NEW TRAIN AN EXPERIMENT

The Ocala Board of Trade hearing that the officials of the A. C. L. would inaugurate a passenger service between Ocala and Jacksonville, leaving here in the morning and returning at night, urged the A. C. L. officials to extend the service to Leesburg.

WANT THAT PASSENGER CAR

The people of Ocala want the A. C. L. Ry. to again operate a passenger coach on the morning freight from East Lake, for the accommodation of the people stopping along the shores of Lake Weir.

ALMOST INCREDULOUS

Catching "blind tigers" seems to be a favorite pastime with the diligent officials of the several dry counties of the state just now.—Palatka Times-Herald.

And this is printed in Bro. McKenzie's paper, published in a "dry" county.—Tallahassee Morning News. Why, Tom Appleyard, how could you be so cruelly thoughtless. What are officials for if not to enforce the law, and are not dry counties the favorite haunts of the "tiger blind," and whose agent is he. Nothing surprising to find such violations in dry counties when Ocala with seven saloons keeps its officials busy running down the same class of violators.

Mr. Chas. B. Hulett, representing the Produce News of New York, Chicago and Cincinnati, with headquarters in Jacksonville, is in the city and will spend a week with our farmers and truck growers to note the acreage, crops and outlook. The Produce News is one of the best exponents of trucking news and trucking prices of any paper in the land.

E. C. Boylston, Jr., the popular assistant passenger agent of the S. A. L. railway, was in town yesterday conferring with Ocala's acceptable local agent for the road, Mr. Henry Bayson, on matters pertaining to the comfort of its patrons.

B. A. Ingalls, of Birmingham, Ala., and of the Copeland-Ingalls Vitriol Brick Co., and who attended the good roads convention in Palatka, was in Ocala yesterday with his brother, Alex Ingalls, of Rockwell, coming up in the latter's Stanley steamer.

Ben Condon is the latest millionaire who has joined the Ocala Auto Club. The Star can't just understand how a bicycle man can turn down his own propelling power for a competitor. We may be enlightened later.

Grant McCall, the furniture salesman for a New York House, but whose home is in Washington, D. C., was among the trade yesterday. Grant is an old-time Ocala furniture man, in fact, a pioneer dealer in the city 25 years ago.

We are glad to hear that Mr. B. J. Potter, the cement sidewalk man, who has been quite sick, is convalescing.

Ex-Gov. Jennings' \$32,000 state plum tree shake was a pronounced success for Jennings and now a score of equally astute lawyers in the state are kicking themselves to think they did not get a shake at the plum tree.

Mrs. Clifford Herrick and two children, Mrs. William B. Holder and Mrs. Herman Miller, of Crystal River, were guests of the Ocala House yesterday and today.

Mr. George W. Hyde, of the Dixon Pencil Company of Crystal River, was in town yesterday and today. Mr. Hyde was getting some information from the Ocala Gun Club about their trap, etc., as the gentlemen of Crystal River have organized a club and are installing a trap.

Capt. Buckshot Williams, after an enforced lay-off of fifteen days, is again on deck with the punch between Homesassa and Ocala. He says its so hot berries are crawling into the shade.

Money Thrown Away on Ideas Which Have Been Dead for Centuries

We had a county fair! It was a grand success, but of what direct benefit to the people? Did it bring any new people to Marion county? Did the fair get us more hard roads? No, it did neither of these things, but it created a rivalry among the growers to the extent that next season they will all try and win the prizes. It means more and better products, and it tends to elevate the growing of still better products. It is no doubt that the intention of the promoters of the county fair was to bring the farmers together and have a good time. In this respect it was a grand success, but as far as bringing in other people to see what we grow and to locate in our midst it was a dismal failure.

The writer would like to know if one hundred families have come to Marion county in the past ten years. Every farmer is worth \$5000 a year to the county he is in. If we locate ten new families a year, it means just \$5000 more to the county. In ten years this would mean \$50,000 added to the county's value. There is no doubt that the county's valuation has increased this amount and even more in ten years, but is it based on new farmers, or is not this extra valuation put on us who are already here? This may seem like campaign thunder, but the writer's intention is to show the conditions.

It is the intention of the board of county commissioners and the board of trade of Ocala to get up some descriptive advertising matter and make an effort to get more people to come and settle in our midst, and no doubt their intentions are good, and the advertising will bring some people here, but will it bring enough people to offset the cost?

Kissimmee, a little town about the size of McIntosh, is spending \$2000 a year for advertising. This is being done by the board of trade and other bodies. Sandford is spending \$5000 a year; St. Petersburg spends \$5000 a year; Lakeland spends \$3000 a year. None of the cities I mention are as large as Ocala; however, all have made more progress in the last ten years in getting farmers into their respective counties than has Marion.

