

Mr. W. W. Howell has just returned from a trip of several weeks in Georgia and Alabama. He reports that his trip has thoroughly satisfied him that Florida is the best place yet and especially Anthony. He says the farmers and truck growers here live easier and make more money than those in any section he has visited.

A couple of tramps got in trouble here last Monday and they are not out of it yet; and it may be that one or both of them will be at work on our hard roads before long; and we hope that our county commissioners will at an early day have a road cut out from Ocala to Anthony, for 'tis a fact that there is no road from Ocala to Anthony, except such by-roads as the traveling public hunt out for themselves and these by-roads are frequently filled with logs and brush, and we don't want the road cut by McLeod's route by Kendrick for us to get to Ocala. Now, it seems to me that this is a bad state of affairs in as prosperous a county as this and that has been settled as long as this one has.

Hon. A. P. Baskin returned last week from an extended visit to Valdosta and Perry, Ga. He has been in a fine humor since his return. Some attraction up there probably.

In June she cut branches from the old tomato vines and set them out and now they are full of fruit and during these nice rains she is transplanting cabbage plants and if the editor will come over about Christmas she would likely give him cabbage for dinner. THE WHOLE SYSTEM

May Become Invaded by Catarrh-General Lewis' Case.

Hon. James Lewis, Surveyor General of Louisiana.

Pe-ru-na Drug Mfg Co., Columbus, O.

"Gentlemen—I have used Pe-ru-na for a short time and can cheerfully recommend it as being all you represent and wish every man who is suffering with catarrh could know of its great value. Should I at any future time have occasion to recommend a treatment of your kind, rest assured that yours will be the one, James Lewis."

Wherever the catarrh is, there is sure to be a waste of mucus. The mucus is as precious as blood. It is blood, in fact. It is blood plasma—blood with the corpuscles removed. To stop this waste, you must stop this catarrh. A course of treatment with Pe-ru-na never fails to do this.

Send for free catarrh book. Address The Pe-ru-na Drug Manufacturing Co., Columbus, O.
