District 5—W. J. Crosby, Citra.
Members of School Board
District 1—Isaac Stevens, Ocala.
District 2—B. R. Blitch, Blitchton.
District 3—J. S. Grantham, Ft. McCoy.

TOOK THE LONG LEAP INTO THE DARK

Irving Cazabat, Formerly of Ocala, Suicided in Tampa Saturday Night
(Tampa Tribune 6th.)
Drinking an unusually large and fatal portion of laudanum, Edward Irving Cazabat, white, 32 years of age, succeeded in ending his earthly career between 9 and 10 last night at his boarding house, No. 403 Morgan street, corner Scott.

SOME RAIN AT BELLEVIEW

This morning we ran across the pioneer settler of Belleview, Mr. R. C. Ridge, who said they had the biggest rain Saturday ever known. In two hours and a quarter there was a rain fall of 5 1/2 inches. He said that Mr. Pratt, who is doing some farming west of town, in driving three miles caught 6 1/2 inches of water in a barrel without a head and in that barrel was a tin pail with the lid about air tight was found on getting home an inch and a quarter of water, while R. C. Ridge said it rained so hard and fast that it literally made the waters run over the earth, for in getting from his barn to his house, the ground slanting somewhat from the bar into the house, the water ran so deep it filled his shoes. More water was drained in Lake Lillian during this rain than it has received in a year. It was a rain sure and as the old settlers express it, it was a light wood knot mover. Hard as it came down, it was most acceptable.

At a big mass meeting in Palatka, Mr. Selden, a leading citizen, submitted the following plan to bond Putnam county for improvements:
This plan, which Mr. Selden has designated as "Exhibit No. 4," calls for a bond issue of \$190,000, the bonds to bear interest at rate of 5 per cent and not to be sold below par. This amount, Mr. Selden explained, was the maximum amount possible for the county to issue and redeem at the present rate of taxation.
Of this amount of bonds, \$100,000 is to be devoted to hard roads, \$35,000 for a court house, \$45,000 for a St. Johns river bridge at Palatka, and \$10,000 for a bridge over Dunn's creek. Mr. Selden explained that to redeem these bonds the county would need a yearly revenue of \$11,000 to provide sinking fund and interest, the bonds to be retired as follows: \$25,000 in fifteen years; \$20,000 in twenty-two years; \$20,000 in twenty-seven years; \$40,000 in thirty-five years; \$40,000 in forty years, and \$45,000 in forty-five years.
So clearly had Mr. Selden worked out the problem of the bond's redemption without extra taxation, that he soon had the audience completely with him, and one prominent man from Crescent City, who stated that he came to the meeting opposed to the scheme, could not, after Mr. Selden's demonstration, continue that opposition. He would now favor it—Palatka News.

To accentuate the fact that Miss Legie Blitch and her brother, Landis Blitch, would shortly return to take up their studies at Columbia College, Lake City, these two popular young people of the precinct invited a few of their friends and entertained them delightfully Friday night. Those present were Mrs. D. B. Morrison, of Morrison, Miss Ausley of Fawnville, Miss Williams, Prof. Rogers and Mr. T. Phillips, Fellowship, Mr. A. N. Goodwin, of Standard, with others to the number of twenty. With music, games, pleasant conversation, ice cream and cake, the hours flew.

Mr. and Mrs. A. P. Geiger, who reside on the Silver Springs road opposite the Fort King Baptist church, held a family reunion a few days ago to celebrate the 60th anniversary of Mr. Geiger's birth. The children present were Mrs. Barber, Palatka; Mr. and Mrs. Boring of Eureka; Mrs. Whaley and daughter and two grand children, of Kissimmee; Mrs. Marsh and son of Daisy; Mrs. Warren Milligan, Anthony, and Mr. and Mrs. P. A. Geiger of Silver Springs. A big dinner was served to those who joined in this happy reunion and it proved a day in the lives of all of a most pleasant nature, with congratulations for many returns.

According to Rev. L. D. Geiger, of Apopka, the corresponding secretary of the State Baptist Association, the Baptists of the state of Florida number 30,000.

HOW TO AVOID APPENDICITIS

Most victims of appendicitis are those who are habitually constipated. Orin Laxative Fruit Syrup cures chronic constipation by stimulating the liver and bowels, and restores the natural action of the bowels. Orin Laxative Fruit Syrup does not nauseate or gripe and is mild and pleasant to take. Refuse substitutes. Sold by all dealers.

If you want a pretty reading lamp to connect with your electric light current in the library or hall of your home, see Walter Tucker, the electrician, about it.

Rev. J. H. Johnson, of Lakeland, a colored Mason of note in the state, died at that place on the 28th of August and was buried yesterday in Jacksonville. He was a half brother of Rev. J. H. Dickerson, formerly of Ocala and grand master of the colored Masons of the state.

