SUCCESS CROWNED HIS EFFORTS

W. Knox Cleveland, who spent a few days in the city with his brother, Mr. G. W. Cleveland, returned to Atlanta today. During his absence since last March he has been busy getting monied men interested in his new patent traction automobile and succeeded, and what is better, he built his machine along the lines of his patent and has one he and those associated with him are proud of. He said and so do the Atlanta papers say, it is a real hill climber and sand wader. It is known as No. 219. Articles of incorporation are now being published and the new company will be known as the Atlanta Motor Co., in honor of the fleet-footed goddess of mythology. The party deeply interested in this new enterprise is one of Atlanta's rising young business men, Hubbard L. Wiggs, Mr. J. E. Moravitz of Norfolk, Va., a former employe of the Ocala Gas Engine Works, assisted Mr. Cleveland in building his new machine. It is very evident from the favor which this new Cleveland auto is received in Atlanta that it has a bright and prosperous future before it and that a name and a competency are in store for the genius who devised the machine that takes hold of the earth and can move things.

Mr. C. M. Murphy, the strawberry grower of the Griner Farm section, was a visitor in town Saturday and cheered the heart of the editor of the Star. He said the past season in trucking was almost a failure so far as making money out of the business. But Mr. Murphy is one of the stand-bys and never says die. His friends and relatives in the West are after him hot to come out a sniff the breezes of Kansas and are satisfied if he could fill his nostrils and lungs with Solomon Valley air, his fate would be sealed as to his living in Kansas. So anxious are his friends for his presence and his dear old mother, whom he has not seen for forty years, that they offer to send him a ticket to come out, and he is considering the proposition. Mr. Murphy has a young son who is certain to make his mark. He is only 16, and after sticking by his father during the trucking season, remarked to his father, "Nothing special doing at home, I'll get a job at the saw mill and that I know I'm earning my bread by the sweat of my brow, I'll save mother the trouble to cook for me, so I'll just board." Now there is the right spirit and grit for a lad. That boy will make his mark in the world of products, if his life is spared. He has that independent, self-respecting, determined mind that will make a way for him in the years to come among his fellows, and mark our word his character indicates plainly he will be a top-notch. Boys, here is a spirit to emulate.

The Florida Experimental Station at Gainesville has issued its 95th bulletin on how to prepare celery seed beds and when to sow the celery. August and September are the months in which to prepare the beds so as to market the output in January and April. New land is better adapted to this crop than any other and hummock land is most desirable. Seed beds should be shaded with slats or cheese cloth.

A card from R. R. Carroll, business manager of the Star, from Saluda, dated Saturday, informs us the weather is cool, the thermometer ranging at 60 and fires in the evening were found comfortable. He also reported the arrival that day at Saluda of Mrs. Harry Clarkson and two children, of Ocala.

The remains of the late Charles Counts were buried yesterday afternoon in the old Long Swamp graveyard. There was a large attendance of relatives and friends. Rev. C. C. Carroll of Ocala preached the funeral sermon.

Rev. C. C. Carroll preached a splendid sermon Sunday morning on the inspired word of God. He did not believe in the higher criticism that prevailed, that threw doubt on the inspiration of the New Testament. He had a good audience and interested them greatly. He only spoke twenty minutes, but said volumes in that time.

Hon. M. L. Payne of Fairfield, seeking for more productive worlds to conquer and with this idea in view has been inspecting lands back of Belleview and thinks he will plant a hundred acres or so next year in melons and cantaloupes.

Mr. W. G. Cannon and wife of Gainesville, spent Sunday with friends in the Brick City. Mr. Cannon is a former employe of R. E. Yonge's bicycle shop. Mr. Cannon looks well and likes his new home.

J. M. Mathews, the county commissioner from the Fleming section, with his bright son, Neal, were in town today on private business. Mr. Mathews has been down with dengue fever the past week.

J. Pearson Moody is here from Jacksonville, and will spend some time in Tampa and vicinity. Mr. Moody, who formerly lived in Ocala, recently entered the forestry branch of the government service and has been sent to this section to gather information relative to the amount of timber now covered by turpentine operations, also the amount of round timber standing, virgin or turpentine. Mr. Moody is a brother of J. Sloman Moody, who recently purchased an interest in the Tampa Automobile and Garage Co.—Tampa Times

TAFT WILL TINKER THE TARIFF

Republican Nominee Says, if Elected, He Will Immediately Call Congress in Extra Session

Hot Springs, Va., August 23.—"If elected I shall call the sixty-first congress together in extraordinary session to revise the tariff at the earliest possible moment I have authority to do so. I consider such action to be my obligation under the tariff plank of the republican platform." Just what Taft's views are regarding the revision of the tariff, are incidentally expressed in the above. The words were made without reference to what the democratic nominee said on the subject, but in answer to a query as to how Taft interpreted the republican tariff plank.

