

EVENING STAR

C. L. Bittinger and R. R. Carroll, Editors and Publishers. C. L. BITTINGER, Editor R. R. CARROLL, Business Manager

Dr. E. H. Blitch is in receipt of a letter from Dr. Jas. P. Byers, general secretary of the National Prison Congress, in which he says he will be in Ocala tomorrow in company with George Shous of Louisville, Ky., and together with others will proceed to the big scrub through which Juniper creek flows, for a big hunt. These lands formerly belonged to H. L. Livingston, who sold them to a number of Louisville parties for a fish and game preserve.

The following sales are reported by Morris H. Wilson, of Ganessa Park tract: A 50-foot lot on Williams street to Claude Berry, and a 50-foot lot on Alvarado, near Huntington boulevard, to Miss Jacobus. Mr. Wilson also reports a sale of a lot on San Antonio avenue, to R. B. Murrell, recently of Florida. The buyer expects to improve the lot at once.—Pomona (Call) Review.

Harvey Clark, the enterprising proprietor of the O. K. Grocery, will have a cake baking contest during the fair, competitors to use his famous J. E. M. flour and Fairbanks' Cotto-lene. Now here is a chance for the ladies to show their baking art. The contest will be widely advertised and prizes will be awarded the lucky ones.

Mr. G. G. Sellar, wife and three children are pleasantly located with Mrs. Whetstone. They are from Browns, Ill. Mr. Sellar for eight years has been engaged by Uncle Sam in the R. F. D. service, but came to Florida on account of the health of his family. He said when the R. F. D. service was first inaugurated in his section there were only two daily papers distributed and now there are 12 distributed and read daily by the farmers, who are well posted on the affairs of the day.

Mr. Frank O. Reagan of Brooksville came up to Ocala yesterday afternoon and stopped at the Montezuma. Mr. Reagan is here to consult a physician about his father's condition. Captain Reagan, whom most of us know in Ocala, is suffering from a stroke of paralysis. Captain Reagan is very popular here and it is hoped he will soon recover.

Rev. R. H. Barnett preached two very fine and inspiring sermons yesterday. His subject was "The Mission of the Church," and his exemplifier the immortal John Wesley, whose missionary life and labors did so much to spread the gospel among the benighted of earth.

Hamp Chambers has a great curiosity in the shape of a three-legged chicken, which hatched out this morning. The bird is perfect in shape but the legs are web footed. Its tender age is the only thing that prevents the chief making an exhibit of it at the coming county fair.

Major R. A. Green and Mrs. Green arrived last night from Iowa, where they have been for the past two months while the major was buying peaches and grapes. They will go to Clearwater in a day or two and Major Green will buy oranges on the west coast peninsula, having been stopping at the Ocala House while here.

Thelma, the pretty gray buggy horse of Mr. and Mrs. C. R. Tydings, is dead. The animal was taken sick Saturday and while every means was employed to relieve the animal's sufferings, it proved of no avail and now the horse is numbered among the salted equines. Thelma was a great favorite with the Tydings family, having belonged to them for over thirteen years and was a familiar object on our streets, having been driven almost daily by Mrs. Tydings or her sister, Miss Annie Davis. The loss to the family is a personal one, long years of faithful service making them feel they had lost a friend.

Owing to the death of Mr. J. Geiger salesman for the Jos. Rosenheim Shoe Co., of Savannah, who covered the territory on the east coast south of Jacksonville and around Charlotte Harbor, Mr. M. E. Robinson has been requested to take over that territory. He started Sunday night for the east coast.

Rev. J. P. Hilburn, president of Southern College who was in town Saturday, said the college was doing splendidly, the dormitory was running over and a new one had been built.

Mr. Hugh Nichols returned yesterday from a trip to Atlanta, where he purchased a very fine car of horses and mules and also attended the great auto races on which the attendance was over 40,000 people.

Mr. W. C. Maxwell, the popular proprietor of the Florida House, after many years of labor has received a patent for a railroad tie tamping machine which is placed on the track and operated by levers. The affair is a very ingenious one and is not only a great labor saver but does better work than could be accomplished by hand. Mr. Maxwell expects to interest the railroad companies in his device and it looks as if it will prove a profitable invention for the owner.

Mr. and Mrs. Ed Clements and two children who for several months have been boarding at the Oklawaha Inn, left this morning for Dunnellon, their former home. Mr. Clements is an expert on phosphate deposits and has been a faithful employee for years of the Marion Phosphate Co.

Rev. Campbell Gray who spent the past week attending the missionary meeting of the Episcopal church at Montgomery, Ala., gave a most interesting and instructive resume of that session to the members of his flock Sunday morning, and made them feel the magnitude of the effort and the splendid work accomplished.

Mr. W. P. Edwards now occupies his new stall in the city market. He took possession of it Saturday and his customers are delighted with the change and greatly pleased with the neatness and convenience of his new business home.

Mr. Will Knight returned Sunday from attending the auto races in Atlanta. He said the crowd was immense and the races fine and, best of all, there were no accidents to mar the pleasure of the meet.

Odd Fellows meet tomorrow night.

SINKING OF LA SEYNE

French Steamer and Many Passengers Went Down Near Singapore

Singapore, Nov. 15.—The mail steamer La Seyne of the Messageries Maritimes Service, running between Java and Singapore, and on her way to this port, was in a collision yesterday morning with the steamer Onda, of the British-India Line, and sank within two minutes. Seven European passengers, including the Baron and Baroness Beniczky, the captain of La Seyne, five European officers and eighty-five others, comprising native passengers and members of the crew, were drowned.

