ICE! ICE!

Buy Ice From Red Wagons

They say, but if you will examine carefully the ice which melts so rapidly you will note that there seems to be holes in it, that the center is what is called "snow ice," which, being porous, allows it to melt quickly.

"Crystal Ice"

The kind we turn out is as clear and perfect as it is possible to make ice, and is the most economical ice to use. Ask the man on the Red Wagon to stop and see you.

TENNESSEANS TANTALIZED

May Sell to People of Other States the Booze They May Not Buy Themselves

Atlanta, Oct. 2.—With the flood gates of the recent prohibition law in Tennessee lifted by the ruling of Chancellor T. M. McConnell, another deluge of alcoholic beverages is now pouring down upon the kindred towns and cities of Georgia, straight from the distilleries and warehouses of her sister state, that, with a law that forbids home sale or consumption, yet permits the sousing fluid to be shipped into other states.

The judge came about in this wise: When the Holladay bill, known as the statewide prohibition law, went into effect July 1, it looked to be as tight a law as ever put the lid on the sale of liquor in any state in the Union.

It would seem, however, its looks belied its tenor, according to the interpretation placed thereon by Chancellor McConnell. The chancellor was sought in chancery by a stockholder of the J. W. Kelly company, a wholesale liquor firm of Chattanooga, who petitioned the court either to construe the Holladay bill as a "tippler" law or to declare it unconstitutional, as being confiscatory because of rendering worthless large stocks of liquors left on the hands of dealers.

Based upon this contention, the chancellor was petitioned to enjoin all state, county and city officials from interference with the petitioners in the sale of their goods at wholesale and (specifically) to enjoin J. W. Kelly & Co. from discontinuing their interstate shipping business.

That is to say, Chancellor McConnell was asked to take steps compelling the liquor company to continue shipping its wares into other states, under the existing state prohibition law of Tennessee. And this Chancellor McConnell did.

In rendering his decree subsequent to the trial of the case on September 3, Chancellor McConnell said, in part: "It seems absurd to say that this state is helpless to prevent people in other states from shipping their liquors into our state to be used and abused by our people, and at the same time to say that the people in this state cannot ship their liquors, 'legally manufactured' into other states, if the one is interstate commerce, certainly the other is."

"The state of Tennessee can have no right to prohibit the interstate trade of the complainants, and the attorney-general is without legal authority to prosecute such sales, because no law is violated thereby."

With the rendering of this decree, stock in "spirits" went up.

Distilleries that had lain cold and dead for three months kindled their fires to continue the conversion of grain loads of grain, diverted from bread, into the sparkling, seductive trickle of the alluring still-stream.

Dormant warehouses, wherein were piled up and stored in barrels of the ardent fluid, opened their doors to release a fiery stream across the boundaries of the state, into the surrounding country. A flood of exulting advertising burdened the outgoing mails from Chattanooga and other Tennessee cities, diverting into arteries of information that reached every city, every town, every nook and hamlet in the South.

SWEPT OVER NIAGARA

This terrible calamity often happens because a careless boatman ignores the river's warnings—growing ripples and faster currents. Nature's warnings are kind. The dull pain or ache in the back warns you the kidneys need attention if you would escape fatal maladies—dropsy, diabetes or Bright's disease. Take Electric Bitters at once and see backache fly and all your best feelings return. "After long suffering from weak kidneys and lame back, one \$1 bottle wholly cured me," writes J. R. Blankenship, of Belk, Tenn. Only 50c a bottle at all druggists.

GOVERNMENT AID FOR STORM SUFFERERS

Washington, Oct. 3.—The secretary of war will send 100 tons, 800 double blankets and 800 mattresses to the cyclone sufferers in Terrebonne parish, Louisiana. This action was taken upon the receipt of a telegram from Representative Broussard, who states that he has just returned from a trip through the stricken district. He says 378 homes were totally destroyed and 2,132 people left in a destitute condition.

BOTH BOYS SAVED

Louis Boon, a leading merchant of Norway, Mich., writes: "Three bottles of Foley's Honey and Tar absolutely cured my boy of a severe cough, and a neighbor's boy who was so ill with a cold that the doctors gave him up, was cured by taking Foley's Honey and Tar." Nothing else is so safe and certain in results. Sold by all druggists.