LETTER TO P. S. HALL

Ocala, Florida

Dear Sir: Mrs S C Ashe's house in Yorkville, S C, was painted Devoe 21 years ago and hadn't been painted since; it is a handsome house and the paint was in good condition when we were there three years ago.

Do we therefore say that Devoe wears 21 years in South Carolina? No; on the sandy coast, where the sun is hot and the flying sand cuts the bark off trees, Devoe is the only paint that wears more than one year.

Localities differ: Devoe doesn't differ. It is the paint that takes least gallons to cover a job and makes least cost and wears longest; how long depends on sun wind sand etc.

Yours truly,

F W DEVOE & CO

P. S.—The Knight-Martin Co. sell our paint.

STREET WON THE SHEKELS

By Catching a Baseball Dropped from the Top of the Washington Monument

Washington, August 23.—Charles Street, catcher of the Washington baseball team, yesterday won a bet of \$500 made with John Riddle, of this city, by performing the unprecedented, though oft attempted feat of catching a regulation baseball dropped from the top of the Washington monument.

The ball was dropped from one of the small windows near the top of the monument, a height of 550 feet above the pavement, where Street caught it on the thirteenth attempt, the failure being due to a rather brisk wind, which deflected the ball from its course. Street was considerably jarred by the impact of the sphere in his big catcher's glove, but nevertheless caught in this afternoon's American league game in this city.

Atlanta, Ga., Aug. 24.—Train 38 on the Southern Railway, known as the Southwestern Limited, which left Atlanta shortly after noon yesterday, was wrecked four miles north of Suwanee, Ga., about 3 o'clock yesterday afternoon.

The colored fireman Mason Watkins, was killed instantly, and the engineer, B. F. Dewberry, of Atlanta, was badly scalded, both being pinned underneath the engine after it left the track and turned over. The mail car, baggage car and combination car also left the track and turned over, rolling down a fifteen-foot embankment. Engineer Dewberry died several hours later.

Morris Falk has recently been out on the road working up the safe business, and reports four safes sold by him during his two day trip this week. If there are such hard times, as we sometimes hear, the people at least found something to put in all of these new safes.—Tampa Times

SHEATH GOWNS WILL BE SEEN

At Matinees Held at the Georgia State Fair—They'll Soon be Seen in Ocala

Atlanta, Aug. 23.—"Sheath gown matinees," for women only, where exhibitions and private demonstrations will be given by a trio of the most beautiful models of Rome and Paris, will be one of the daily features of the program of the women's department of the Georgia state fair, to be held in Atlanta October 6 to 20.

The display of the directorie gown, which has caused a sensation of two continents, will be for women visitors only, with the exception of the appearance of the models in boxes at the automobile and other races, which will be given later in the afternoon in front of the race track grandstand.

The officials of the fair have been in correspondence with the prominent firm of New York importers, who asked to be allowed to make an exhibit of the sheath gowns at the fair. This will be done at a heavy cost in view of the fact that the importers will have to pay an almost exorbitant rate of insurance on the gowns which will be introduced direct from Paris. Lloyds' and other insurance agencies have placed a high rate of insurance on the gowns on account of their cost.

The gowns will be accompanied to America by three of the most beautiful models—two from Paris and one from Rome. One of the models will be the original "sheath gown" model, who introduced the first gown at the Paris race tracks. The demonstrations will be given in the woman's building, and will be hidden to curious masculine eyes, although they will be open to public gaze afterward at the races.

SON-IN-LAW NICK IS SARCASTIC

Cleveland, Ohio, Aug. 24.—"The democratic candidate for president needs no introduction—he is the same old Bryan." Congressman Nicholas Longworth said to the thousands of persons who attended the annual picnic of the Cuyahoga County League of republicans at Luna Park yesterday. Mr. Longworth was the central figure at the outing. Mrs. Longworth, the president's daughter, was not present to share the honor given her husband. The president's son-in-law also presided as judge of a pretty baby contest. He said that this was the most embarrassing and difficult task he ever attempted.
