

A Woman's Health

Is a heritage too sacred to be experimented with. For her peculiar and delicate ailments only medicines of known composition and which contain no alcohol, narcotics, or other harmful or habit-forming drugs should be employed. The one medicine which fulfills all these requirements is Dr. Pierce's Favorite Prescription—a remedy with a record of over forty years of cures to recommend it; a remedy, the makers of which print its formula on every bottle-wrapper and attest its completeness and correctness under oath; a remedy devised and adapted to woman's delicate constitution by an educated physician—an experienced specialist in woman's diseases; a remedy, every ingredient of which has received the written endorsement of the most eminent medical writers of all the several schools of practice for the cure of woman's peculiar diseases; a remedy which has more bona-fide cures to its credit than any other sold by druggists for woman's special requirements. It is not given away in the form of "trial bottles" to be experimented with, but is sold at a fair price by all dealers in medicines.

Delicate, weak, nervous women should especially shun the use of alcoholic medicines which, from their stimulating and exhilarating effects may seem, for a time, to do good, but which from the inevitable effects of the alcohol in shrinking up the red corpuscles of the blood are sure to do great and lasting harm in the long run. Besides they beget a craving for stimulants which is most deplorable.

Only invigorating and nerve strengthening effects can follow the use of this famous medicine for women. It can not possibly do harm in any state or condition of the system. It has been carefully adapted to woman's needs by an experienced physician—a specialist in their diseases. It makes weak women strong and sick women well.

If a woman has bearing down, or dragging pains, low down in the abdomen, or pelvic, backache, frequent headaches, dizzy or fainting spells, is nervous and easily startled, has gnawing feeling in stomach, sees imaginary floating specks, or spots before her eyes, has melancholia, or "blues," or a weakening disagreeable drain from pelvic organs, she can make no mistake by resorting to the use of Dr. Pierce's Favorite Prescription. It will invigorate and tone up the whole system and especially the pelvic organs.

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate system. It is made of native American medicinal roots and is perfectly harmless in its effects in any condition of the female system.

As a powerful invigorating tonic, "Favorite Prescription" imparts strength to the whole system and to the organs distinctly feminine in particular. For over-worked, "worn-out," run-down, debilitated teachers, milliners, dress-makers, seamstresses, "shop-girls," house-keepers, nursing mothers, and

feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequalled as an appetizing cordial and restorative tonic. As a soothing and strengthening nerve "Favorite Prescription" is unequalled and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, St. Vitus's dance, and other distressing, nervous symptoms commonly attendant upon functional and organic disease of the uterus. It induces refreshing sleep and relieves mental anxiety and despondency.

No woman suffering from any of the above symptoms can afford to accept any secret nostrum or medicine of unknown composition, as a substitute for a medicine like Dr. Pierce's Favorite Prescription, which is of known composition and has a record of over forty years of cures and sells more largely to-day than ever before. Its makers withhold no secrets from their patients, believing open publicity to be the very best guaranty of merit.

Dr. Pierce invites all suffering women to consult him by letter free of charge. All letters of consultation are held as strictly private and sacredly confidential and all answers are returned in plain, sealed envelopes. Address: Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets cure constipation. Constipation is the cause of many diseases. Cure the cause and you cure the disease. One "Pellet" is a gentle laxative, and two a mild cathartic. Druggists sell them, and nothing is "just as good." They are the original Little Liver Pills first put up by old Dr. Pierce over 40 years ago. Much imitated, but never equalled. They are tiny sugar-coated granules—easy to take as candy.

Dr. Pierce's great thousand-page Illustrated Common Sense Medical Adviser will be sent free, paper-bound, for 21 one-cent stamps, or cloth-bound for 31 stamps. Address Dr. Pierce as above.

SPECK VON STERNBERG

German Ambassador to the United States is Dead—He Visited Florida Last Winter

Heidelberg, Germany, August 25.—Baron Speck Von Sternberg, the German ambassador to the United States, died here last night. The baroness, who was Miss Lillian May Langham, of Louisville, Ky., was with her husband at the end. The death of Baron Von Sternberg will cause general grief among the Germans throughout the world, and especially in the United States. He was one of the greatest statesmen the empire has produced and was especially popular in this country. Last February he paid a visit to the South, and was enthusiastically received at the Florida State Fair in Tampa. Jacksonville Germans arranged for a splendid reception for him in this city, but the distinguished visitor found it necessary to change his plans and only remained here a few hours.

AN ARISTOCRATIC VAGRANT

Philadelphia, Aug. 25.—A real aristocratic tramp honored the Twenty-fourth District Police Station with his presence when Joseph Gregor of Russia applied for a night's lodging. Through his clothing was sadly out of repair, Gregor looked as though he was not a stranger to soap and water, and he said he had seen better days. His fastidious tastes were shown in the property taken from his clothing. It included a manicure set, a razor, two cakes of toilet soap, a lead pencil and a pad of paper. The two last-named articles Gregor said he employed in taking observations of his travels through America. He had also a \$100 bill in his possession, but it was of the stage variety. Gregor, who is about 40 years old, has been working on farms around Bridgeburg, but he got out of employment and was obliged to appeal for shelter.

