A BOLD STEP.

To promote the well-grounded and reasonable objections of the more intelligent to the use of dyes, medicinal, cosmetic, Dr. J. C. Pierce of Buffalo, is at this time engaged in making a bold step to combat the evil by the makers of put-up medicinal, cosmetic, and other patent medi-
cinals for the benefit of man and beast and no further benefit to any organism in the world, a full and complete list of all the ingredients entering into the composition of his widely calculated medicinals. This effort was taken in his generous manner and presents itself to his full confidence. Hence he has absolutely and completely removed all medicines from among secret arranges of odious names, and among State Offices of Accurate Cures.

There are now in a class all by themselves—being absolutely and conclusively.

By this bold step Dr. Pierce has shown that his formulas are of such excellence that he is not afraid to subject them to the fullest scrutiny. It was this great step in the development of medicine and the public's health which had been perceived through the use of these medicinals, and it is now the duty of every person who has any interest in his own or his fellow man's health to use these medicinals, and to use them in the manner prescribed by Dr. Pierce. For this purpose the public is invited to examine and use these medicinals, and to take any measures which they may to place them in a position where they may be said to be without equal.

The public is referred to his office at the corner of Main and Pearl Streets, Buffalo, N. Y., where he will be pleased to make a thorough examination of his medicinals, and to have them for sale to the public.