What is the reason for this? We know we have better lands than any of the counties mentioned. We also know what we could do if we would; so why don't we do something? The board of trade and the county commissioners will spend about \$300, which I assure you will not go very far towards bringing in new settlers. The writer has spent nearly \$800 in the past four months in advertising, and has written personally over 1400 letters, but regrets to say that from all this he has only been able to locate six new families in our grand old county. However, he has a suggestion to offer, which is as follows:

Have a mass meeting. Get all the people to come and talk the matter over. This is his suggestion. Subscribe about \$1000. Get up some good circulars telling all about our resources. After that get a man who can talk and who knows what he is talking about; send him out west. Have him make lectures at different parts of the country, with a stereopticon machine, showing the condition of lands in the several different stages. This will give all the people an opportunity to see how we do things here. By this method one man can see and talk to over 20,000 people in ten weeks, and practically have a talk with each one individually.

This method, if successfully worked, and the writer knows how to do it, will bring more people to Marion county in one year than have been brought here in the past ten years.

The writer further offers to go and visit all these places and give lectures, if the money to defray his expenses is advanced, and will do it for no other consideration than the land that he personally could sell on such a trip. If the money is gotten up and this trip is made, parties who have unimproved lands and want to sell same will have an opportunity to list same with the writer, who will make every effort to dispose of the same, and will affiliate with all other real estate agents here who will work with him to make this venture a grand success.

The time for action is now. The summer months is the time to advertise, when things are quiet and people have time to talk with you. The early bird catches the worm, and money spent in advertising as per above suggestions will prove that it is more than correct.

The writer intends to go west and try to sell Marion county land about the first of June, and will be glad to consider this proposition if it meets with the approval of others.

IN THE TWELFTH CENTURY

In Venice the "Bancho" was organized, the word meaning bench, to give the people a central point where notes might be made, money borrowed and deposited for safekeeping or for transfer to distant points.

The present day bank came into existence in 1694, when the present Bank of England was established in London.

Primitive banking was simple, the advantages given the people were few. Banking today is also simple but the people receive many benefits not dreamed of in its early history.

Banks are organized by several men putting their money together in the shape of bank stock and opening a place for business. These men not only put their money into business, they also include their standing. Thus the bank is stronger than any one of them; as strong as all of them together.

Every bank is a benefit to the community. It facilitates business, gives the people a place to keep their active and surplus funds, and each dollar in the community does more work because the bank exists.

This bank is a material advantage to the public—to each man and woman in particular. We seek the opportunity to demonstrate the benefit of our service to you.

AGAINST IMMIGRATION

The Spirit of Economy Pervades the Legislature to a Somewhat Uncomfortable Extent

Tallahassee, April 30.—The house yesterday demonstrated its belief in the penny-wise-pound-foolish policy by killing the most important measure that has yet come before it, or one of them, on the ground that it appropriated some money. The bill was one that provided for the encouragement of immigration and for an immigration agent who should compile data regarding all the natural resources of the state, agricultural, mineral, etc., and see that the rest of the world got the information, and that desirable immigrants especially should be placed in possession of it. The amount appropriated was only \$5,000 a year, to pay both salary and expenses of the office. The bill, introduced by Mr. Dupont, of St. Johns, a farmer of more than average intelligence, was indefinitely postponed.

Another matter of importance to the state, indefinitely postponed also, and for the same reason, was the bill of Mr. Carn, of Marion, providing that the fare be paid for teachers attending the summer training schools.

LIBRARY SLIPS

Most of the ladies of the city have seen the library slips in the different grocery products during the last few months. These slips represent a cash value. If you save enough of them and as they cost you nothing you will have in the course of a year enough of them to pay for every magazine and newspaper you want in the home without a cent of cost. Ask for them and see that they are in the products you buy. In a few days every issue of the Evening Star and Weekly Star will contain one of the slips. Save them when they begin to appear for they are worth money.

TEXAS COLLECTED THE TOLL

Lone Star State Has Put a Crimp in an Arm of the Octopus

It is probable that a solemn rite performed the other day at Austin, Tex., escaped the eyes of most Americans. There are some ceremonies which all should see or note, and this was one of them.

An automobile containing several armed men and a bulging coffee sack drove up in front of the office of the state treasurer. The bag was carried into the building and opened. Its contents were counted, a receipt was written and delivered and certain entries were made upon the cashier's books. The fine of \$1,808,000 recently inflicted upon the Waters-Pierce Oil Company by the state courts and fully sustained by the supreme court of the United States court had been paid.—New York World.

Women Are Creatures of Habit

Many a woman is today using lard because she has done so year after year and her mother used it before her. If she only knew that in Cottolene she would find a shortening pure and without the taint of hog fat, a shortening more digestible and healthful than lard, a product more economical and satisfactory than lard in every way, wouldn't she be a bit stubborn if she didn't try?

When American spelling is revised, L-A-R-D will be spelled I-N-D-I-G-E-S-T-I-O-N, not for a saving of time, but, rather of stomachs.

Cottolene is not a substitute for lard, but a pure vegetable product that is far superior to it.

COTTOLENE is Guaranteed Your grocer is hereby authorized to refund your money in case you are not pleased, after having given Cottolene a fair test.

Never Sold in Bulk Cottolene is packed in pails with an airtight top to keep it clean, fresh and wholesome, and prevent it from catching dust and absorbing disagreeable odors, such as fish, oil, etc.
