**GANDERBONE'S FORECAST
FOR SEPTEMBER**

(Copyrighted 1909 by C. H. Rieth)

Whenever that
Great prodical
Prosperity
Concludes that home
Has some attractions
Over husks
And choosing
Evermore to roam
And turns his face
Toward the place
Where he first saw
The light of day,
And where the lamp
Has faithfully
Been burning since

Whenever, as we
Said before,
His trousers are
The worse for dogs,
And he would eat
His breakfast food
With better company
Than hogs,
And finally
Makes up his mind
That having had
His little fling,
He wants to see
The old homestead,
And mother,
And that sort of thing—

Whenever he feels
Equal to
The humble pie
And kindly chaff,
By thunder,
We will wager him
He never saw
A fatter calf
Or one to
Better purpose fed
Than we've got
Out behind the shed.

The old Romans tried to make September the seventh month, as its name indicates, but this brought Labor Day around at a season when capital was at the seashore and could not be impressed by the parade, and it was subsequently made the ninth month. Domitian the tyrant was among those who complained of the misnomer, and he gave it his own royal name of Germanicus; but as soon as he was in Africa the reigning emperor, Bisbillius, reversed the policy and restored to the month the only name in the calendar remaining to us as it was in the beginning.

The curtain will rise cautiously, discovering a school house in the foreground and a small boy in open-seat pants concealed in the tall grass at the left. Mr. Taft will be pounding his ear under a bush on the right, and Mr. Finchot and Mr. Ballinger will alternately chase each other across the stage at the rear. In the remote background a group of football players will be putting in fall hair, and farmers will be passing to town with their crops along the extreme right side of the stage and returning in automobiles on the left. After the preliminary pantomime, in which the teacher will dash out of the school house and catch the boy, Mr. Taft lay his other ear on the anvil, and several aeroplanes pass over, the consumer will come out and sing "Listen to a Pencil on My Ribs."

And the the big show will begin, and summertime will scoot, the quail will do a trial trill upon his magic lute, the calf will hoist his tail aloft and jump from hill to hill, the dread mosquito will confess and fall upon his bill, the birds will call the moving van, to warmer climates bound, and the first acorn will fall and raise a welt upon the ground.

It is a very pleasant thing
To think upon the Fall
And what a comfort probably
It will be to us all,
To think upon the cider press,
The pumpkins turning gold,
The squirrel picking hazel nuts,
The chigger catching cold,
A new supply of oxygen
Replenishing the air,
And Nature touching up the scene
With color here and there.

A man who cannot fall upon his lyre and give it steam enough to make a symphony with Autumn for his theme, and cannot take his hands away and play it with his nose, or even stand upon his head and pick it with his toes until the din of falling nuts is pattering around, and the hunter's moon is in the sky, and all the hills are browned, and yonder in the filmy depth his frenzied eye can trace a gang of migrants tooling by against the arch of space—a man whose soul cannot respond to that insistent call is going where they do not have an autumn-time at all.

However, and be as it may, the bull-frog's sad adieu will rumble briefly ere he tilts and burrows in the ooze, the railroads will return the folks they found too spry to smash, the poor cockroach will lay his head beneath the window sash, the dyes will put the blower on and march against the dragon, and a few more sections of the map will board the water wagon.

The supreme test for railroad bridges will begin on the 15th, when President Taft will set out upon his 13,000-mile trip to Mexico, the Pacific Slope, and intermediate points. This date in history will also be the 52d anniversary of the president's birth, but he will not open anything very loud, and there will be no bear hunters present. In the course of his travels Mr. Taft will test the stability and tensile strength of 67,432 bridges and 512,002 trestles, and the roundness of more than 10,000 roundhouses.

Mars will be the other exhibit of the month. This planet, which is supposed to be inhabited by people like Mr. Rockefeller and others who have something on the rest of us, is now only 34,000,000 miles distant, and may

be easily distinguished by its angry redness and its habit of winking and blinking like a Pittsburgh first-nigher. There have been several suggestions for attracting the attention of Mars while passing, the best of which is that everybody upon our own earth say "Booh!" at the same time; but Mr. Harriman says that if anybody in this country says booh! again just at this time prosperity never will come back; so we, at least, are not participating, no matter if the rest of the world does do it.

The September moon, which is said to be the only one under which anyone ever committed bigamy, will be full on the 29th, and the signs of the Zodiac for the month will be Virgo until the 22d, and thereafter Libra. People born under the influence of Virgo are persistent and can get a lower birth after the man says there are none left, but Libra people are well balanced, and can sleep in an upper.

On the 22d the sun will cross the equator for a touchdown, and the increased tariff on clothing will kick the autumn equinox. This will give the ball to the wolf on our frontyard line.

And then October will return
With gossamer sky,
And in the soft autumnal hush
The pumpkin vine will pie.

