AN AFRICAN EXPEDITION

Conducted by an Ex-President for the Benefit of the Smithsonian Institution

Washington, Dec. 11.—President Roosevelt, in a statement prepared by Secretary Walcott of the Smithsonian Institute, made his first official announcement yesterday regarding the hunting trip to Africa on which he will start within two weeks after he retires from the presidency.

The expedition is to be outfitted by the Smithsonian Institution, the President defraying his own expenses, and will gather natural history materials for the new national museum.

No fears need be entertained for the President's safety, the statement declares, because every member of his party is an excellent rifle shot.

The statement says:

Six in the Party

"Besides the President and his son, Kermit Roosevelt, the personnel of the party, on leaving New York, will consist of three representatives of the Smithsonian Institution; Maj. A. Mearnes, Medical Corps, U. S. N., retired; Mr. Edmund Heller and Mr. J. Alden Loring. On arriving in Africa the party will be enlarged by the addition of B. J. Cuninghame, who is now in Africa preparing the President's outfit. He will have in charge a number of native porters who, with necessary animals, will be formed into a small caravan.

"Mr. Roosevelt and his son will kill the big game, the skins and skeletons of which will be prepared and shipped to the United States by other members of the party. Mr. Kermit Roosevelt is to be the official photographer of the expedition.

To Hunt "Specimens"

"The national collections are very deficient in natural history materials from the dark continent; and an effort will be made by the expedition to gather general collections in zoology and botany to supply some of its deficiencies; but the main effort will be to collect the large and vanishing African animals. Mr. Cuninghame, who is now assembling the materials for Mr. Roosevelt's use, has been employed to act as guide and manager for the caravan. He is also an experienced collector of natural history specimens, having made collections for the British Museum in Norway and Africa. He is an English fieldman who has guided numerous hunting parties in Africa and who was chief hunter for the field Columbian exposition."

Heller Knows the Game

Mr. Heller, 30 years old, a graduate of Stanford University, class of 1901, is a thoroughly trained naturalist, whose special work will be the preparation and preservation of specimens of large animals. His former experience, when associated with D. G. Elliot and Mr. Ackley of the Field Columbian Museum, in collecting big game animals in the same portions of Africa which Mr. Roosevelt will visit, will be a valuable asset to the expedition. Mr. Heller has had large experience in animal collecting and is an author of scientific papers. He is assistant curator of the Museum of Vertebrate Zoology of the University of California.

Mr. Loring, 38 years old, is a field naturalist, whose training comprises services in the Biological survey of the Department of Agriculture and the Bronx Zoological Park, New York city, as well as on numerous collecting trips through British America, Mexico and the United States. In 1898 he made a record by sending in to the United States natural museum 900 well equipped specimens of small mammals in the three months' journey from London through Sweden, Germany, Switzerland and Belgium.

Major Mearnes, about 53 years old, will be the physician of the trip and have charge of the Smithsonian portion of the party. He has had twenty-five years' experience as an army doctor, and is also well known as a naturalist and collector of natural history specimens.

The party will reach Membasa in April, 1909. The general route will be up the Uganda Railroad to Narioba and Lake Victoria Nyanza, a distance of about 650 miles by rail, thence crossing into Uganda, and finally passing down the Nile to Cairo. Much of the hunting will be done in British East Africa, where the Uganda Railroad can be used as a base of supplies and means of ready transportation. At least one great mountain, possibly Mount Kenia, will be visited. Khartoum will be reached, if all goes well, about April, 1910. The expedition may be expected to spend one year on African soil.

GUILTY OF COUNTERFEITING

Passing counterfeit money is no worse than substituting some unknown worthless remedy for Foiley's Honey and Tar, the great cough and cold remedy that cures the most obstinate coughs and heals the lungs. Sold by all druggists.

ASKS FOR ANNULMENT

Silvery Speer, the Atlanta Girl Wife, Alleges that She Was Intimidated Into a Marriage

Atlanta, Dec. 11.—Following Russell Thomas' suit for \$100,000 against Mr. and Mrs. W. A. Speer for alienation in his wife's affections, the young wife, Silvey Speer Thomas, through her father, W. A. Speer, as next friend, yesterday filed suit in the superior court for annulment of the marriage, which is tantamount to a suit for divorce.

