THE PIANO RECITAL
AT THE BAPTIST CHURCH

The recital last night at the Baptist church by Signor Carlo Mora, director of the musical department of Sutherland College, was well attended and the program as presented by the professor was greatly enjoyed.

President J. P. Hilburn, of Sutherland College, accompanied Professor Mora, introduced him and made a short statement, biographically of the distinguished player and composer. President Hilburn said he was born in Italy and was educated at the Royal Conservatory of that country. His was a musical reputation which was more than national in its scope. He was pianist for the first concert given by Gilmore's band in London. also had the honor of performing on the big organ at the Centennial Exposition. He had been a prominent performer and professor of music in this country for some twenty years. and Mr. Hilburn said, best of all, he was a Christian gentleman.

Among the pieces rendered by Prof. Mora were Chopin's "Nocturne," "El Trovatore," "Where is My Wandering Boy Tonight," "Silver Threads Among the Gold," etc., which he executed with great technique, power and sweetness.

President Hilburn, during the intervals of rest for the performer, thanked the Baptists for their friendly cordiality and use of their church. He spoke of Christian education in the state, complimented the Baptists on their two colleges, Stetson and Columbia, and said the former was the best equipped school in the state.

Mr. Hilburn displayed paintings of the Sutherland College buildings and other subjects drawn by the art teacher of the school. One was a beautiful view of the bay that runs into the Gulf of Mexico a few miles from Sutherland.

THE NOBLE EQUINE
Drew the Line at the Merry Widow Hat

There is a fine horse at McIntosh that is the favorite of the family and the pet of the belle of the home. He is as gentle as a saint and fearless as a lion. Steam engines, autos or thunder and lightning have no terrors for him, but the other day the belle in question came sailing down the street under a Merry Widow hat, adorned with all the colors of the rainbow. The horse saw, became uneasy, then seriously disturbed and then frantic, and it looked as if he would tear up from its roots a giant oak to which he was fastened, or break his neck. The lady halted and instinctively guessing the cause of his fear, removed the headgear and placed it out of sight of the animal, which at once became calm and when the young lady approached and patted him he recognized her gentle and soothing touch and was himself again. That horse sure did draw the line at the Merry Widow hat.

These lines are intended for the members of the city council and board of health. The fact is so noticeable that we would have thought the same need no mention at our hands. Every Saturday the west side of the square is lined with animals, people coming in from the country and hitching their horses to posts along the street and many of them remaining there all day. The result is that Sunday morning this side of the square resembles a livery stable that hasn't been cleaned for a week. This is a very unsightly sight for church goers and most everybody that goes to church passes along that side of the street. Now, as this is a condition and not a theory, that confronts the town, would it not be well for the city authorities to have their street cleaner see that this particular portion of the city's streets is cleaned say at 9 p. m. Saturday night? It is an unsightly and unsanitary state of affairs that should appeal to all alike and we hope the authorities we attend to it.

W. S. Durst, the popular salesman at the Guarantee Clothing & Shoe Co., is absent on his summer outing. Writing from Augusta, Ga., the other day he said he hoped to be back in Ocala by this time, but he had been so busy looking up his "friendship" in the cemeteries that he would not get through calling for several days yet.

F. M. Dampier, one of the pioneer settlers of Citrus county and after whom Dampier Island was named, is in the city the guest of the Montezuma.

Mr. S. B. Brooks and family of Zuber, went down on the St. Petersburg excursion today. Mr. Brooks will rent a cottage for the summer and see his family located before he returns.

Captain Buckshot Williams, the popular Homosassa conductor, is off on a bear hunt and Capt. Logan is punching tickets over that route during his absence.

Duke Cato, who came up a few days ago from Tampa to visit his wife and babies, who are the guests of Mrs. Cato's parents, Mr. and Mrs. Norris, returned home this afternoon.

LOCAL LEGISLATION

The city council met in regular session last night with all members present except Mr. Duval, who is out of the city. Jack Lambright, colored, appeared and protested against the water from the streets being allowed to run across his yard. After discussion the ditch on Pine street was ordered filled in, and Pine and May streets repaired so that the water from the streets would not spread over the premises along said streets.

On motion of Mr. Jones the city attorney was instructed to immediately begin suits against property owners on the paving certificates.

