MR. WILLIAMS' FAREWELL

Rev. W. J. Williams, pastor of the Baptist church, preached his farewell sermon yesterday morning and took for his text Jeremiah 48:11: "Moab hath been at ease from his youth, and he hath settled on his lees, and hath not been emptied from vessel to vessel, neither hath he gone into captivity; therefore his taste remained in him, and his scent is not changed."

He said this test described the process of clarifying wine. Without the emptying of it from vessel to vessel no good, pure wine could be made.

It was so with the history of nations and peoples. No nation which has not been agitated from within, had conflicts and wars and had to maintain principles for right, ever amounted to anything. The greatest nations of modern times were England and America and these only became so from contentions along governmental lines, looking to the greatest good to the largest number. These difficulties and conflicts often arose in their own councils. These contentions unsettled the lees of national indifference and self security and they were emptied from vessel to vessel and at each emptying the nation became purified and exalted and strengthened. It was these internal commotions and outbreaks that unsettled the lees, released them as the purified acts and deeds of the nations, were transferred to higher conceptions and nobler acts on their part toward their affairs and as well as they related to the world at large.

As with nations so with individuals. Every revolution on the part of the individual towards himself, so far as it affected his conception of duty to his fellowmen and his good, was the pouring of a revived and purified spirit from vessel to vessel.

Churches were no exception to this rule and now and then the fermenting spirit got into them and it caused "the riling of the dregs" and the emptying of the fluid from vessel to vessel.

There have been some differences in this church and whatever had been the personal feelings in the matter, he was satisfied it was for the good of the congregation and that those affected could look upon it in the light of emptying from vessel to vessel, forgetting all thoughts of self, only remembering the spirit of forgiveness and Christian charity. He did not except himself in this matter, but felt he came out of it stronger and better and with a more consecrated mind and heart to do his duty to his fellow beings and his God as a Christian should, forgiving and condoning as he expected to be forgiven. Of one thing he was certain: he was a Baptist now, a Baptist forever, and he would never forsake the church for any troubles or differences that might arise in the church, but with the true spirit of a man and a follower of the lowly Nazarene and his religion, he would meet the difficulties in the way and the differences that might arise between members, meet them personally and with that inspiration and hope that comes of duty conscientiously done, if in aught he had wronged any one, beg forgiveness and in turn forgive and under one banner march to spiritual victory.

The congregation was quite large and the deepest interest was manifested in Mr. Williams' sermon, which was a good one and earnestly spoken, at times rising to heights of touching eloquence.

The singing was a very pleasing feature of the services and inspiring, rendered by Messrs. Nash and Stevens, Mrs. Izlar and Miss Lena Bullock.

After the services there was a business meeting of the congregation, Mr. Williams' resignation was accepted, all shook hands and any unpleasantness that had existed was banished and forgotten.

A SPRAINED ANKLE QUICKLY CURED

"At one time I suffered from a severe sprain of the ankle," says Geo. E. Cary, editor of the Guide, Washington, Va. Gymnastics

Will do much to develop a muscular body. But the strength of the body is not to be measured by its muscle, but by its blood. If the blood is impure, the body, in spite of its bulk and brawn, falls an easy prey to disease.

There is no medicine equal to Doctor Pierce's Golden Medical Discovery for the purifying of the blood. It carries off the poisons which contaminate the life fluid. It increases the activity of the blood-making glands and gives the body an increased supply of pure, body-building blood. It builds up the body with sound, healthy flesh instead of flabby fat, promotes the appetite, feeds the nerves, and so gives to weak, nervous people vitality and vigor.

There is no alcohol contained in "Golden Medical Discovery," and it is absolutely free from opium, cocaine and all other narcotics.

"I feel it my duty to write to you of the wonderful curative powers of your 'Golden Medical Discovery.'" writes George S Henderson, Esq., of Denaud, Lee Co., Florida. "I had a bad bruise on my right ear and my blood was badly out of order. I tried local doctors, but with no good results. Finally I wrote you the particulars in my case and you advised your 'Golden Medical Discovery,' which I began to take. From the first bottle I began to feel better, and when I had taken eight bottles the sore was healed up. I wish you success."

Dr. Pierce's Common Sense Medical Adviser, in paper covers, is sent *free* on receipt of 21 one-cent stamps to pay expense of mailing *only*. Address Dr. R. V. Pierce, Buffalo, N. Y.