PETTEWAY MAY BE PRESIDENT

Of the Bank of Tampa in Place of P. S. Cooper
(Tampa Tribune, 6th.)
P. S. Cooper will tomorrow transfer his majority holdings in the stock of the Bank of Tampa to Gustavus A. Petteway, vice president of the Peninsular Naval Stores company. To discuss and pass upon such a transfer of stock the directors of the bank will hold a meeting tomorrow. Mr. Cooper will tender his resignation as president and will retire from the banking business, at least for the present.

The Bank of Tampa was organized June, 1907, by Mr. Cooper and his friends, who have always owned and controlled a majority of the stock. He has been the bank president practically since its organization and under his wise, careful and cautious business management, the bank has made a wonderful success.

Started During Panic

The organization was perfected at the inception of the "so-called" panic and during its business career conditions in Tampa and South Florida generally have been about as bad or worse than some of the oldest bankers in this section have experienced. Despite these unusual conditions, the bank, under Mr. Cooper's management has shown a steady growth resulting in a net profit to stockholders of practically seven per cent. on first year operations, a record very seldom exceeded by a financial institution even under ordinary conditions.

Mr. Cooper is a man of mature banking experience, having come to Tampa from South Carolina, where he has had long years of official connection with several large banking institutions of the Palmetto state. His physicians have advised a change and rest, and should the negotiations be carried through tomorrow, he will take a much needed vacation in the mountains of North Carolina, after which he will return to Tampa and engage actively in other lines of business. Business interests generally will regret his severing connection with the bank whose influence he has wielded so well.

Petteway to be President

In Mr. Petteway the institution will find a very strong man. Astute in business and with broad, liberal ideas, yet conservative, he is recognized as one of the best business men in Florida. He is vice president of one of the largest companies in the state and he stands high in the list of successful naval stores operators. He will probably succeed Mr. Cooper as president.

ALL CHANGED NOW

An express on the Long Island railroad was tearing away at a wild and awe-inspiring rate of six miles an hour, when all of a sudden it stopped altogether, says the St. Louis Republican. Most of the passengers did not notice the difference; but one of them happened to be somewhat anxious to reach his destination before old age claimed him for its own. He put his head through the window to find that the cause of the stoppage was a cow on the track. After a while they continued the journey, for half an hour or so, and then—another stop. "What's wrong now?" asked the impatient passenger of the conductor. "A cow on the track." "But I thought you drove it off." "So we did," said the conductor, "but we caught up with it again."

DAVID S. WOODROW
REAL ESTATE AND INVESTMENTS
Rooms 27 and 28, Holder Block
OCALA, FLORIDA

The man who waits for a proven, producing proposition before investing will always pay every cent the stock is worth. It's the man who takes a chance on the ground floor that really gets the cream. Always investigate and act with due caution but you will lose out entirely and every time if you wait for a "cinch." Equal parts of nerve and common sense will be found a very palatable dose and a combination hard to beat.

If you want to buy a home in Ocala, I can offer you one of the very few places on the market on Oklawaha avenue.

Frontage is 96 feet and the lot runs back 480 feet. House is one story containing five rooms, kitchen and bathroom; city water, gas, electric light and modern plumbing; stable and servant's house in yard. Price, \$2,300, half cash and balance spread over three years.

If you want to build a store building to rent I have a lot on Fort King avenue between the Pittman building and the new building just erected by Guerrant & Carmichael. Frontage is 43 feet by 110 feet deep. The building now on it is old but rents for enough to pay interest on the investment. Price is \$850.

OAKRIDGE lots on the Shady Grove hard road and within the city limits can be bought for \$75 to \$90; 100 feet front by 125 feet deep; 10% cash and \$1 per week. Free deed in case of death. No taxes to pay until 1909. Map and prices on application.

WOODMAR. This property is on the most beautiful lake in Florida, on a bluff which rises from 25 feet to 75 feet above the level of the lake. The A. C. L. railroad runs between the edge of the lake and the bluff. Four years ago when I platted this property, and offered to sell lots I was laughed at by many and the word "fool" more than once dropped in connection with this property. Try and buy back for me the lots I have already sold and come and see me. I have raised the prices once and will raise again until another Mr. Flagler sees the beauties of the place and then he can have it if he will pay the price. The streets are all planted to shade trees and water works installed—good water too. But a lot now. You can buy on terms but you can't buy them at a discount. Map and prices on application.

TO SHARPEN YOUR APPETITE

- WE HAVE
"Maladaya" Sauce, Heinz... 25c.
"Red Snapper" Sauce... 25c.
"Red Snapper" Chow Chow... 25c.
"Red Snapper" Relish... 25c.

AN ISLAND OF QUIET.

Yet Going Downtown In Madeira Is an Exciting Event.