It will require two verdicts just as in a divorce case. Young Thomas states that he will fight the case. The petition for annulment of the marriage states the following grounds and charges:

"That the marriage was brought about through a conspiracy on the part of young Thomas and his father, W. S. Thomas, and that they used duress and fraud to bring it about.

"That soon after young Thomas entered the Speers' service as chauffeur he began to persuade, force and defraud her into a marriage with himself.

"That young Thomas, his father and other persons conspired with him in this.

"That these persons led Miss Speer, a girl of 16, to believe that unless she married the chauffeur violence would be done her father.

"That unless the marriage came about she would be scandalized, as there had been gossip about the two, and that marriage was her only salvation.

"That the girl was intimidated, and that when they went to the ordinary to get the license young Thomas and his father perpetrated a fraud on the ordinary by representing that the elder Thomas was her guardian and that the elder Thomas signed his consent to the marriage.

"That this fraud was still further practiced, this time on the Rev. H. A. Atkinson, the minister, whom the elder Thomas assured that Mr. Speer had sanctioned the marriage."

Going on, the petition says that Miss Speer never lived with Thomas as his wife, and that the marriage was not voluntary on her part.

Miss Speer then prays for a total divorce, and says that neither she nor Thomas has property.

IF YOU KNEW

The merits of the Texas Wonder, you would never suffer from kidney, bladder or rheumatic trouble. \$1 bottle two months' treatment. Sold by druggists or by mail. Send for testimonials, Dr. E. W. Hall, 2926 Olive street, St. Louis, Missouri.

HOLD-UP NEAR SPOKANE

Mail Car Robbed, but Fireman's Presence of Mind Saved the Express

Spokane, Wash., Dec. 11.—Three men held up the eastbound Great Northern train No. 4, a mile and a half east of Hillyard, in this state, yesterday, robbed the mail car and made their escape.

Only the presence of mind of the fireman prevented the looting of the express car, which carried a large amount of money, including \$20,000 consigned from a Spokane bank to a Montana town. The train had slowed down in the yard at Hillyard, when three men, armed with revolvers, crawled over the tender of the engine and covering the engineer and fireman with loaded revolvers, ordered the train brought to a standstill, a little over a mile from the station.

The engineer obeyed, and when the train had come to a stop, the bandits forced the engineer and fireman to leave the cab.

While two of the robbers stood guard over the engineer the other took Fireman Perrin back to uncouple the mail and express cars from the rest of the train. In the darkness the bandit failed to note the first car was mail, while the second was baggage, and the express car, which contained the desired booty, was third in the train. Perrin saw this mistake and quickly taking advantage of it in spite of a menacing revolver held close to his head, cut off the mail and baggage cars, leaving the express car attached to the dead train. The robbers then left the engineer and fireman with the train and boarded the locomotive and themselves ran it several miles east from where they brought it to a stop, robbed the mail car and then again boarded the engine, uncoupling it from the cars, which they left on the track and proceeded three miles to Mead.

There a rig was awaiting them, and they made their escape. Mead is only ten miles from Spokane, and it is supposed the bandits were on their way to Spokane. The amount of their booty is unknown.

PILES CURED IN 6 TO 14 DAYS

PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded. 50c.

HAT PINS

MADE OUT OF
REAL
ROSES

Real Rose Hat Pins

It does not seem possible, yet it is true, that these Hat Pins are made out of real live roses, changed entirely into metal by a secret process, preserving every detail of the rose from which each pin is made. They cannot break and will last forever. This discovery is without doubt one of the lost arts of the ancient Egyptians. They are the most beautiful of all Hat Pins. No two are alike. Finished in five colors to conform to the prevailing fashion in millinery. Made in six sizes, from the smallest rose bud to the full blown flower. These pins are made by the genuine "DE-LAMOTHE" secret process, the only process by which an open rose can be perfectly metalized. Don't buy any inferior imitation. All genuine "DE-LAMOTHE" Metalized Real Rose Hat Pins have the name stamped on the pin.

We have the exclusive sale of "DE-LAMOTHE" products for this city. See the exhibit in our window of this wonderful discovery. : :