MINNESOTA'S TARS WON BATTENBERG CUP

New York, Oct. 3.—The battleship Minnesota's twelve-oared cutter crew snatched the Battenberg racing cup from the battleship Louisiana yesterday in an exciting race over a three-mile Hudson river course in sight of the international battleship fleet. The British entry, a cutter from the battleship Drake, finished a bad third.

WORDS TO FREEZE THE SOUL

"Your son has consumption. His case is hopeless." These appalling words were spoken to Geo. E. Elyens, a leading merchant of Springfield, N. C., by two expert doctors—one a lung specialist. Then was shown the wonderful power of Dr. King's New Discovery. "After three weeks use," writes Mr. Elyens, "he was as well as ever. I would not take all the money in the world for what it did for my boy." Infallible for coughs and colds, it is the safest, surest cure of desperate lung diseases on earth. 50c and \$1 at all druggists. Guarantee satisfaction. Trial bottle free.

DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When the tube is inflamed you have a rumbling sound of imperfect hearing, and when it becomes fixed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. Cheney & Co., Toledo, Ohio. Sold by druggists, 75. Take Hall's Family Pills for constipation.

HARRIS FOUND GUILTY

Warrenton, Va., Oct. 3.—Prof. J. D. Harris was yesterday found guilty of voluntary manslaughter of Editor W. A. Thompson and the court sentenced him to spend four years in prison. Harris, who was formerly a principal in the school here, ran at the last election for the office of supervisor of schools. He was not friendly to the editor, and Thompson used the influence of the paper to defeat Harris. They quarreled, and it is alleged that Thompson threatened Harris. This was Harris' defense, saying that he was afraid Thompson would kill him when they met at the depot one night soon after the election, and when Harris shot Thompson.

MORE TROOPS FOR MOROCCO

Spain Will Hold Territory Until \$20,000,000 Indemnity is Paid
Madrid, Oct. 4.—Aggressive operations against the Moors are to be continued, it is understood here, this decision being reached by the government after consultation with Gen. Marina, the commander of the Spanish forces in Morocco.

Reinforcements to the number of 15,000 men will be sent to Africa. Mount Guruga will be permanently occupied and in addition the Spaniards will hold a big piece of territory, with Tetuan as a base until the payment by Morocco of an indemnity of \$20,000,000.

N. H. Brown, an attorney, of Pittsfield, Va., writes: "We have used Dr. King's New Life Pills for years and find them such a good family medicine we wouldn't be without them." For chills, constipation, biliousness or sick headache they work wonders, 25c at all druggists.

INAUSPICIOUS OPENING

First Saloon Day in Bristol Marked With Blood
Bristol, Va., Oct. 3.—After a drought of more than eighteen months, Bristol is once more "wet," twelve saloons having opened yesterday morning. Others will open Monday and it is said the number may increase to twenty-five. The license is \$3,000 annually.

The return of the saloon was not without its tragic significance. Charles Kenny, a merchant of this county, fell under his wagon while returning home from this city in an alleged intoxicated condition and was almost instantly killed. He was well known and was a prominent business man. Until today, it is said, he had not taken a drink in three years.

ST. LOUIS CENTENNIAL

St. Louis, Oct. 3.—A week's celebration of the centennial anniversary of the incorporation of St. Louis began today at sunrise when the bells of 44 churches within the city limits were rung in announcement of the inauguration of the program. Aero-plane flights, distances races between spherical balloons, speed contests by dirigible air craft, a water pageant with four vessels of the United States navy participating, parades, festival banquets, the annual appearance of the mysterious Veiled Prophet and several public appearances of Dr. Frederick A. Cook, Arctic explorer, will fill out the week. Preparations for the big events have been going on for months. An elaborate system of street lighting has been installed, a great court of honor erected and practically the entire city has been decorated with flags and bunting.

