HOW TO PLANT PECANS

Instructions From an Authoritative Source—The Planting Properly of Utmost Importance—Start Right or End Wrong.

The following planting instructions issued by one of the largest pecan nurseries in the country are so valuable that we reproduce them in full. They are from the G. M. Bacon Pecan Co., of DeWitt, Mitchell county, Ga., and should be studied and preserved by every grower and prospective grower of pecans in Florida.

In preparing a tree for planting, all broken or bruised roots should be cut off immediately behind the injuries. This is usually done by us before packing for shipment, but possibly may be neglected or the ends of roots become rubbed or jagged in transit.

When setting out the trees, carefully fill in among the roots with pulverized top soil or woods earth. Well rotted manure or not exceeding one and one-half pounds of commercial fertilizer, may be put in outer sides of hole, as far as practicable beyond outer ends of lateral roots.

They have a strip of 260 acres of prairie land that will be used exclusively for stock pasturage, and besides the large number of cattle already placed there, Mr. Hilleary will place about fifty head more on the premises during the coming week.

SKILLED PAINTING I am prepared to take any job of painting, no matter how large or how small, or how fine the work desired may be.

ONLY 10c YARD FOR 40-INCH WIDE WHITE LAWN, SHEER QUALITY. IS WORTH 15c A YARD. ON SALE TOMORROW AT FRANK'S

COWPEAS AND HAY Cowpeas and soy beans are plentiful and cheap this year.

Our land needs them, our live stock needs them, and we are going to need more than ever of them to plant next year. Especially in the sections where early crops have been drowned out should large areas be planted.

North Carolina spends from \$10,000,000 to \$11,000,000 annually for commercial fertilizers; South Carolina, we believe, an even larger amount; Georgia at least \$13,000,000 and Alabama \$16,000,000.

If people with symptoms of kidney or bladder trouble could realize their danger they would without loss of time commence taking Foley's Kidney Pills.

LARGE STOCK FARM LATEST ENTERPRISE FOR MICHIGAN One of the largest combination stock and truck farms in Florida is now being established near Micanopy on what is known as the Powell estate.

J. H. Snyder & Co., of New York, are interested in the project, and they have invested a large amount of money already in the enterprise, draining one lake of about sixty acres.

THE NUT GROWER The land owner simply takes some of his capital from one pocket and puts it into another, where it increases more rapidly in value.

FIRE WOOD—FIRE WOOD We have a large supply of fire wood, both pine and oak, fireplace and stove lengths. Good seasoned wood.

CHICHESTER'S PILLS THE DIAMOND BRAND. Laxative, Purgative, Blood Purifier, and Blood Tonic.

CUT-OVER PINE LANDS

In a recent issue reference was made to the utilization of Southern pine lands for pecan orchards as a factor in the forestry problems now under discussion.

Our purpose is to show how these lands can be brought into demand at remunerative figures, thus adding to the wealth of the owners, and at the same time subserve the public good in various ways.

The land is the first—and in this plan the essential feature. The mill men who own these large tracts of idle, cut-over lands are the agencies which can make this proposal operative, and do it easily, from a pecuniary standpoint, as it does not call upon them for additional investment.

The essential requirements on the part of these land owners is confidence in the integrity and ability of those nut growers who may undertake the development of such orchard propositions.

To illustrate, say the owner of ten or twenty thousand acres of these cut-over lands agrees to put a tenth of his holdings, one or two thousand acres, into an orchard proposition.

The land owner simply takes some of his capital from one pocket and puts it into another, where it increases more rapidly in value.

Knowledge is Power There is one kind of knowledge that is power and prestige in the hands of a woman. It is the knowledge of her own nature, her own physical make-up and the home-treatment of diseases peculiar to her sex.

It imparts health, vigor, virility, strength and elasticity to the organs that bear the burdens of maternity. It fits for wifehood and motherhood. Taken during the period of gestation, it makes the coming of baby easy and almost painless.

Surprising, What Kodol Will Do

For you, when you need it. But the longer you neglect indigestion, the more you will suffer before Kodol can restore Good Digestion.

And, of course, indigestion if neglected long enough, brings on serious diseases in which Kodol cannot benefit you. Some of these there is no help for at all.

Use Kodol and prevent Nervous Dyspepsia. Kodol will effectually assist Nature to secure a complete restoration of good digestion. It does this by at once digesting all food in the stomach and keeping it digested, until the stomach is rested and can resume its own work.