A communication was received from Mrs. C. H. Dame protesting against raise in her assessment. Matter was referred to the finance committee. Mr. Delouest protested against certain encroachments on and damage to his property on West Exposition street. The matter was referred to the street committee.

Messrs. Boswell and Anderson, contractors constructing the Ocala and Dunnellon road, asked by letter for the use of the city's road rolling machine and offered to pay for same. The request was granted, they to pay at the rate of \$3 per day for the use of same from the time it leaves Ocala until returned.

Mason Tyson requested that the permit and license issued to Will Tyson be transferred to him. Same was granted. On motion of Mr. Rheinauer the city jail was ordered screened to prevent the passing of articles and weapons to prisoners through the bars of the windows.

Judiciary committee recommended that the gate ordinance be tabled as the enforcement of the stock ordinance will remove the necessity of gates, and if there are no gates they cannot swing out and across the sidewalks.

The judiciary committee amended section 15, the penalty clause in the milk and meat ordinance, changing the imprisonment penalty from ninety to sixty days, to conform to the city's charter. The ordinance as amended was read and adopted.

On motion of Mr. Jones, the street committee was instructed to confer with Mr. Williams, the contractor on the government building, to see if the three beautiful shade trees on the north side of the block could not be saved by moving the curb of the sidewalk a little farther out or in, to avoid being on a line with the trees.

The special committee on the street paving bill reported. (See report elsewhere in this issue.) In the matter of cancelling the bond of the Fitzgerald Co., Judge McCannathy was authorized to attend to the same, in the absence of the special attorney, Edwin W. Davis.

The millage for the next year was fixed at 17 mills, the same as for the past several years, the only change made being one mill was taken from the bond interest fund and added to the general fund and the millage now stands as follows: Sinking fund 1 mill; general fund, 9 mills; light and water fund, 0 mills; bond interest fund, 2 mills; fire and water fund, 5 mills, total, 17 mills.

WILL BRING SUIT ON PAVING CERTIFICATES

Sixteen Parties Have Not Paid Their Assessment for the Brick Paving
At the regular meeting of the city council last night the city attorney, Mr. C. L. Sistrunk, was instructed to immediately begin suit against property owners who have not paid their paving assessments. There are sixteen persons and firms who have not, up to the present time, paid the assessments on their properties around the square, where the vitrified brick paving was done. Each property owner pays one-third of the width of the street on the front or side of his property, whenever it abuts on the streets that were paved.

The aggregate of the certificates uncollected, without interest, is \$6,398.62, of which the portion assessed to the county and which it is very doubtful if the city will ever collect, amounts to \$2,554.29. The special committee appointed at the last meeting of the council to go into the matter of the paving company's accounts against the city, confer with the company and arrive at an agreement for settlement, reported last night that the Fitzgerald company had agreed to allow one-half of the disputed items in their bill, a matter of over \$700, and the committee recommended the payment of the balance due the company, which is \$3,787.20. The city owns the Munroe & Chambliss Bank, borrowed money and interest, about \$4,400, the two bills comprising the total indebtedness outstanding against the paving contract, which approximates \$30,000 and when the paving certificates are collected, not counting the portion assessed to the county, there will only be about \$4,500 of the debt remaining in round numbers, with the taxes for 1908 untouched.

The city has made a fine showing and the council is to be congratulated upon its management of the city's affairs. Had the council not retired so many bonds in the past two years there would be a large balance in the sinking fund, and as it is the fund is up with its obligations, has some money in the treasury and has retired bonds far ahead of their maturing time.

"SHORTY" CLARK WON A PRIZE

Tampa Man Was the Tallest Elk at the Dallas Convention
The following is taken from the Times-Union and will be read with interest by Mr. Clark's many friends in Tampa:
"H. C. Clark, who took the \$100 prize offered at Dallas for the tallest Elk in the world, is well known in Jacksonville, being the junior member of the El National Cigar company, of Tampa. "Shorty," as he is familiarly called by his intimate friends, despite his extreme height of six feet ten inches, is perfectly proportioned. He weighs 248 pounds, and is a splendid specimen of manhood. At Dallas he overtopped the famously tall Texans and a number from other sections of the country who were "banking" on the prize. At Dallas he had his picture taken holding at arm length Prince Nicol, of Russia, 26 inches high, 23 1/2 pounds, the smallest Elk in the world." —Tampa Times.
