

\$800 IN Prizes TWO PIANOS FREE

Grand Voting Contest—Two \$400 Pianos to be given away.

The Star has put on the Greatest Voting Contest and Free Prize Offer that the county has ever known.

We will give, absolutely free, on February 1st, two magnificent \$400 Pianos to the two girls or ladies, married or single, receiving the greatest number of votes in this contest of energy and popularity.

The Pianos

The Star has a contract with the A. R. HARPER PIANO CO., of Jacksonville, to purchase from them two of their style M. Harvard Upright Pianos, of the following description: Cabinet Grand, 7 1-3 octaves, three pedals, ivory keys, full iron plate, triple unisons, repeating action, nickel action brackets, tuning pins and cased hammer rail, graduating pedals including soft stop or practice pedal, nickel pedals, copper-wound base strings; case is of Colonial design, with full-swing music desk with hand-carved ornaments, rolling fall board, continuous hinge, double trusses with handsome capitals; height 4 feet, 8 inches; length 5 feet, 2 inches; width 2 feet, 3 inches; with your choice of mahogany, walnut or oak, hardwood back. The Harvard is the most popular and the greatest seller made by the John Church Company, one of the oldest and best known piano houses in the world. The instruments are high-class in every respect, sweet-toned, very handsome in appearance, contain the best workmanship and material obtainable, and are fully guaranteed. They will be on exhibition in this city later on in the contest.

How to Enter the Contest

The Voting Contest will be conducted as follows: Every girl or married lady who resides in Ocala or receives her mail from this postoffice, will be eligible to enter the contest in the Ocala District. Every girl, young lady or married lady residing outside of the Ocala District, but within Marion, Sumter or Citrus counties, will be eligible to enter the contest in the country district. Fill out or have a friend fill out and bring or send to the Star office, one of the Nominating Blanks, found in the paper, which places you in nomination and gives you 1,000 complimentary votes, and can not be used again during the contest.

How Votes Are Secured

Each issue of the Star will contain a coupon, which is good for five votes. For each subscription paid the following votes will be issued:

DAILY STAR

\$.05, one copy of paper	5 votes
.50, one month's subscription	100 votes
1.25, three months subscription	250 votes
2.50, six months subscription	500 votes
5.00, one year's subscription	1000 votes
10.00, two year's subscription	3000 votes

(Note the increase in votes given for a number of years paid in advance.)

NEW subscribers, paying a year in advance, will receive an additional 500 votes.

Subscribers who are in arrears, paying up receive the same number of votes that renewals do.

WEEKLY STAR

\$.50, six months subscription	100 votes
1.00, year's subscription	200 votes
2.00, 2 year's subscription	500 votes
3.00, three year's subscription	800 votes
4.00, four year's subscription	1000 votes
5.00, five year's subscription	1500 votes

For each NEW Weekly subscriber, in addition to the above regular votes, 100 extra votes.

Subscriptions that are in arrears, paid up count the same as renewals.

FOR PRINTING OR ADVERTISING

100 votes will be given for each dollar paid into this office for printing or advertising, whether for current or back accounts.

The Contest will be conducted fairly and equally. The persons receiving the greatest number of votes in the two districts will receive the Pianos. No votes will be sold at this office for less than the prices above scheduled. No employe or attaché of this office will be allowed to vote or in any way participate in the contest. Judges will be appointed, who will count the votes at regular intervals, and announce the standing of the different candidates. These judges will see that every candidate gets a fair deal. It is desired, at least while the contest is in the early stages, that votes be sent in daily.

Strictly a Home Proposition

This contest is strictly a home proposition. It is put on and conducted by the Star and no foreign company has anything to do with it. The Star simply buys the Pianos and gives them to you—if you are the lucky ones.

The contest will continue for three months, closing on February 1st, 1909. Now get to work. The pianos will not be won without an effort on your and your friends part.

Kodol

For Dyspepsia and Indigestion

If you Suffer from Indigestion, Dyspepsia, Gas on the Stomach, Belching, Sour Stomach, Heart-burn, etc., a little Kodol will Relieve you almost Instantly

Kodol supplies the same digestive juices that are found in a healthy stomach. Being a liquid, it starts digestion at once.

Kodol not only digests your food, but helps you enjoy every mouthful you eat.

You need a sufficient amount of good, wholesome food to maintain strength and health. But, this food must be digested thoroughly, otherwise the pains of indigestion and dyspepsia are the result.

When your stomach cannot do its work properly, take something to help your stomach. Kodol is the only thing that will give the stomach complete rest.

Why? Because Kodol does the same work as a strong stomach, and does it in a natural way.

So, don't neglect your stomach. Don't become a chronic dyspeptic. Keep your stomach healthy and strong by taking a little Kodol. You don't have to take Kodol all the time. You only take it when you need it.

Kodol is perfectly harmless.

Our Guarantee

Go to your druggist today and get a dollar bottle. Then after you have used the entire contents of the bottle if you can honestly say that it has not done you any good, return the bottle to the druggist and he will refund your money without question or delay. We will then pay the druggist. Don't hesitate, all druggists know that our guarantee is good. This offer applies to the large bottle only and to but one in a family. The large bottle contains 25 times as much as the fifty-cent bottle.

Kodol is prepared at the laboratories of E. C. DeWitt & Co., Chicago.

A DESERT PERIL.

The Deadly Clear Water of the Death Valley Pools.

"One of the chief dangers to travelers in crossing such dreary and arid wastes as the far famed Death valley arises from ignorance as to the character of the infrequent pools of water along the route," said a mining engineer of Denver.

