Chapter XVII

A GENTLEMAN IN HIDING.

MRS. CLAIBORNE excused herself shortly, and Shirley, her father and the ambassador talked to the accompaniment of the shower that drove in great sheets against the house. Shirley was wholly uncomfortable over the turn of affairs. The ambassador would not leave until the storm abated, and meanwhile Armitage must remain where he was. If by any chance he should be discovered in the house, no ordinary excuses would explain away his presence, and as she pondered the matter it was Armitage's plight, his injuries and the dangers that beset him, that was uppermost in her mind. The embarrassment that lay in the affair for herself if Armitage should be found concealed in the house troubled her little. Her heart beat wildly as she realized this, and the look in his eyes and the quick pain that twitched his face at the door haunted her.

The two men were talking of the new order of things in Vienna.

"The trouble is," said the ambassador, "that Austria-Hungary is not a nation, but what Metternich called Italy—a geographical expression. Where there are so many loose ends a strong grasp is necessary to hold them together."

"And a weak hand," suggested Judge Claiborne, "might easily lose or scatter them."

"Precisely. And a man of character and spirit could topple down the card-house tomorrow, pick out what he liked and create for himself a new edifice—and a stronger one. I speak frankly. Van Stroebel is out of the way, the new emperor-king is a weakling, and if he should die tonight or tomorrow—"

The ambassador lifted his hands and snapped his fingers.

"Yes. After him, what?" "After him his scoundrelly cousin Francis, and then a stronger than Von Stroebel might easily fall to hold the disjecta membra of the empire together."

"But there are shadows on the screen," remarked Judge Claiborne. "There was Karl, the mad prince."

"Humph! There was some red blood in him, but he was impossible. He had a talent of democracy, treason, rebellion."

Judge Claiborne laughed. "I don't like the combination of terms. If treason and rebellion are synonyms of democracy, we Americans are in danger."

"No; you are a miracle—that is the only explanation," replied Marhof. "But a man like Karl—what if he were to reappear in the world! A little democracy might solve your problem."

"No, thank God, he is out of the way! He was sane enough to take himself off and die."

"But his ghost walks. Not a year ago we heard of him, and he had a son who chose his father's exile. What if Charles Louis, who is without heirs, should die and Karl or his son—"

"In the providence of God they are dead. Impostors gain a little brief notoriety by pretending to be the lost Karl or his son Frederick Augustus, but Von Stroebel satisfied himself that Karl was dead. I am quite sure of it. You know dear Stroebel had a genius for gaining information."

"I have heard as much," and Shirley and the baron smiled at Judge Claiborne's tone.

The storm was diminishing, and Shirley grew more tranquil. Soon the ambassador would leave and she would send Armitage away, but the mention of Stroebel's name rang oddly in her ears, and the curious way in which Armitage and Chauvenet had come into her life awoke new and anxious questions.

"Count von Stroebel was not a democrat, at any rate," she said. "He believed in the divine right and all that."

"So do I, Miss Claiborne. It's all we've got to stand on."

"But suppose a democratic prince were to fall heir to one of the European thrones, insist on giving his crown to the poor and taking his oath in a frock coat, upsetting the old order entirely?"

"He would be a fool, and the people would drag him to the block in a week," declared the baron vigorously.

They pursued the subject in lighter vein a few minutes longer; then the baron rose. Judge Claiborne summoned the waiting carriage from the stable, and the baron drove home.

"I ought to work for an hour on that Danish claims matter," remarked the judge, glancing toward his curtained den.

"You will do nothing of the kind. Night work is not permitted in the valley."

"Thank you. I hoped you would say that, Shirley. I believe I am tired, and now if you will find a magazine for me I'll go to bed. Ring for Thomas to close the house."

"I have a few notes to write. They'll take only a minute, and I'll write them here."

She heard her father's door close, listened to be quite sure that the house was quiet and threw back the curtains. Armitage stepped out into the library.

"You must go! You must go!" she whispered, with deep intensity.

