## MUZZLE YOUR DOGS

Owing to the appearance of hydrophobia in the city and the fact that numbers of dogs are known to have been bitten by infected dogs; therefore all dogs are ordered muzzled by Sunday morning, Nov. 29th, at 9 o'clock, or to be closely confined by owners until further notice. By order,  
G. A. Nash, Mayor.

## CHRISTIAN ENDEAVOR NEWS

The last of a series of six district convention convened in Pomona, Northeastern district, Nov. 20-22. The hospitality could not be excelled. Dainty blue and white badges and the beautiful decorations in the Congregational church, showed the loving forethought of the local workers, as did also the abundant dinner and supper "free for all" in the city hall on Sunday.

There was a total out-of-town delegation of twenty-four, a large number than at any fall convention excepting that of Hillsborough and Manatee district. Several ministers helped make the program a good one.

The first session was held Friday afternoon, with Vice President V. G. Norton of Crescent City in the chair. Mr. Ralph Pattison of Jacksonville, district ex-president, served as convention secretary.

Friday evening words of welcome were given by Mayor C. A. Fisk, the pastor host, Rev. Woodwell, and local Local President, C. C. Middleton. Mr. Norton responded happily in "Why This Convention Wanted to Come to Pomona." Rev. E. P. Butler, the new pastor of the Presbyterian church in Crescent City, gave an excellent address, "Christian Endeavor and the Country Church." Then followed, at the home of Dr. Beck, a social called "Social Plea-ty," which was the most unique gathering we ever attended during a convention, and will receive larger notice later on.

Saturday morning was well begun by a largely attended sunrise prayer meeting, with Miss McManaman as leader. The forenoon session had a lecture by Rev. E. P. Butler on Bible Study. Plenty of time was given to business. It was found that four new Junior societies had been formed since last November, with a loss of none. A newly formed Young People's society was reported at Rodman and the disbanding of the First Presbyterians of Jacksonville, making a total number in district of ten senior organizations, the same as a year ago. Our district is competing for the Increase Banner to be given next April in Tampa for the district organizing the largest proportionate number of societies.

Saturday afternoon Mrs. C. A. Knowlton, Pomona Junior superintendent, led a conference on practical work, using question cards. Two Jacksonville Christian church Juniors, Misses Mina Bates and Winona Hooker, gave original papers entitled, "Why I am a Junior," and "How I Keep My Pledge," on Sunday afternoon. In the workers' hour on Saturday afternoon, Miss Nina Gahor, a Junior delegate from Interlachen, read a helpful paper on work for children. The mission session contained a strong plea for mission giving, not only of money but of boys and girls, from Rev. F. J. Longdon, the honored guest from DeLand, East Coast district. Mrs. Dora Perry, Pomona, read a paper on moral mission committees.

Saturday evening the K.O.M. I thehva splendid talks given: "Does the C. E. Society Really help or Hinder a Pastor, and How?" by Rev. Rev. Longdon; "Cannot the Sunday School Do the Present Christian Endeavor Work?" by Mrs. C. I. Wilcox, of Hollister. Her husband spoke on "What Will Make a Christian Endeavor Society Christian." Mr. Dawson, delegate from the Congregational church in Jacksonville, told "How to Secure More Variety, Originality, More Prayer and More Preparation." "How to Develop the Latent Talent in Our Societies," was Mr. Morton's subject.

Sunday morning Rev. J. F. Blackburn, Congregational superintendent for C. E. and S. S. work in Florida, preached with the theme, "The First and Twentieth Century Endeavor." Rev. Woodwell gave a short talk on active society work, and Sunday school ended the forenoon. That afternoon came the Junior Rally, led by Miss McManaman, district superintendent. The Pomona Juniors had bright exercises. Eight Interlachen delegates rendered a hymn service called "Eight Memory Prisms." A good report was heard from the Crescent City delegate, and from the Gilmore society by letter. "Florida Juniors" was sung at the close of this all-alive rally.

Sunday evening Mr. W. S. Middleton opened the service. Miss Krook, of Pomona, led a truly Thanksgiving meeting. The state secretary told of connecting links between the District and world-wide Endeavor.

There was an excellent symposium given by Mr. Pattison, of Jacksonville, and Miss Mobley, of Pomona. The former told about "Our Model Young Woman Endeavorer," and Miss Mobley described "Our Ideal Young Man Endeavorer." Revs. Longdon and Woodwell, the resolution committee, gave thanks for many who had rendered faithful service in the convention. The Interlachen delegation, numbering ten, invited Northeastern district to meet with them next time. Mr. Norton led the touching consecration service in which nearly each one expressed a wish for individual and collective better living and endeavoring in the new district year just dawning.

Newly elected officers are: President, W. S. Middleton, Pomona; Vice

President, W. C. Norton; Vice President for Jacksonville, Mr. Organ; Secretary, Mrs. H. A. Perry, Pomona; Treasurer, (re-elected) Wallace F. Mantey, Jacksonville; Junior Superintendent, Mrs. W. F. Hawley, Gilmore; Correspondence and Press Superintendent, Grace A. Townsend, Interlachen; Superintendent for Quiet Hour and Tenth Legion Work, Miss May, Gilmore, Gilmore.

Grace A. Townsend, Interlachen, Fla., Nov. 24, 1908.

## PAYING THE PENALTY OF TOO MANY PICTURES

According to observers there is a new eye complaint developing which for want of a better name is called picturitis. It is a result of the popularity of moving picture entertainments.

