A. Smith, a young colored man, was tried in Judge Bullock's court this morning, on a charge of stealing groceries from the store of the late M. L. Tuttle. Sanitary Inspector Williamson found a number of packages secreted in a barrel on the rear of the man's premises, and swore out a warrant for his arrest. The door of this store was found open last night, and it is thought that it has been so ever since Mr. Tuttle's illness and that a large quantity of goods has been carried off.

## THE COOL WEATHER

The cool weather of the past week has had a very depressing effect on all kinds of truck. While there was considerable frost Monday morning it did no material damage except to retard the growth of the plant and delay its maturity.

Mr. Close said last year at this time he was shipping potatoes, while this season he will not ship before the middle of May.

The frost struck in spots. Panasoffkee had quite a hard one. Eastlake had frost, but it scarcely nipped. There was also frost in the Marshall swamp, while Ocala had a harmless touch of it.

J. M. Barco's truck place at Cotton Plant felt no injury from it. Col. J. M. Martin expects to commence shipping beans next week.

## BACK TO HIS OLD LOVE

Ben Raysor, who in years past has been the most successful young trucker in Marion county, got discouraged last season by ill health and an unfavorable season and so concluded he would cease pulling a line over a spotted mule in a truck patch and try a Pullman car bell cord. To ride in the lap of luxury on a Pullman car was too great a change for Ben's strenuous ideas of life and he soon signed for the spotted mule and forty acres and returned to his first love and is trucking again, with the brightest prospects of pulling himself out of the hole dug for him last season and proposes to fill it up and stand on it a good solid mound of earth at the close of the season.

The Ocala Greenhouse Company is building a slat house, for growing plants during the summer months. The house is 18 by 50 feet and will be so constructed that it can be covered with glass in winter if the space is needed.