"The tenderfoot, growing faint under a blazing sun, will want to quench his intolerable thirst when he comes to a shallow hole whose water, clear as crystal, seems absolutely pure. He can with difficulty be restrained from drinking it by some experienced companion, who knows that one draft will probably cause serious, if not fatal illness. This water, for all its seeming purity and clearness, is loaded with arsenic, and many a man has lost his life by its use.

Curiously enough, the only water in the desert that is safe to drink is foul looking and inhabited by bugs and snakes. When you come to a muddy pool on the surface of which insects are disporting themselves, however repulsive it may be, both to the eye and palate, you may drink it with impunity, despite its looks, as a man will who is crazy with thirst produced by the burning sands and merciless sun."

—Baltimore American.

THE PALISADES.

Their Counterpart Cannot Be Found In All the World.

The edge of the world, if such a thing may be, lies hardly a rifle shot away from one of the centers of the world itself—the city of New York.

The Palisades, those mighty walls whereon the annals of the centuries are graven—what an edge of the world their lip presents to him who comes, perhaps at night, to their rough hewn elevation! In no other place other than this near proximity to man and one of his greatest cities could a physical feature so profoundly vast and impressive be so hidden from the world. Their counterpart cannot be found in all the world, and yet the Palisades are almost unexploited and unknown to the globe circling, sight hunting public that yearly traverses the continents or seas to gaze at things less wonderful in some distant field of nature's marvelous achievements, for little does any one know of these titanic walls who has merely seen them from the Hudson. Were they somewhere off in a land comparatively inaccessible, reached by a transcontinental thread of steel, the guidebooks would be rich in their pictured grandeur and man would rove far to explore them.—Phillip Verrill Mighels in Harper's Magazine.

Superstitions of Stage Folk.

A stock actor is apt to have a prejudice against decorating or fixing up his dressing room. He is certain to get his notice shortly after he puts his pictures on the wall and otherwise makes the place comfortable and homelike. Actors and managers both have a horror of the witch lines in "Macbeth," and they never will allow them to be spoken, as it means a fire in the playhouse before the twelfth-month is over. Sir Henry Irving was a firm believer in this superstition, and he would never allow the fateful lines to be read when he was playing the tragedy. I know many players who fear to have any one pass them on a stairway when they are entering a theater. There are many actors who make the sign of the cross before they make an entrance.—Chicago Tribune.

Where They Forget.

"Once, in the rooms of the Fabian society overlooking the fresh green slopes of the Law Court gardens in London, I heard George Bernard Shaw express his thoughts about English public schools," said a Chicago editor. "He attacked these schools. He said you learned nothing in them. He told of a young peer to whom a certain master at Eton said:—

"I am ashamed of you, unable to work out so simple a problem! Your younger brother did it correctly an hour ago."

"I am sorry, sir," the boy replied, "but you must remember that my brother hasn't been at Eton as long as I have."—Washington Star.

Got Full Weight.

"Sir," says the aggrieved customer, approaching the bookseller, "I have called to express my opinion of your business methods."

"What is wrong?" deferentially asked the bookseller. "I bought a set of Shakespeare from you last year. It weighed fourteen pounds. Yesterday I ordered a duplicate set for my son's library, and it only weighs thirteen pounds and nine ounces. I'd have you understand, sir, that there is a city ordinance against short weights."

Thoroughly humbled, the bookseller made up the shortage with seven ounces of miscellany.—Exchange.

Anxious For More.

An expert golfer had the misfortune to play a particularly vigorous stroke at the moment that a seedy wayfarer skulked across the edge of the course. The ball struck the trespasser and rendered him briefly insensible. When he recovered a five dollar bill was pressed into his hand by the grateful golfer. "Thanky, sir," said the injured man after a kindling glance at the money, "an' when will you be playin' again, sir?"—Argonaut.

"So Wild Bill died of a snake bite? Whar did he git bit?"

"Oh, th' snake didn't bite Bill. Th' snake bit Tough Tompkins, an' Tompkins drank two quarts of th' remedy an' then shot Bill."—Judge's Library.

"One Dose Convinces"

MARVELOUS MACHINES.

Some of the Wonderful Instruments Man Has Invented.

The sensitiveness of the human organism is gross indeed compared with that of the marvelous machines man has made. A photographic plate coupled with a telescope discovers millions of stars whose light the retina of the eye does not appreciate. The microphone makes the inaudible tread of a fly sound like the tramp of cavalrymen. The human heat sense cannot realize a difference of temperature beyond one-fifth of a degree, but the barometer, an instrument 200,000 times as sensitive as the skin, notes a difference of a millionth of a degree. A galvanometer flexes its finger at a current generated by simply deforming a drop of mercury so as to press it out of a spherical shape into that of an egg. The amount of work done by the wink of an eye equals 100,000,000,000 of the winks marked on the scale of a delicate instrument, but even this performance is surpassed by the coherers of Branley of Paris by which the Hertz waves of wireless telegraphy are caught in their pulsings through space. The range of impressions which we get from lifting an object is exceedingly small. An ordinary chemist's balance is some million times as sensitive and weights down the two hundredth part of a milligram. Without such instruments as these we should know far less about the world than they place within our reach. They make it evident that our sense organs give us reports of but a comparatively small number of comparatively gross stimuli.—Chicago Tribune.

RAW LUNGS

When the lungs are sore and inflamed, the germs of pneumonia and consumption find lodgment and multiply. Foley's Honey and Tar kills the cough germs, cures the most obstinate racking cough, heals the lungs, and prevents serious results. The genuine is in the yellow package. Sold by all druggists.

INSOMNIA

"I have been using Cascarets for Insomnia, with which I have been afflicted for over twenty years, and I can say that Cascarets have given me more relief than any other remedy I have ever tried. I can certainly recommend them to my friends as being all they are represented to be."
