OUR NATIONAL HONOR

According to the report submitted by the republican campaign committee, headed by National Chairman Francis E. Hitchcock, the committee received \$1,655,518.27 in contributions to the republican campaign fund.

The funds received by the democratic committee amounted to \$819,420.06. In view of these figures the Star does not think it worth while for any thinking man to make charges of corruption against either party.

DELVING INTO A "MYSTERY"

In the valued Commoner and in such speeches as he has made since the election Mr. Bryan professes an inability to understand the recent political decision of the American people. He calls it "The Mystery of 1908."

So far as he has described the mystery it may be stated thus: Before the election public opinion seemed to be Democratic. The enthusiasm was Democratic. The Democratic party appeared to be harmonious.

We should say that, admitting the truth of Mr. Bryan's statements, there is no mystery at all in the result. The fact appears to be that, as has been the case most of the time for more than forty years, the majority of the people were naturally Democratic.

It is just as well to look facts in the face. Mr. Bryan was weaker than his party in almost every state. In some states, as in New York, Ohio, Indiana, Illinois and Minnesota the disparity between his vote and that cast for state officers on the Democratic ticket was unexampled.

FLORIDA WANTS HIGHER DUTY ON CITRUS FRUITS

Congressman Sparkman Says Tobacco Tariff Will Not be Changed

Tampa, Fla., Nov. 24.—Tariff on tobacco imported into this country will remain the same. This is the report of Congressman S. M. Sparkman, returned from a stay of two weeks in Washington, where he made two appearances before the ways and means committee on matters affecting the tariff bill now in course of preparation, says the Tribune.

When the tobacco schedule was discussed at the hearing but those present presented a number of ideas for the consideration of the committee. The greater part of these, however, were in favor of leaving the present tobacco schedule unchanged.

The tariff will remain the same unless interested parties are able to show better and more valid reasons why it should be changed than they were able to show at the hearing in Washington. The present tobacco schedule is the one desired by the people interested in the tobacco industry in Tampa and throughout all of Florida.

Congressman Sparkman urged upon the committee the necessity of a slight increase in the duty on imported grapefruit and oranges. This the congressman considers fair because with the low freight rates, existing between this country and the citrus fruit producing countries south of Florida, unless the duty is increased, the growers further south can place their products in the American markets at a price lower than it is possible for the Florida grower to place the same fruit in these markets.

CASE OF SARAH KOTEN

The Young Jewess on Trial in New York for Killing Her Betrayer

New York, Nov. 24.—Considerable public interest is manifested in the case of Sarah Koten which was called for trial today in the criminal branch of the supreme court. The young woman, a Russian Jewess, who has been in America but a few years, is charged with having murdered Dr. M. W. Auspitz last spring. The victim was a man of family and a physician of high standing in his profession.

Dr. Auspitz maintained a private sanitarium and Sarah Koten was employed by him as a nurse. According to the young woman she was wronged by the physician and then cast out. When an effort to obtain justice in the courts failed her she determined to wreak personal vengeance upon her alleged betrayer.

On the night of the tragedy she telephoned to Dr. Auspitz at his home on East Ninety-third street. In the guise of a patient she summoned the physician to make a professional call at an apartment house on West 135th street. When the physician arrived at the house, the young woman, heavily veiled, met him in the vestibule and without a word shot and killed him instantly.

After the killing Miss Koten collapsed and for days her life was despaired of. Because of her condition she was removed from the Tomps to the city hospital on Blackwell's Island. There, on September 26th last, she gave birth to a child. The circumstances surrounding the case aroused much public sympathy in behalf of the unfortunate and countless young women. This sympathy was increased when it became known that similar charges to those made by the young Jewess had previously been preferred against Dr. Auspitz by another woman who had been in his employ. Through the efforts of charity-disposed persons able counsel has been engaged to conduct the defense of Miss Koten.

Lardless Cookery.

Horseshoe carriages, wireless telegraphy, and now lardless cookery! Lard has, from time immemorial, held sway in the kitchen, but it has one fatal objection—it is indigestible. The indigestion with which the American nation is afflicted is due to the use of pork and its by-product—lard. Recognizing this, The N. K. Fairbank Company, Chicago, have placed on the market a vegetable oil cooking fat, Cottolene, which can be used in every way that lard or butter can, and which makes delicious, digestible and nourishing food. It is recommended by physicians, even to invalids, and it is cheaper than lard, one-third less being required.
