond and drowned, her lungs would have been filled with water, but they contained not a drop. Neither were there marks of a weapon to indicate suicide.

## TRY THIS FOR DESSERT

Dissolve one package of any flavored JELL-O in one pint of boiling water. When partly congealed beat until light adding one cup whipped cream and six crushed macaroons. Whip all together thoroughly and pour it into a mold or bowl. When cool, it will jelly and may be served with whipped cream or any good pudding sauce.

The JELL-O costs 10c. per package and can be obtained at any good grocer's.

## CHICAGO LACKS CHIVALRY

Two Hundred Men Stand Idle and Watch a Woman Drown

Chicago, July 17.—While 200 men and boys sat or stood within a comparatively few feet of her, and in sight of nearly 1,000 others, an unidentified woman fell, or rolled purposely, from the north pier at the mouth of the Chicago river yesterday afternoon and was drowned.

Although she screamed repeatedly for assistance, not a hand in the crowd that watched her struggles in the water was lifted to save her. Instead, one stole the woman's purse and hat, which she had placed on the pier beside her, and fled.

## STARVED TO DEATH

is what truthfully could be said of many children who die. They have worms, poor little things—they don't know it, and you don't realize it. If your child is cross, fretful, pasty complexioned and loses weight for no apparent reason, give it White's Cream Vermifuge, you will be surprised at the results and how quickly it picks up. Sold by Anti-Monopoly Drugstore.