Sheriff Coleman of Sumter county, was roughly treated by a prisoner last week whom he brought from Tampa and was wanted for issuing forged checks at Wildwood. The sheriff treated him as a trusty, simply confining him in a room. The day he took the man to Wildwood, the prisoner took advantage of the sheriff, knocked him down, choked him, took his pistol from him and left for parts unknown. The escaped prisoner went under the name of Bailey and several aliases. He is wanted at several places for forging checks. Sheriff Coleman offers \$25 reward for his apprehension, and Wildwood adds \$10 to this.

Teething children have more or less diarrhoea, which can be controlled by giving Chamberlain's Colic, Cholera and Diarrhoea Remedy. All that is necessary is to give the prescribed dose after each operation of the bowels more than natural and then castor oil to cleanse the system. It is safe and sure.

D. S. Williams, the energetic secretary of the Marion County Fair, is in the city today distributing the premium list of this fair, which takes place in Ocala November 24th, 25th and 26th. Last year this fair was a great success. It paid all its bills and had money left over. People who went to it were surprised at what they saw. Mr. Williams expects the fair this year to be over twice the size it was last year.—Metropolis, 31st.

The last number of the Florida Health Notes, the official bulletin of the State Board of Health, is a special glanders number and contains a very interesting and instructive history of this disease among horses. The number should be of special interest to the people of Ocala who own horses because of the prevalence of the disease in our midst several months ago.

That our American forests abound in plants which possess the most valuable medicinal virtues is abundantly attested by scores of the most eminent medical writers and teachers. Even the untutored Indians had discovered the usefulness of many native plants before the advent of the white race. This information, imparted freely to the whites, led the latter to continue investigations until to-day we have a rich assortment of most valuable American medicinal roots.

Dr. Pierce believes that our American forests abound in most valuable medicinal roots for the cure of most obstinate and fatal diseases. If we would properly investigate them, and in confirmation of this conviction, he points with pride to the almost marvelous cures effected by his "Golden Medical Discovery," which has proven itself to be the most efficient stomach tonic, liver invigorator, heart tonic, and regulator, and blood cleanser known to medical science. Dyspepsia, or indigestion, torpid liver, functional and even valvular and other affections of the heart yield to its curative action. The reason why it cures these and many other affections, is clearly shown in a little book of extracts from the standard medical works which is mailed free to any address by Dr. R. V. Pierce, of Buffalo, N. Y., to all sending request for the same.

Not less marvelous, in the unparalleled cures it is constantly making of woman's many peculiar affections, weaknesses and distressing derangements is Dr. Pierce's Favorite Prescription, as is amply attested by the thousands of published testimonials contributed by grateful patients who have been cured by it of catarrhal pelvic troubles, painful periods, irregularities, prolapsus and other displacements caused by weakness, ulceration of uterus and kindred affections, often after many other advertised medicines, and physicians had failed.

Both the above mentioned medicines are wholly made up from the glyceric extracts of medicinal roots. The processes employed in their manufacture were original with Dr. Pierce, and they are carried on by skilled chemists and pharmacists with the aid of apparatus and appliances specially designed and built for this purpose. Both medicines are entirely free from alcohol and all other harmful, habit-forming drugs. A full list of their ingredients is printed on each bottle wrapper.

**OCALA TAKES SECOND GAME
FROM THE CELERY CITY**

Quite a good crowd turned out yesterday to witness the second game with Sanford. Walker was in the box for Ocala and Keith for the visitors. Up to the third inning the game was promising neither side scoring and both teams playing great ball. In the third inning after two were out, the locals made two runs, the two Donaldsons crossing the plate on three hits. Four more runs were scored in the fifth and one in the eighth. Sanford squeezed in one run in the seventh inning when Vibbert singled to left and stole second, taking third on White's out and crossing the plate after being caught off third, executing a very pretty piece of base running.

Walker pitched a great game for five innings, after which Dodge was put in the box. Walker allowed only one hit and fielded his position beautifully, assisting in three putouts and, when a scatch hit was fumbled by Collins on first, Walker beat the runner to first, pitched up the ball and nabbed him. He is undoubtedly the best pitcher that has ever played with the local team.

Jones, playing first for the visitors, made a neat catch when he ran out and gathered in a foul among the automobiles and Carter in center duplicated the feat when he reached up and gathered in with one hand Walker's line drive that would have been good for two sacks. The local team played errorless ball and their error column was full of ciphers.

Today's game will close the Sanford series and the home team is going to make it three straights if possible. Tomorrow afternoon Gainesville will be here 600 strong with the best team that they can get together and you will miss the best game of the year if you don't go.

At the former place he went to Colchester Beach, the great summer resort for the people of that city and he can't get through talking about the magnificent government buildings at Washington. What especially pleased Mr. Maxwell was the government printing establishment with its 1,400 employees. He enjoyed his visit very much.

The hum of machinery attracted our ear this morning which we found running at George Giles & Company's factory and inquiry disclosed the fact that the firm had purchased five bales of new cotton, which was being ginned.