WRIGHT BROKE ALL RECORDS

Went Up Sixteen Hundred Feet at Berlin—Crown Prince of Germany Took a Flight

Potsdam, Oct. 3.—Orville Wright, the American aviator, yesterday broke his own and all other records for high flying. He reached the unprecedented height of more than 1,600 feet, although an official measurement was not taken.

He had a red letter day in a double sense in his experience as an aviator, taking up Crown Prince Frederick William as a passenger just before his high flight and more than doubling the altitude records which he made recently over the same field.

HYSTERICAL FRENCH HUSBAND

Killed His Wife to Put her Out of Pain, and Was Acquitted by an Emotional Jury

Paris, Oct. 2.—A jury, perhaps rather emotional, yesterday in the court of assizes, acquitted Edmond Baudin, who, at her prayer, shot and killed his wife on Jan. 31, last.

Mme. Baudin had been afflicted with asthma for years. It gripped her throat, it was a weight on her lungs, it stopped her breath. She begged her husband to aid her by killing her quickly of the affection that was slowly throttling her.

Baudin, a mechanic, thirty-nine years old, a rough and plain spoken man, sought to justify his act with words as straightforward as they were dramatic. Tears streamed from his eyes while he testified. The jurors also wept, and the women in the courtroom were semi-hysterical.

The presiding judge, who disapproved of the jury's verdict, remarked: "For the moment the bandage on the eyes of justice was a handkerchief."

"My wife, whom I loved dearly, had suffered fearfully from asthma," Baudin testified. "She could not sleep, if she laid her head on the pillow she would cry, 'I am choking! In the name of the good God, end my misery! Let me die!'"

"On the night she—she died she was suffering intensely," Baudin went on between sobs. "The medicine she was taking was nearly exhausted."

"I will go and get you some more medicine," I said.

"No," she said, "my no more medicine. You know we are poor. I am gone. Medicine will do me no good. I suffer! Oh! how I suffer!"

"Buy no more medicine. I have cost you too much money already."

"If you love me, put me out of my misery. Prove your love and let me leave you. Kill me! If you were a determined man you would not see me suffer as I do."

"I was maddened by the sight of her agony," Baudin ended. "I seized a revolver with which I intended to defend our home. I shot her in the head; she died instantly."

"I determined then to kill myself, but I thought of my sister, the only other being who depends on me. I went to see my sister. She wept, but told me I should surrender myself to the police, which I did at once."

When Baudin finished his testimony, given with unaffected emotion, every person in the house was in tears.

Following him, Dr. Dupre, a distinguished alienist, testified that Baudin is perfectly sane. But, said Dupre, he was incited to his fatal act by the stronger will of his wife. Pity for her, directed by her will, led him to shoot her.

UNWRITTEN LAW WON AGAIN

New Orleans, Oct. 3.—Lee Oliver, 15 years old, charged with the murder of Dr. Allen S. King, at Morgan City, La., last May, was acquitted by a jury last night at the Saint Mary parish court house, Franklin, La. It was alleged that the boy called on Dr. King and demanded that he marry his sister and that when King refused he shot him to death.

During the trial Miss Oliver took the stand and testified that she told her brother of treatment at the hands of Dr. King, which demanded an explanation.

CARD OF THANKS

We take this method of thanking the public through the columns of your paper for the liberal patronage that has been extended us through the past season in our business, as we have not been able to deliver cars, as the entire country as a whole bought more cars than the Buick factory could produce. We are just in receipt of letters giving us a slight inkling of our 1910 product, assuring us of the fact that there will be no question in the future that we will be cared for. Our 1910 models will be ready for delivery the first of November, and we have the assurance that if we should need 100 cars we can deliver the same. Our models 10 and 17 will be continued, but the horsepower will be increased 20 per cent. We will also have a model known as No. 18, practically the same as our No. 17, only slightly smaller car, and will sell for about \$1400 complete, and we think this model will hold the rest of them for quite a while. We will also have a \$600, a runabout, 2-cylinder, opposed motor in front, under the board, our clutch in fly wheel, selective type transmission and double chain drive, 30x3 1-2 tires; and we want to say to the public that so far as pulling through sand is concerned, this car has no equal.