"Yes; I must go. You have been kind. You are most generous." But she went before him to the hall, waited, listened, for one instant; then threw open the outer door and bade him go. The rain dripped heavily from the eaves, and the cool breath of the

It's a Good Sound Common Sense Policy

To use medicines only of KNOWN COMPOSITION, and which contain neither alcohol nor habit-forming drugs. It is foolish—often dangerous to do otherwise. The most intelligent people, and many of the most successful, conscientious physicians, follow this judicious course of action. The leading medical authorities, of all schools of medicine, endorse the ingredients composing Dr. Pierce's medicines. These are plainly printed on wrappers and attested under oath. There's no secrecy; an open publicity, square-deal policy is followed by the makers.

Dr. Pierce's Favorite Prescription

THE ONE REMEDY for woman's ailments, sold by druggists, devised and gotten up by a regularly graduated physician of vast experience in treating woman's peculiar diseases and carefully adapted to work in harmony with her delicate organization, by an experienced and skilled specialist in her maladies.

THE ONE REMEDY for woman's ailments, sold by druggists, which contains neither alcohol (which to most women is the rankest poison) or other injurious or habit-forming drugs.

THE ONE REMEDY for women, the composition of which is so perfect and good that its makers are not afraid to print its every ingredient, in plain English on its outside bottle-wrapper, and attest the correctness of the same under oath.

We have a profound desire to avoid all offense to the most delicate sensitiveness of modest women, for whom we entertain the most sincere respect and admiration. We shall not, therefore, particularize here concerning the symptoms and peculiar ailments incident to the sex for which Dr. Pierce's Favorite Prescription has for more than 40 years proven such a boon. We cannot, however, do a better service to the afflicted of the gentler sex than to refer them to Dr. Pierce's Common Sense Medical Adviser, a great family doctor book of 1000 pages, bound in cloth and given away gratis, or sent, post-paid, on receipt of 31 one-cent stamps—to cover cost of mailing only. All the delicate ailments and matters about which every woman, whether young or old, single or married, should know, but which their sense of delicacy makes them hesitate to ask even the family physician about, are made plain in this great book. Write for it.

freshened air was sweet and stimulating. She was immediately relieved to have him out of the house, but he lingered on the veranda, staring helplessly about.

"I shall go home," he said, but so unsteadily that she looked at him quickly. He carried the cloak flung over his shoulder and in readjusting it dropped it to the floor, and she saw in the light of the door lamps that his arm hung limp at his side and the gray cloth of his sleeve was heavy and dark with blood. With a quick gesture she stooped and picked up the cloak.

"Come, come! This is all very dreadful. You must go to a physician at once."

"My man and horse are waiting for me. The injury is nothing." But she threw the cloak over his shoulders and led the way across the veranda and out upon the walk.

"I do not need the doctor; not now. My man will care for me."

He started through the dark toward the outer wall, as though confused, and she went before him toward the side entrance. He was aware of her quick light step, of the soft rustle of her skirts, of a wish to send her back, which his tongue could not voice, but he knew that it was sweet to follow her leading. At the gate he took his bearings with a new assurance and strength.

"It seems that I always appear to you in some miserable fashion. It is preposterous for me to ask forgiveness. To thank you."

"Please say nothing at all, but go. Your enemies must not find you here again. You must leave the valley."

"I have a work to do. But it must not touch your life. Your happiness is too much, too sweet to me."

"You must leave the bungalow. I found out today where you are staying. There is a new danger there. The mountain people think you are a revenue officer. I told one of them—"

"Yes?"

"—that you are not. That is enough. Now hurry away. You must find your horse and go."

He bent and kissed her hand.

"You trust me. That is the dearest thing in the world." His voice faltered and broke in a sob, for he was worn and weak, and the mystery of the night and the dark, silent garden wove a spell upon him, and his heart leaped at the touch of his lips upon her fingers. Their figures were only

blurs in the dark, and their low tones died instantly, muffled by the night. She opened the gate as he began to promise not to appear before her again in any way to bring her trouble, but her low whisper arrested him.

"Do not let them hurt you again," she said, and he felt her hand seek his, felt its cool, furtive pressure for a moment, and then she was gone. He heard the house door close a moment later and, gazing across the garden, saw the lights on the veranda flash out.

Then, with a smile on his face, he strode away to find Oscar and the horses.
