GOOD ROADS

Hon. H. W. Long returned yesterday from attending the good roads association at Jacksonville, over which important deliberative body he ably and acceptably presided. He said it was a large and enthusiastic gathering. Sixteen counties were represented and all were enthused with the work of promoting good roads in Florida, the greatest factor in promoting the agricultural and trucking interests of the state yet found.

In due time Mr. Long will issue an address giving the scope and purpose of the late state good roads meeting.

A VILLAGE BLACKSMITH

Saved His Little Son's Life

Mr. H. H. Black, the well known village blacksmith at Grahamsville, Sullivan county, N. Y., says: "Our little son, five years old, has always been subject to croup, and so bad have the attacks been that we have feared many times that he would die. We have had the doctor and used many medicines, but Chamberlain's Cough Remedy is now our sole reliance. It seems to dissolve the tough mucus and by giving frequent doses when the croupy symptoms appear we have found that the dreaded croup is cured before it gets settled." There is no danger in giving this remedy, for it contains no opium or other injurious drug and may be given as confidently to a babe as to an adult. For sale by Anti-Monopoly Drugstore.

"NOT GUILTY"

Was the Verdict of the Jury in the Moss Bluff Hog Homicide Case

The case of Albert Fort against Frank and Hosea Sellers, accused of hog stealing, was again tried before County Judge Robert Bullock and consumed all of Friday and extended into the night ere the jury brought in a verdict of not guilty. The jury consisted of Messrs. W. L. Bangs, I. W. Ogle, Joe White, Frank Ditto, E. L. Ley and Dick Hendricks. The attorneys in the case were Ed W. Davis for the prosecution and Ray B. Bullock for the defense.

The parties were from the Moss Bluff section. The scene of the alleged theft was laid in the scrub to the east of that settlement, where on the 8th day of November several hogs were killed, which Fort claimed were his property, but the accused said they owned the swine.

One witness who had greatly delayed the proceedings of the court, insisted on stating his evidence in his own way and lugging in what some one else said about the case. He was brought to a halt by the attorneys and then the witness said if he could not tell of the transaction in his own way he would not tell it at all, which remark brought the court to his feet and he told the witness in no uncertain tone that he [illegible] in contempt of court and subject [illegible] that it was not for the witness [illegible] what he would do or not do, but [illegible] would have to answer questions as required.

The witness changed his mind and, with a subdued air, complied with the court's demands. A dozen witnesses were present from the Moss Bluff section.

Professors Hatton and Martin of the Tampa Business College of Tampa, were in our city today looking into the matter of establishing at this place a branch commercial school. They are looking the ground over carefully and if they can satisfy themselves such an institution could be conducted here profitably they intend to launch the enterprise. Both men are experienced in their line of business and have made successes of their work wherever they have established themselves. The Star sees no good reason why a business school of the kind indicated would not succeed here. We acknowledge a pleasant call from the parties in interest.

Mr. Andrew J. Turner and son, Joseph, of Juliette, came to town Tuesday and attended the Methodist supper. They were pleased with the hospitable reception given them. Mr. Turner is one of the most enterprising and successful stock men in the county. He took occasion during the season to supply the Dunnellon market with beef from his range. He slaughtered the animals and disposed of them to the butchers of Dunnellon at $5 a hundred pounds and found it more profitable to sell the animals in this shape than on the hoof.

The STORY of a STOVE

Like the Iron King is interesting to every woman.

The Iron King is a stove with a reputation. For years it has been known far and wide as the most scientifically constructed stove in use.

It is an incomparable cook stove—an absolutely faultless baker.

Every Iron King cook stove has the Iron King bridge flue. This flue allows all the oven plates to heat evenly. Every housewife understands the importance of this feature.

No one has ever bought an Iron King and been dissatisfied. No one can be.

Come in and examine the stove itself and find out exactly why this is so.
