We had a pleasant call Monday from our old time veteran friend, Mr. Tom Davis, who, from an experience he had Saturday at Summerfield in jumping from a moving train and landing on his hands and knees in a bed of sand spurs, said it reminded him of a sand spur that got into the joint of his thumb forty years ago, causing it to swell up and fester until he lost sleep for a week.

While the Banner wishes not to make any distinction on the heels of a municipal election, we cannot help but reading between the lines, as some of the councilmen might want to stand for re-election. For fear that it would reflect on them, I wish to state that every councilman was heartily in favor of remodeling the city market and not a single time did it seem hopeless. The delay was in getting plans and estimates on the work.

Reading further between the lines it would seem that some one would perhaps, get too much credit for what had been done, especially as his name had been mentioned as a probable candidate for mayor of the city in the coming election. If reading between the lines should be correct, the writer wishes to put the Banner at ease in that direction by saying that he is not a candidate for either mayor or alderman in our next election.

Mr. Stokes deserves great credit for what he has done. He is a valuable member of the council and an able and energetic officer. It is a pleasure to perfect ones. DR. D. M. PEARY'S STATEMENT ACCEPTED And the Explorer was Proclaimed the Discoverer of the North Pole by National Geographic Society Washington, Nov. 2.—Commander Robert E. Peary was practically endorsed as the discoverer of the north pole by the National Geographic Society yesterday. Every indication points to the fact that Peary's personal statement before the sub-committee of the society convinced its members that he had set foot on the top of the world. The explorer has been invited to deliver the first of his public lectures before the society here on November 12th and it was pointed out last night that had proofs been open to the slightest question he would have not been asked to appear. It was announced that a public statement of the findings of the society would probably be forthcoming on Wednesday. This rapidly in determining the genuineness of Peary's claim that he reached the pole on April 6th, last, is taken to mean that there is no difference of opinion among three experts who are delving into his Arctic data and that they are convinced of his honesty.

MARKET STALLS RENTED

An article in the morning Banner headed, "The Market Stalls Rented," in part read as follows: "While we do not wish to make any invidious distinction just on the heels of a municipal election, still we think that it is but simple justice to say that most of the credit for the rejuvenation of the city market belongs to Alderman Stokes of the first ward. He worked for it with great persistence and finally won out, when it was thought at one time to have been lost."

BROAD LIBERAL TOLERANCE

New Orleans, Nov. 2.—The "Crescent City" gave President Taft a very lively Sunday. He saw the French quarter, inspected the naval station, and attended a Sunday concert on the campus of Tulane University. At the concert the president, although fatigued, was compelled to make an address, and among other things he said: "You have freedom of religion in Louisiana, as we do in other states, but there is something about your broad, liberal tolerance that we might well imitate in other states. When we find his grace, the archbishop of the Roman Catholic church, and the rabbi of the Jewish church, and the ministers of the Protestant churches all joining in this unique celebration, we understand the meaning of tolerance and broad freedom of Louisiana."

Hillsborough County Leads in Putting Up Guide Posts for the Florida Automobile Route

Tampa, Nov. 1.—The board of trade is sending out the following communication to the county commissioners, newspapers and publicity clubs along both routes of the Tampa-to-Tampa via Jacksonville highway: Gentlemen: By resolution of the Tampa Automobile Club I am asking the cooperation of the counties along the routes between Tampa and Jacksonville, as established by said club, for the uniform posting of routes. The idea is to have painted, white (or black) lettering on red backgrounds, 500 mile boards as follows: 25—TAMPA-JACKSONVILLE—25 (Arrows pointing direction.)

The county commissioners or publicity clubs in each county to furnish and distribute along the route the wooden standards, about 4x4 inches ten feet long. We then propose to send men from Tampa over both routes and plant the standards and post the signs each mile, and other route signs at crossroads and forks. Going to Jacksonville the mile boards will be consecutively numbered before posted. Arriving at Jacksonville the workmen will return and stencil or paint the mile posts in reverse order. The same standards can also be used in posting mileage to and from your city. Question of protection of this work from vandals and private advertisers will be taken up later. The total cost of work will be proportioned to each county in mile post. Will your commissioners guarantee your share of expense? Kindly advise me action of your people before November 9, 1909. Expense estimated about \$1 per mile. Respectfully, W. B. Powell, Secretary.

THE MARION COUNTY FAIR A Prophecy of Success from the Gainesville Sun The Marion County Fair, which will be held in Ocala from November 24 to 28, will eclipse all former efforts of the managers, and will reflect great credit upon the entire state, much less the county of Marion.

Through the generosity of a large per cent of the leading business men of Ocala, besides a great number of the well-to-do farmers of the county, they have formed themselves into an association and now own and control one of the largest plots of land ever selected for a fair site in the state, and while this is only their second year, they will make a great showing in the agricultural, horticultural and live stock interests of the county. Many attractive features, which all go to make up the fair, have been secured, and the long list of attractions for the general amusement of the public will be among the largest ever seen in the state.

All eyes will be turned toward Ocala for three days, for they will have the pleasure of witnessing something that will prove highly instructive, to them as well as entertaining.—Gainesville Sun.

NEW LOT OF HORSES AND MULES I wish to announce that I will have a carload of horses and mules, splendid Kentucky stock, in town the last of the week. The horses and mules will be at the old John Martin property on Exposition street. Wait for the stock and look them over before buying, as I can please you and save you money. The animals were selected by me in person and are guaranteed first-class. Respectfully, Hugh J. Nichols.

SUMTER COUNTY COURT John Beville Indicted and Will be Tried This Week (Sumter County Times.) About noon the grand jury handed in two indictments for murder in the first degree against John Beville for killing Mr. and Mrs. Harder. The case was set for trial Thursday morning and a special venire of 125 names were issued to try the case. Hons. J. C. B. Koonce, J. H. Jones, Thomas Palmer and Capt. J. B. Johnston are attorneys for Beville.

The case of H. J. Thomas for shooting Dr. J. L. Skipworth, was reversed to the magistrate court. He was placed under a \$500 bond which he gave. Col. Thomas Palmer of Tampa, was Thomas' lawyer. The case of Josephus Anderson vs. J. W. Caruthers and J. S. Collins was called for trial Tuesday afternoon. This is a case wherein Anderson was taken up in the town of Webster for doing business without license and placed in the town lock-up. Anderson sued for \$5,000 damages. J. H. Jones represented the complainant and Cols. Glenn Terrell and G. W. Dayton the defendants. The case consumed over a day. Late Wednesday evening a verdict of not guilty was rendered. On account of the defendant being sick, the Beville-Harder murder case was again continued until next Wednesday morning, all witnesses and the special venire being discharged until that time.

A BAD BREAK Typographical errors are one of the chief bane of a newspaper man's existence. In the rush of newspaper making, "proofs" are read hurriedly, or sometimes not at all, and occasionally the result in the printed product is astonishing. For instance, the story is told of an editor who recently wrote a "put" for the belle of the ball, saying: "Her dainty feet were incased in shoes that might have been taken for fairy boots," but the blundering compositor made it read: "Her dirty feet were incased in shoes that might have been taken for ferry-boats."—Ex.