A FAITHFUL OLD DOG

Minneapolis, Minn., Aug. 25.—Harry H. Weeks, a letter carrier, asked the Humane Society to kill his old St. Bernard pet, Bonnie Doon. An hour later he telephoned that he would not take \$10,000 for the same dog. While the wagon was on the way to claim the animal the faithful old fellow saved the life of 4-year-old Howard Weeks. The dog was playing with the baby on the lawn when a vicious bull dog attacked the child. The old, half-blind dog threw himself between the enraged animal and the child. He was badly bitten, but his staggery had prevented him from receiving serious injuries.

A WEAKLING

is the only way to describe the poor child that is afflicted with worms. No matter how much or how often it eats, the worms get all the nourishment from the food, the child gets practically none. White's Cream Vermifuge gets rid of the worms quickly, easily and with no bad after effects. Price 25 cents a bottle. Sold by Anti-Monopoly Druggists.

WORLD'S GOLD PRODUCTION; ITS EFFECT UPON PRICES

(Manufacturers' Record, Baltimore.)

The production of gold, to which attention was thus called, goes on with an accelerating pace. During the first half of the nineteenth century the total production of gold was \$787,000,000, while during the second half it amounted to \$3,900,000,000. For the first time in the history of the world the production of gold exceeded \$200,000,000 in 1896, while in 1903 the output was about \$350,000,000 and in 1907 it was \$112,000,000. In other words, two years' production now will largely exceed the total production of the first half of the nineteenth century. The production of the 12 years from 1896 to 1907, both inclusive, was over \$3,720,000,000, or considerably more than the total production of the world from 1492 to 1895. The world's production from 1492 to 1895, a little over 400 years, was \$3,700,000,000. In the last 12 years the world has produced 42 per cent as much gold as it did in the preceding 403 years. Reviewing this situation we said on March 7, 1907: "In studying these figures every thoughtful man must be impressed with their significance, and with the tremendous influence of this gold output upon the expansion of the world's trade and commerce, of a steadily rising cost of living which necessarily means high wages, of a great increase in the value of landed properties, agricultural as well as coal, and ore and cement and timber, and all other like those of bonds and mortgages, are not limited to a fixed rate of income. Temporary reactions will not count very much in halting this upward and forward movement. Its end is not yet in sight, though no one would be so foolish as to say that in the readjustment of the world's business to these conditions there may not be some sharp reaction." Notwithstanding the temporary reaction since last October there has been but little halting in this upward movement. We have seen the great unrest among the laboring people, forced by the increased cost of living. We have seen the remarkable increase in the price of agricultural products and of farm lands, and this goes steadily on. And already there are signs that the temporary reaction which caused a decline in the value of manufactured products is passing away and that prices are again beginning to rise. The wise man will recognize these conditions and plan his business operations accordingly.

WANTED A PLEDGE

The seven or eight men holding down two seats in the open car were talking politics and paying no attention to the one single man not of their crowd, says the New Orleans Picayune. He was a humble-looking man, and he didn't appear to have an opinion to give out. During a lull in the conversation one of the others said to him: "You see, we are all Bryan men here."

"Yes."

"And I suppose you are the same?"

"Well, I dunno about that."

"But you like the man, don't you?"

"Oh, yes."

"And isn't the platform sound?"

"Yes."

"Then what's the matter that you are not swinging your hat?"

"I am simply waiting for Mr. Bryan to pledge himself. He's all right on finance, tariff and other big things, according to my way of thinking, but there's one little matter of vital interest to me and I want his pledge before I do any shouting."

"And what's that?"

"That is, how does he stand on the huckleberry pie question? Is he for 'em or against 'em? Is the huckleberry pie all right and to continue with us through prosperity and panic, or is it all wrong and to be substituted by peach or pumpkin? I want his pledge, gentlemen, and am waiting for it."

Chamberlain's Colic, Cholera and Diarrhoea Remedy, Better Than Three Doctors

"Three years ago we had three doctors with our little boy and everything that they could do seemed in vain. At last when all hope seemed to be gone we began using Chamberlain's Colic, Cholera and Diarrhoea Remedy and in a few hours he began to improve. Today he is as healthy a child as parents could wish for."—Mrs. B. J. Johnston, Linton, Miss. For sale by all druggists.

AT THE CANNING FACTORY

During the interim between the bean and potato crops Processor Nachbauer, of the Starke Canning Factory, has preserved the juice of scuppernon grapes. The grapes were first thrown into hot water and thoroughly cleaned, then preserved. The juice was then strained, put into pint bottles, and these were placed in boiling water for fifteen minutes, when they were corked and sealed. The bottled juice, which is thoroughly sterilized, has an agreeable sub-acid taste and when diluted with water makes a pleasant and healthful beverage.

Canning of sweet potatoes will begin a month from now, but a small quantity has already been preserved. They are scalded, peeled, cooked in a scientific manner and nothing added except thin sugar syrup. This product tastes far better than potatoes cooked in the ordinary way and will be much appreciated by house-keepers.

Tasteful labels bearing the legend "Bradford County Brand, Starke Canning Factory, Starke, Fla.," have been pasted on the goods already canned, and the store-room holds a large pile of boxes of canned goods awaiting shipment. This looks like business, and the present efficient management of the factory is bound to make it a success.—Starke Telegraph.
