The makers of Dr. Pierce's Favorite Prescription, for the cure of weak, nervous, run-down, over-worked, debilitated, pain-racked women, knowing this medicine to be made up of ingredients, every one of which has the strongest possible indorsement of the leading and standard authorities of the several schools of medical practice, are not afraid to print, as they do, the list of ingredients, of which it is composed, in plain English, on every bottle-wrapper.

MURPHY YET MASTER

Of the Tammany Machine-Is Not Friendly to Hearst, But Prefers Him to Jerome

New York, Sept. 20 .- The returns received from Tuesday's democratic primaries show that Charles F. Murphy is in control of the Tammany executive committee, and that he also has fifty of the hundred and five delegates to the state convention.

Murphy is not friendly to Mr. Hearst's interests, but at the same time his control of the machinery is regarded as precluding the possibility of the nomination of Jerome, who is fighting Mr. Hearts so bitterly, but who wants to secure the nomination

A Peculiar Tree,

A singular maple tree on the left bank of the Oder, in Germany, is at least a century old and has been twisted and cut into a kind of circular house of two stories. A firm, leafy floor has been formed by causing the branches to become gradually woven together. Above this is a smaller second floor, similarly formed, and the ends of the branches have been woven into solid walls, in which eight windows on each story have been cut.

Catholic Priests and Marriage. Marriage by the clergy was first positively forbidden in the year 1074 by Pope Gregory VII. The controversy, however, which had been going on for centuries on that subject was not altogether settled by Gregory's decree. The council of Trent in 1593 was the ecclesiastical body which formally prohibited priests from forming marriage alliances. That permanently settled the matter.

The Strenuous Life.

There can be no question that the prevalence of certain diseases has increased during the last half century. Conspicuous among these are diabetes and insomnia, both of which are largely due to the mental stress of a harder struggle for existence.-Practitioner.

Here is something from the Marion (Kan.) Record which I think every rural or borough journal in this county will appreciate: "Every once in a while some cheerful individual remarks to us, well, now that the paper is out you can take it easy for three of four days. Yes, how delightful it is that a country editor has practically nothing to do between press days. Business runs along automatically. When paper bills become due money drops off the trees with which to pay them. Subscribers vie with each other to see who can pay the farthest in advance. Advertisers beg for additional space. And the way the news hunts up the editor is also pleasant to contemplate. There is something really peculiar about the way news items act. When the paper is out the editor simply goes to his desk and leans back in his easy chair and looks wise and waits for next week's press day. The they fine past the desk and tell him all the news of the wek. He writes it up in fifteen or twenty minutes, takes it back and hangs it on the copy hook. The compositors take the copy, shake it over the type cases. ay a few mystic words, the type flies into place and after a few passes by the foreman the forms are ready for the press again. And the editor goes down and deposits some more money in the bank. It's the greatest snap in the catalogue. Now, if the editor could only do away with the press