BY THE LIGHT OF THE MOON

The Star Catfish Club held its regular session at Silver Springs last Saturday night. The meeting was promptly called to order at 7:30 p. m. in the big scrub east of Silver Springs Run. After the roll had been called it was found that the full membership was present and it was agreed that all members in good standing would be allowed to fish for catfish. At this juncture it was announced by Brothers Long Pole and No Bait that there were two members of the Anthony Eel Club present and a rising vote was taken that we extend to these worthy brothers the right hand of fellowship, which was done by Brothers Heavy Sinker and Cotton Line in the most impressive manner and then the luck stone was passed to all.

At 10:30 p. m., after the club had partaken of several cans of baked beans and a few loaves of "waspnest," washed down by a pot of Chase & Sanborn's best coffee (bamboozled out of the Teapot Grocery), it was decided that we enter into executive session and return to town. Broke Pole, Secretary.

PHOSPHATES

The reports from the Southern phosphate belt are encouraging, and there is a firmer tone to values for the product. South Carolina miners are working with considerable enterprise, and the output is increasing, while there is more inquiry from foreign sources, and also a fair domestic demand. Prices for Carolina rock are nominally steady. The movement of Florida rock from the Florida ports is improving, and the foreign demand for both land rock and pebble is fairly active, with prices very steady. In the land rock mining districts the various companies are increasing their output, working on old deposits and preparing to develop acquired territory. The market for pebble rock is much firmer, and holders find no difficulty in placing their output on better terms than formerly. The Peace River Phosphate Mining Co. shipped 6000 tons in May from Punta Gorda, and land rock shipments through Savannah for May were over 16,000 tons. The tendency of values for both domestic and foreign rock in the Tennessee phosphate field seems to be toward a higher range. Prominent companies in the Mt. Pleasant section are firmer in their views on export rock, and move with caution in making contracts for 1901 or 1902. The shipments of rock from Mt. Pleasant average between forty and fifty cars a day, and from Pensacola last month nearly 10,000 tons went to Europe, while on the 2d inst. 4500 tons more went to Leghorn from the same port.

Scrofula

Scrofula is an unwelcome legacy, but one which the children of blood poisoned parentage must accept, with all its humiliating consequences. It is an inheritance that makes one poorer; that brings wretchedness and disease instead of health and riches, for the child whose ancestral blood is tainted with Scrofula or the loathsome virus of Contagious Blood Poison is unfitted for the arduous duties of life so long as any of the transmitted poison remains in its veins. Scrofula manifests itself in various forms; swollen glands about the neck and throat, catarrh of the head, weak eyes, hip bone disease, white swelling and offensive sores and abscesses are familiar symptoms, attended usually with loss of strength, poor digestion and pale or bloodless complexion. The skin is sometimes most dreadfully affected, eruptions breaking out on all parts of the body. Scrofula destroys bone, tissue and flesh; no part of the human system escapes its withering, benumbing touch. Parents whose blood is poisoned by their own misdeeds, or who themselves may be suffering for the sins of some remote ancestor, must restore their own blood to its normal purity and strength, or they cannot expect healthy, robust children. S. S. S. cures Scrofula, like other diseases of a deep-seated, constitutional character, by restoring life and purity to the profoundly poisoned blood, and the rich, strong blood that is carried to the swollen and diseased glands absorbs and destroys the tuberculous deposits, and the painful, disfiguring sores and other evidences of Scrofula disappear.

When nineteen years old, and about one year after the birth of my first child, the glands on the left side of my neck began to swell. Four of the places were lanced and became open running sores; risings came under my left arm, and the discharge was simply awful. The doctors said I had the worst case of Scrofula they had ever seen. I took iodide of potassium, but this nor the other drugs given for this disease brought relief. When the physicians advised me to have the glands removed, I decided to try S. S. S. A few bottles cured me completely; no signs of the terrible disease are left.

MRS. RICHARD WASSON,
Golden Corners, Ohio.

S. S. S. should be begun immediately upon the appearance of the first symptoms, or where there is a known predisposition to Scrofula. Our medical department will be found of great help to those who are struggling with this wasting disease of heredity or any other blood trouble, and we invite you to write us. Should you or any member of your family need advice, our physicians will cheerfully give the information you desire, for which we make no charge. Book on Blood and Skin Diseases free.
