

A BIG FACTORY FOR OCALA

Mr. M. J. Roess to Install a Modern and Up-to-date Planing Mill and Novelty Works

Down in the "manufacturing quarter" of the city, between the tracks of the Seaboard and Coast Line railroads...

Mr. M. J. Roess, one of our most successful young lumber men, is preparing to install a big planing mill and novelty manufacturing works.

The buildings for the plant will be put up at once and at present will consist of the following, to be added to as needed: The planing mill, 60x100 feet; warehouse, 40x100 feet; dry kiln, 20x60 feet, and the engine and boiler house.

Sidetracks or spurs will be built into the yards from both the S. A. L. and A. C. L. railroads...

The plant will employ from twenty-five to thirty men all the time, many of them skilled workmen and drawing good pay.

Mr. Roess will also put in a large and complete stock of building materials and will be able to supply every item needed by a contractor...

Mr. Roess has a first-class mill at Martin that is cutting 300,000 feet of lumber every month...

Mr. Roess is now handling a good deal of building materials, in addition to the shingle and lumber business...

There is a splendid opening here for the planing mill and novelty works and with the shipping business to out of town points...

Mr. Roess has unlimited faith in Ocala and this section of the state and thinks its future most bright...

A NEW CARD CLUB

The new card club which was recently formed for social commingling held its first meeting last afternoon...

The following are the members of the club: Mrs. D. W. Davis, Miss Mary Piatt, Mrs. M. C. Looney, Mrs. Edward Holder...
