## MURDERED FOR HIS MONEY

William Reed, an Aged Man of Vineland, N. J., Struck Down and Robbed by his Grandson

Vineland, N. J., Nov. 19.—Vineland is stirred to the core over the arrest of Walter Zoller and Clyde Wheeler, two young men, on a charge of murdering aged William Reed.

Zoller is the dead man's grandson. He has confessed to the crime but seeks to lay the actual commission of it at the door of Wheeler.

The motive of the crime was robbery. Old man Reed lived with his daughter and son-in-law, Mr. and Mrs. Edwin Cooper. They left him in the house when they went out to the theater, and when they returned he was lying dead on the floor of the dining room, his head beaten in and two bullets fired into his brain. A .32-caliber revolver lay at his side.

## BOSTON'S BAKED BEANS

Record of 32,000,000 Quarts in a Year at Cost of \$8,000,000

Boston baked beans are known around the globe. In the city of Boston alone about 32,000,000 quarts of baked beans are devoured annually to say nothing of the pork that goes with them and the brown bread that is also served. There are factories or bakeries which handle nothing but baked beans from one year's end to the other. One of the largest of these, which supplies restaurants wholly, bakes 14,000 quarts of beans a week. Other bakeries also furnish brown bread, while nearly every bakeshop that makes bread, pastry, and pies also bakes beans several times a week. There are bakeries with ovens that will hold 2,000 quarts each.

In 1908 Boston spent about \$8,247,842 for beans before they were baked. There were 68,000 barrels received in the city, which, on the weight basis, is 15,000 pounds more than was used in 1907. Each year's consumption has been steadily increasing, until 1908 will find the bean bill of the Hub close to the \$10,000,000 mark. On the basis of about 600,000 population, this is an average of about thirty-seven quarts to an individual.

Taking the average height of a Bostonian at 5 feet 8 inches and the height of a bean pot as ten inches, one can easily figure that in a year a Bostonian eats more than two and five-sevenths times his own height in baked beans, and more than his own weight. There are several times as many beans served in restaurants from a pot of two quarts. Boston pays for baked beans in a year the price of two of Uncle Sam's modern battleships.

Dwellers in little Italy and the ghetto of the West End take as kindly to baked beans as do the natives of New England. In fact, baked beans are every quart Bb, wv, e cakes—bedovers possess a charm for people of all nationalities who go to live in Boston, permanently or temporarily. Every time a convention is held there people from all parts of the country make a dash for the nearest restaurant and call for some of the baked beans of which they have heard so much. One bakery in the heart of the Italian quarter turns out 1,000 quarts daily, entirely for Italian consumption.

The preparation and baking of beans is an interesting operation. In establishments where the beans are baked it is done on a huge scale. There are great kettles that hold two or three bushels of beans, and into these the beans are put to soak and parboil. Then the pots of earthenware, varying in size from one quart to two gallons, are ranged around on tables and filled from the big kettles. Every quart of beans is carefully pickled over and sorted and cleaned of all dirt and "dead" beans before being put into the kettles. The ovens are huge brick affairs, glowing red with heat. Experts consider that beans cannot be properly cooked except in a brick oven. Some of the ovens hold 2,000 quarts each. Filled with the loaded pots they present a sight worth beholding. So hot are the ovens that long-handled, flat shovels are used to take the pots in and out.—New York Tribune.

## TIMBER CONSERVATION

The future development of the lumber industry in this country lies in the direction of a closer utilization of forest products. Both foresters and practical lumbermen now agree on this point.

Just what can be done in this field is well illustrated in the operations at the mill of the Great Southern Lumber Company, which has just reopened its plant at Bogalusa, Louisiana, in response to the increased demand for lumber after the recent slump in business. This is perhaps the largest sawmill in the United States, if not in the world, and is capable of turning out the enormous amount of 600,000 feet of sawn lumber, board measure, per day. A reader can get a fair idea of this quantity of lumber when he is told that its output is enough to build a little town of 40 houses, along with a good-sized church and a school house every day.

This company was quick to grasp the significance of the rapid depletion of timber resources. Last year it began a co-operative investigation in wood utilization with the United States Forest Service and arrangements have just been completed for a renewal of the experiments. The work will be along practical lines and will be aimed to secure a closer utilization of the products of the Southern lumber mills and at the same time produce a margin of profit in excess of that obtained by the methods which are now practiced.

The field for work along this line is broad. It is well known that the superior grades of lumber are obtained from old mature trees, provided they are not weakened by decay or other influences. In other words, a thousand feet board measure of lumber, sawed from a tree two feet in diam-

# GOOD, HONEST, SQUARE-DEAL

Medicines like those of Dr. R. V. Pierce of Buffalo, warrant their makers in printing their every ingredient, which they do, upon their outside wrappers, verifying the correctness of the same under oath. This open publicity places these medicines in a class all by themselves. Furthermore, it warrants physicians in prescribing them largely as they do in their worst cases.

## Dr. Pierce's Golden Medical Discovery

Is a most potent alterative or blood-purifier, and tonic or invigorator and acts especially favorably in a curative way upon all the mucous lining surfaces, as of the nasal passages, throat, bronchial tubes, stomach and bowels, curing a large per cent. of catarrhal cases whether the disease affects the nasal passages, the throat, larynx, bronchia, stomach (as catarrhal dyspepsia), liver, bowels (as mucous diarrhea), or other organs.

## Dr. Pierce's Favorite Prescription

Is advised for the cure of one class of diseases only—those peculiar weaknesses, derangements and irregularities peculiar to women. It is a powerful yet gently acting invigorating tonic and nerveine.

For weak, worn-out, over-worked women—no matter what has caused the break-down, "Favorite Prescription" will be found most effective in building up the strength, regulating the womanly functions, subduing pain and bringing about a healthy, vigorous condition of the whole system.

A book of particulars wraps each bottle giving the formulæ of both medicines and quoting what scores of eminent medical authors, whose works are consulted by physicians of all the schools of practice as guides in prescribing, say of each ingredient entering into these medicines.

Both medicines are non-alcoholic, non-secret, and contain no harmful habit-forming drugs, being composed of glyceric extracts of the roots of native, American, medicinal, forest plants. They are both sold by dealers in medicine. You can't afford to accept as a substitute for one of these medicines of known composition, any secret nostrum. Don't do it.

## CRYING FOR HELP

Lots of It in Ocala, But Daily Growing Less

The kidneys cry for help. Not a kidney in the whole body so delicately constructed. Not one so important to health. The kidneys are the filters of the blood. When they fail the blood becomes foul and poisonous. There can be no health where there is poisoned blood. Backache is one of the first indications of kidney trouble. It is the kidneys' cry for help. Heed it.

Doan's Kidney Pills are what is wanted. Are just what overworked kidneys need. They strengthen and invigorate the kidneys; help them to do their work; never fail to cure any case of kidney disease.

P. Y. Smith, living at 1206 Alachua Ave., Gainesville, Fla., says: "My wife was troubled for some time with severe headache. She also complained of a dull pain in her back, and was nervous and weak. I thought that her kidneys were the cause of her trouble, and procured a box of Doan's Kidney Pills for her. She received such great benefit from the use of the first box of this remedy that I obtained another supply. When this was used the pains ceased, and she is now no longer troubled with headaches. It required but two boxes of Doan's Kidney Pills to entirely cure her."

Plenty more proof like this from Ocala people. Call at Tydings & Co.'s drug store and ask what their customers' reports are. For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.