Madiera is populated, yet is one of the quietest as well as one of the most beautiful places in the world. Although the roads are paved with round beach stones, there is nothing to remind you of the fact, because, as Dr. V. G. Faltreich, agricultural explorer of the department of agriculture, explains in the National Geographic Magazine, there are no horses or jolting wheels.

All vehicles in Madeira are on runners. If you go calling it is in a bullock sledge with canopy top and comfortable seats. If you move a bank safe or a steam boiler it is carried on a "stone boat," or sledge of poles, and you may have to get forty oxen to pull it. If you are in a villa on the hillside and want to get downtown you take a running car and slide down over the cobblestones.

Two strong men, each holding a guide rope, pull your car over a bag of grease to grease the runners and then give you a running shove and jump each on a runner behind as the car shoots down at a breakneck pace over the cobblestones.

The men yell, hens and dogs scamper, foot passengers cling close to the wall of the narrow street, the runners get hot and fill the air with odor of burning wood as you shoot round sharp corners, down the busy thoroughfare, past gorgeous masses of flowering creepers which hang over the walls of the private villas that border your road.

But, oh, the change when you get to the bottom! You are obliged either to walk or take a carro, drawn by slow moving bullocks, squeaking and slipping over the stones.

ORIGIN OF THE HORSE.

The Modern Animal a Cross Between Two Ancient Breeds.

In Wissen fur Alle Professor Koenig discusses in some detail the origin of the horse of today. He finds that the horse of neolithic times was not specifically distinct from the horse of the present. While there is no doubt that the horse of that period was used by man for food, there seems to be no conclusive evidence as to whether it was domesticated or not. His own opinion, however, is that it was probably domesticated.

The horse of that time was closely allied to the tarpan or semiwild horse that lived in southern Russia up to a century ago. This was a "hog maned," short legged, large headed beast. It seems probable that the domesticated horses of the Germans of Caesar's time were derived from this breed.

The Egyptians had horses as early as 1900 B. C. These were long maned, more like the Arab horses, and came from Assyria. Where the Assyrians obtained them is unknown, but it was probably from southern Asia, where this long maned breed has been developed in all probability as the result of long continued domestication. The modern horse is a cross between these two breeds, with a further mixture of the Arab horse. This Arab horse, too, was itself a descendant of the earlier long maned horse.

The origin of the long maned horse is a matter of doubt, but Professor Koenig thinks it may have been from an extinct Indian species.

"Tulip Soup." "What makes this vegetable soup taste so different?" asked the young husband of the pretty bride.

"Only the leeks you sent home," replied the bride. "You remember you said you were going to order leeks." "I didn't order any leeks," growled the husband, but he finished his bowl of soup rather than disappoint her.

That afternoon he stopped at the grocery store.

"How did you come to send leeks up to my house this morning?" he demanded. "I didn't order them." "Great Scott! Did you eat them?" exclaimed the grocer.

"Sure, we ate them." "Oh, for land's sake. They were Mrs. Jackson's tulip bulbs. She left them on the counter and they got into your basket by mistake."—Detroit Free Press.

A Queer Practice.

A queer practice which is general throughout all the tribes of Australia is the rubbing of the skin. When the children are still young long cuts are made across the chest, down the upper arm and leg and even across the back and ribs. While the wound is quite fresh the cut is opened and a mixture of mud is grafted in, the skin being pulled as far as possible over it. The skin eventually grows completely round the mud filling and forms ridges varying in length and size from an ordinary lead pencil to the thickness of a man's little finger and extending from armpit to armpit. I am informed that while the healing process is going on the pain is exquisite, but the result seems to satisfy all parties concerned.—London Standard.

DANCED HIMSELF TO DEATH

Happy End of Albert Hilton a Clog Terpsichorean of Pittsburg
Pittsburg, Sept. 6.—"Danced himself to death."
The above was the verdict of a physician after examining the body of Albert Hilton, who died suddenly at 1232 Pasture street.

Hilton, who was an expert clog dancer, became stricken with fits several weeks ago. The attending physician told him that if he danced again it would cause his death. Hilton started to dance at the home of a friend, on Filson street, yesterday, when one of his friends reminded him of the physician's warning. "I'm going to live any how until I die," he sang. Those in the room beneath him heard him dancing several hours last night. At 3 o'clock this morning there was a heavy fall, then silence. Hilton was dead.

HATS FOR HORSES

In Hot Weather Do More Harm than Good

It has been demonstrated by a scientist who self-registered thermometers, that the employment of hats on horses' heads in hot weather does more harm than good. He ascertained that the air under the hat and in contact with the horse's head was five to ten degrees warmer than the surrounding atmosphere. No doubt, if he had his way, the hatted horse would take off his covering to cool his heated head, just like a man does.—Tampa Times.

