AN EXPLORING EXPEDITION

To Unravel the Mysteries of Darkest America Will Train at St. Petersburg for Its Work

St. Petersburg, Fla., Dec. 11.—Capt. George Melville Boynton, the noted globe-trotter and South American explorer, whose name at various times past has been familiar to the reading public in connection with various South American revolutions, arrived in the city yesterday from New York on a mission of very unwarlike but of even more important character, says the Times.

He will locate in St. Petersburg a camp for the preparing and training of a South American scientific exploring expedition. The expedition is under the patronage of a number of scientific people of wealth of New York and Boston, Mrs. Jack Gardner of Boston being a patroness. The party will consist of about fifty men, scientific people of note and students and young travelers, Capt. Boynton in command.

About eight months will be occupied at this point with the organization and training for camp life, and the expedition will then sail for Pernambuco, Brazil, to explore the vast unknown regions lying between that city on the Atlantic ocean to Punta Parina, Peru, on the Pacific. Five years will be devoted to the undertaking, as travel is impossible nearly half the year in those tropical wildernesses.

The first year's stint—about six months of field work to the year—will take the explorers from Pernambuco to the Tocantins river; the second to the Tapajos river; the third to the Madeira river; the fourth to the Jurua river; and the fifth to the Pacific.

"Darkest America" is the region between the Tocantins and Jurua rivers, which is absolutely unknown to white man. These great South American rivers have been explored, but no expedition has crossed this country, and the results in the interests of scientific discovery are expected to be very important.

At the St. Petersburg camp the members of the expedition will receive all the training in the use of instruments, foods and modes of living that will later be found necessary in the wilderness, Capt. Boynton's intention being that there shall be no untrained tenderfeet. A retired location is desired for this purpose, but on certain days the camp, which is to be a model of its kind, will be open to the public.

Capt. Boynton is a member of the Explorers' Club of New York and a Fellow of the Royal Geographical Society of England.

PITTSBURG IS BECOMING PURE

Police Won't Stand for Bare Nether Limbs on the Stage

Pittsburg, Dec. 12.—In tears and tights Miss Gertrude Hoffman and 12 other shapely young women went through the dance set to Mendelssohn's Spring Song at the Duquesne Theater last night, where they are appearing in "The Mimic World." Miss Hoffman also wore a lot of unusual clothes in her Salome dance.

Chief of Police Thomas A. McQuaide moved against the dancers yesterday and told Miss Hoffman that if there was any more of such nude work as that of Tuesday the whole outfit would sleep in cells at the police station.

"I'll back the wagon right up and let you all come to the station and put your clothes on," said McQuaide to Gertrude, who had been inclined to take the matter lightly.

"But what will we do in the 'Spring Song?' You know, Mr. McQuaide—" "I know that there's got to be more clothes on that bunch. Get some tights and some shoes. I don't want any more of this bare legged business, and I won't have it," snorted McQuaide.

And last night under the eye of the police the young women in tights did the dance that they had done in bare legs the night before.

WHERE BULLETS FLEW

David Parker, of Fayette, N. Y., a veteran of the civil war, who lost a foot at Gettysburg, says: "The good Electric Bitters have done is worth more than five hundred dollars to me. I spent much money doctoring for a bad case of stomach trouble, to little purpose. I then tried Electric Bitters, and they cured me. I now take them as a tonic, and they keep me strong and well." 50c at all drug stores.

AN HONEST REVISION

Of the Tariff is What Taft Hopes for and Will Try For

Washington, Dec. 11.—William H. Taft, the President-elect said last night that it was his belief that the House of Representatives would make an "honest and thorough revision of the tariff" at the extra session which he is to call for that purpose upon his inauguration as President. The belief he bases on a conference he had with Speaker Cannon and a session with the Republican members of the Ways and Means Committee of the House.

DON'T BE HOPELESS

A SANTA CLAUS SHIP

Celtic Left New York Today, Loaded Down with Christmas Cheer for Sperry's Jackies

Washington, D. C., Dec. 12.—In compliance with orders issued by the navy department, the big supply ship Celtic sailed from New York today laden to her full capacity with Christmas goodies for the thousands of sailors aboard the Atlantic fleet now homeward bound on the cruise around the world.

It is planned to have the Celtic meet the fleet somewhere in the Mediterranean. It is highly probable that the Santa Claus ship will not fall in with Admiral Sperry's fleet until some days after Christmas, but it is safe to say that the good things she carries will be none the less welcome to the Jackies. Included in the cargo is a plentiful supply of American turkeys, barrels of New England apples, boxes of chocolate, raisins, nuts, celery, plum puddings and all the ingredients necessary in the making of hot mince and pumpkin pies.

DRINK PLENTY OF WATER

"The people here do not drink enough water to keep healthy," exclaimed a well-known authority. "The numerous cases of kidney and bladder diseases and rheumatism are mainly due to the fact that the drinking of water, nature's greatest medicine, has been neglected.

"Stop loading your system with medicines and cure-alls; but get on the water wagon. If you are really sick, why, of course, take the proper medicines—plain common vegetable treatment, which will not shatter the nerves or ruin the stomach."

To cure Rheumatism you must make the kidneys do their work; they are the filters of the blood. They must be made to strain out of the blood the waste matter and acids that cause rheumatism; the urine must be neutralized so it will no longer be a source of irritation to the bladder, and, most of all, you must keep these acids from forming in the stomach. This is the cause of stomach trouble and poor digestion. For these conditions you can do no better than take the following prescription: Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Scrup Sarsaparilla, three ounces. Mix by shaking well in bottle and take in teaspoonful doses after each meal and at bedtime, but don't forget the water. Drink plenty and often.

This valuable information and simple prescription should be posted up in each household and used at the first sign of an attack of rheumatism, backache or urinary trouble, no matter how slight.

FORAKER OR TAFT?

Contest for the Ohio Senatorship Narrowing Down to Two Men

Columbus, Ohio, Dec. 12.—Three weeks from today, on January 2nd, the republican members of the Ohio legislature will hold a caucus to choose the man they will support for the United States Senate. The legislature will meet on the following Monday, January 4th. Although nearly a dozen men are in the field the choice has apparently narrowed down to Senator Foraker and Charles P. Taft, brother of the president-elect. Mr. Taft has been promised the thirteen republican votes of Hamilton county, and the legislators of other counties are falling into line. Friends of Foraker continue hopeful and express confidence that he will be returned. The vote on senator will take place January 6th.

IF YOU ARE A TRIFLE SENSITIVE

About the size of your shoes, it's some satisfaction to know that many people can wear shoes a size smaller by sprinkling Allen's Foot Ease into them. CASTRO IN EUROPE

Bordeaux, Dec. 11.—President Castro of Venezuela, arrived here yesterday from La Guayra. A representative of Foreign Minister Pichon boarded the steamer and had an interview with President Castro, after which the President and members of his party came up to Bordeaux on a private car. They left for Paris this morning.

WHAT A BANK DOES

There are many ways in which it serves the public, but the one now most valuable, perhaps, is to help with loans. We will meet the needs of conservative borrowers.