Thousands of men, women and children now patronize the moving picture shows which offer half an hour's entertainment for a dime. Some visit two or three different shows in one evening, and so spend practically an hour or an hour and a half in a darkened room looking intently at the jumping, rapidly shifting pictures on the screen.

The light on these pictures is uneven, and frequently sharp flashes of light fall on the retina. The effect on the eye is the same as watching steadily nearby scenery from a window of a rapidly moving express train or from a flying automobile, which is known to be very trying on the eye because of the rapid changes of muscular accommodation demanded.

### Causes Discomfort

To many watching these moving pictures causes discomfort. A few minutes of it gives them a sensation of eye strain and nervous headache. Others feel the effect of the strain afterward and do not attribute their sensations to the entertainment.

One physician in speaking of the records of recent physical examinations of men who wished to do gymnastic work said he had observed a number of cases of eye strain and of nervousness which seemed to be due to some eye trouble.

"In a number of cases," said he, "the condition could be traced directly to the fact that the subject owned an automobile and was fond of driving at a high speed. In many other cases, the majority in fact, the men never used automobiles and their only travel was in the elevated or surface cars. Some of them were fond of moving pictures.

"On talking to them about it I discovered that the trouble was directly due to this cause. It is certainly the only plausible explanation.

"I am not in a position to state that moving pictures are harmful in all cases, as I have not collected sufficient data to form definite conclusions. I can say, however, that the strain on the eye from speeding in an automobile does lead to nervous derangements and a lowered physical tone.

"This is due partly to the constant strain and responsibility people bring at a high speed are under. But much of it is due to the eye strain coming from watching fences and trees and nearby objects flitting by at a rate of fifty or sixty miles an hour.

"The rapid rate at which moving picture jiggle before the eyes, coupled with the fact that the light must necessarily be less than that of daylight and the nearness of the pictures to the spectator produces a condition even worse for the eye than speeding at a seventy-mile clip in a car.

"Certainly such conditions are not normal for the eye. Of course when we come to that the extensive use of artificial illumination, reading at night and using the eyes after dark in intricate processes are natural. Primarily, man did his work by daylight and slept at night. And probably to the fact that at night he had no electric lights and no finely printed paper and books to read was due the other fact that he could see much better in the day than the average city man of today. At it is the countryman of today can get around far better without light at night than the city man.

"This moving picture habit, which subjects the eyes to higher power illumination broken into instants of alternating light and shade, certainly cannot be restful or beneficial to the eyes. Personally I find any long view of these pictures very uncomfortable, and I know of many who complain that they produce unpleasant ocular sensations."

### WILLIAM'S KIDNEY PILLS

Have you neglected your kidneys? Have you overworked your nervous system and caused trouble with your kidneys and bladder? Have you pains in loins, side, back, groins and bladder? Have you a flabby appearance of the face, especially under the eyes? Too frequent a desire to pass urine? If so, Williams' Kidney Pills will cure you. Sold by the Anti-Monopoly Drugstore.

### NORTHERN RE-ELECTED

Madison, Ga., Nov. 29.—Ex-Gov. J. W. Norton was last night unanimously re-elected president of the Georgia State Baptist Convention, in session here, which position he has held for thirteen years.

### RAW LUNGS

When the lungs are sore and inflamed, the germs of pneumonia and consumption find lodgment and multiply. Foley's Honey and Tar kills the cough germs, cures the most obstinate racking cough, heals the lungs, and prevents serious results. The genuine is in the yellow package. Sold by all druggists

# Don't Shiver

Just scratch a match—light the Perfection Oil Heater—and stop shivering. Wherever you have a room that's hard to heat—that the furnace doesn't reach—there you'll need a

# Better Not Get Dyspepsia

If you can help it. Kodol prevents Dyspepsia, by effectually helping Nature to Relieve Indigestion. But don't trifle with Indigestion.

A great many people who have trifled with indigestion, have been sorry for it—when nervous or chronic dyspepsia resulted, and they have not been able to cure it.

Use Kodol and prevent having Dyspepsia. Everyone is subject to indigestion. Stomach derangement follows stomach abuse, just as naturally and just as surely as a sound and healthy stomach results upon the taking of Kodol.

When you experience sourness of stomach, belching of gas and nauseating fluid, bloated sensation, gnawing pain in the pit of the stomach, heart burn (so-called), diarrhoea, headaches, dullness or chronic tired feeling—you need Kodol. And then the quicker you take Kodol—the better. Eat what you want, let Kodol digest it.

Ordinary pepsin "dyspepsia tablets," physics, etc., are not likely to be of much benefit to you, in digestive ailments. Pepsin is only a partial digester—and physics are not digesters at all.

Kodol is a perfect digester. If you could see Kodol digesting every particle of food, of all kinds, in the glass test-tubes in our laboratories, you would know this just as well as we do. Nature and Kodol will cure a sick stomach—but in order to be cured, the stomach must rest. That is what Kodol does—rests the stomach, while the stomach gets well. Just as simple as A, B, C.

### Our Guarantee

Go to your druggist today and get a dollar bottle. Then after you have used the entire contents of the bottle if you can honestly say, that it has not done you any good, return the bottle to the druggist and he will refund your money without question or delay. We will then pay the druggist for the bottle. Don't hesitate, all druggists know that our guarantee is good. This offer applies to the large bottle only and to but one in a family. The large bottle contains 2 1/2 times as much as the fifty cent bottle.

Kodol is prepared at the laboratories of E. C. DeWitt & Co., Chicago. SOLD BY THE ANTI-MONOPOLY DRUGSTORE, OCALA, FLORIDA.