Senator McCreary, in his excellent paper, the Gainesville Sun, severely and righteously denounces the legislature for refusing to perform its sworn duty to make a re-apportionment of legislative representation, and says that there is no remedy "unless the power of the supreme court can be invoked." That is just what the Herald advised in 1906—that the attorney general sue out a writ of mandamus from the supreme court commanding the legislature to perform by the constitution, and, on the neglect of the members to obey the command, that each and every one of them be arrested and committed to jail for contempt and kept in jail until they do make the re-apportionment.—Punta Gorda Herald.

Rev. C. C. Carroll began a series of sermons last night on the ten commandments. He took his text from the twentieth chapter of Exodus and spoke eloquently and convincingly of only one God, the God of the Bible and showed that wherever people ran after and worshiped gods and idols they sank into wickedness and sin and their own mental and moral undoing. He said the first four commandments pertained to God and the other six embraced the relations and conditions of man toward God. The Baraca class did the singing in the choir and credited themselves well. A good audience listened to Rev. Carroll's discourse.

Mr. Chambers is of a pleasant and generous disposition and is always willing to do something for the pleasure of others. As Friday night was a bright night, he came out on the dock and furnished the island with music from his talking machine. We all enjoyed it very much.—Crystal River News.

GAINESVILLE'S MASONIC TEMPLE

Cornerstone Will be Laid Wednesday With Imposing Ceremonies

Gainesville, Fla., Sept. 7.—Wednesday, September 7, will be a red-letter day in the history of this city, being the time set for the laying of the cornerstone of the handsome Masonic Temple. An elaborate program has been arranged.

The ceremony of laying the cornerstone will be under the direction of the Grand Lodge of Masons of Florida, and it is expected that Deputy Grand Master Louis C. Massey will be present and preside. All of the Masonic lodges in the eleventh district have been invited to participate, and the local lodges of Odd Fellows, Elks, Knights of Pythias, Woodmen of the World, P. S. of A. and Rebekahs will act as escort.

The new temple which is located on West Main street, north, is being constructed of brick and artificial stone and will cost when completed and furnished about \$15,000.

TIRED OF TRAVELING

Mobile, Ala., Sept. 7.—John G. Borkin, one of the best known traveling men in this country, was found dead in a room of the St. Andrew hotel yesterday. It is generally believed that he took poison as a result of a severe case of rheumatism.

MILK FOR INFANTS

Editor Banner: I noticed an article in the Banner, stating that milk is dangerous, and on the strength of that it says it is better to feed the babies and children condensed milk.

Now, the Banner is right, and spoke a profound truth if it had in reference common or unclean milk, for not only tuberculosis will render the milk poisonous and injurious to children, but dirty milk is just as harmful, as the germs of bacteria soon change the chemical properties of the milk, and instead of giving pure milk you are giving a direct poison.

Now, on the other hand, cow's milk is the best and only food one can absolutely rely upon if we are to feed our children artificially, but it should be done scientifically. Our dairies are being carefully examined and the milk tested for tuberculosis, and we will soon be rid of that danger, and by bringing a sample to my office you can ascertain what amount of bacteria or dirt is in the milk and what per cent of butter fat is in it. So now to feed your children pure, wholesome, harmless milk will cost you nothing, and your doctor can tell you how and in what proportions to give it. Do not pasteurize or sterilize it, for that renders it less wholesome, and of an offensive odor and taste.

E. P. Guerrant, V. S., City Milk Inspector.

H. ROBINSON, President.

One dollar a week will clothe you and your family.

GONE FOREVER!

TEN years ago an Allen County, Kans., farmer put his initials on a dollar bill. The next day he went to the nearest town and spent it with a merchant. Before the year was out he got the dollar back. Four times in six years the dollar came back to him for produce, and three times he heard of it in the pockets of his neighbors. The last time he got it back was four years ago. He sent it to a mail-order house. He has never seen that dollar since, and never will. That dollar bill will never pay any more school or road tax for him, will never build or brighten any of the homes of the community. He sent it entirely out of the usefulness to himself and to his neighbors when he sent it to the mail-order house. The moral is plain.

MORAL
Trade at Fishel's Department Store, where you can get anything you want and where you may get the dollar back

DO YOU WANT A PIANO OR ORGAN
You say YES, but can't afford to buy now.

Don't want to buy on time as it costs too much money to buy on time, and I cannot spare the money now to pay all cash. This is all a mistake for we will sell you a fine piano or organ at cash prices on such small payments the purchase will be no burden to you. Ask for our plan, let us explain to you how easy it is—how you may enjoy the instrument in your home while we wait for the money. Now you want music in your home. We want to place it there. Come in and let us talk it over with you. If you cannot come just drop us a card or telephone us and we will have one of our representatives call on you.