The rescue of sixty-one passengers practically from the jaws of sharks, of sharks, formed a thrilling incident of the wreck. The accident occurred at about 4 o'clock in the morning in a thick haze. The vessels were steaming at good speed and the La Seyne was cut almost in half. The majority of those on board were caught in their berths and carried down with the vessel.

NOW READY FOR LIVELY BUSINESS

We wish to announce to the public that we are now ready to do a general livery business and take care of all the trade in this line that comes to us. We have for some time had a few horses and have done some business, but were not in a position to ask for trade, as our facilities for handling livery business were very limited. We have now put in a full equipment of first-class horses, our big barn and stalls have all been placed in first-class shape for their accommodation and we now offer the public the services of a livery business that is second to none in the state. We have competent drivers who are from country and will give your interests our best care and attention. Respectfully, Tompkins & Cobb, Phone, 117. Livernymen, Ocala, Fla.

ATTEMPT TO ASSASSINATE THE VICEROY OF INDIA

Allahabad, B. E. A., Nov. 15.—Lord Minto, the viceroy of India, and Lady Minto had a narrow escape yesterday from being killed by bombs. They were driving through one of the streets when, without warning, two bombs were thrown at their carriage. The bombthrowers made their escape in the excitement and as yet no arrests have been made. Attempts have been made in India against Lord Minto, Lord Kitchener and Andrew Frazer, lieutenant governor of Bengal, and many other officials and for a year or more there has been fear of an uprising against British rule in India, and on these almost daily attempts on the lives of British officials.

MURDER IN MEMPHIS

Negro Shot Two White Men who Crowded Him on a Street Car Memphis, Tenn., Nov. 15.—Ed Candwell and Ed Koons, young white men, boarding a street car last night crowded in ahead of Wm. C. Smith, a negro. The white men stood on the rear platform while the negro, who silently resented their action, entered the car. After traveling several blocks the negro leaped to his feet, drew a revolver, rushed to the rear door, shot both men dead and leaping from the car escaped. Later he was captured.

SIGNALS OR SUICIDES?

It will Take Days to Decide the Meaning of Sounds that Come Through the Earth Above the St. Paul Mine

Cherry Hill, Nov. 15.—Nearly 400 men and boys, it is believed, are dead or perishing in the St. Paul mine as a result of Saturday's fire, though experts who penetrated the smoke-filled air shaft to a depth of 300 feet returned with a ray of hope for the grief-stricken relatives of the entombed miners.

From John Reid, son of one of the missing miners, Mr. Earling heard that a concussion of the earth has been felt by farmers half a mile south of the main shaft. This report was sent first to Henry Burke, an officer of the mining company. Burke rushed to President Earling and exclaimed: "I've heard signals from the men. John Reid's boy says that he and farmers whose land is over the southern end of the mine felt several concussions of the earth. There were several shocks and the men who felt them are convinced that they were shot fired by the imprisoned miners to signal to the people above that they are still alive."

"Would the shots mean that or that the miners had committed suicide and the agency?" asked the railroad president. "The men report," replied Burke, "that the signals were distinct and that they were meant for an assurance that at least some of them live."

EFFECT OF TURBINE ENGINES

Immense Steaming Radius of the New Battleship North Dakota Quincy, Mass., Nov. 15.—Official figures made public indicate that the new battleship North Dakota in addition to being one of the three largest fighting ships afloat—an honor which she shares with her sister ship Delaware and the British ship Neptune—is in a class by herself so far as steaming radius is concerned. The figures compiled on her official endurance trials off the New England coast show that the North Dakota, steaming at an average speed of twelve nautical miles an hour, is able to travel 9,000 knots without recaling. This great steaming radius is made possible by the low coal consumption, the tests having determined that the American built turbine engines with which the North Dakota is equipped use much less fuel than do the reciprocal type.

Robertson, Mayor.

W. C. T. U. WORK

The Ohio issue says "the fight for state-wide prohibition in Ohio will probably culminate in 1912." Think of it! Ohio, as you remember, includes Cincinnati, Cleveland and Columbus. But it most come. In the words of the immortal Carmack, "The saloon has sinned away its day of grace. It refuses to be reformed. It must, therefore, be destroyed."

The great prohibition parade in Chicago was headed by Gen. Fred D. Grant, major-general in the United States Army. On account of this Gen. Grant was severely criticised by the liquor men. One of them took it on himself to write to Secretary of War J. M. Dickinson, protesting against the action of Gen. Grant in heading the parade, dressed in the full uniform of a major-general of the United States Army. Secretary Dickinson replied that Gen. Grant had a perfect right to do so. General Grant now says: "I have favored the cause of prohibition all of my life. Not that I have always been a total abstainer, for I have not been, although I am one now, but I have consistently believed that the liquor traffic was a source of evil. As my belief was strengthened by my own observations, I decided that the cause demanded more than a passive acknowledgment of the truth. So I am an out-and-out prohibitionist." This, mind you, is not some prohibition crank speaking, but is Fred D. Grant, son of Gen. U. S. Grant, and major-general in the U. S. Army. The kingdom is coming.

Amarillo, Tex., a few months ago had fifty prisoners in jail. Now, since the abolition of saloons there number has declined to four and the daily Pan Handle says it is all due to prohibition.

We quote for the information of parents who are allowing their boys to smoke cigarettes, and as an exhortation to them, also, some words of Judge B. B. Lindsey, the famous juvenile court judge, of Colorado. He says: "I have been in the juvenile court nearly ten years, and in that time I have had to deal with thousands and thousands of boys who have disgraced themselves and their parents and who have brought sorrow and misery into their lives; and I do not know of any one habit that is more responsible for the troubles of these boys than the vile cigarette habit."—Christian Index.

With two splendid young men in their graves as the result of a pistol duel, two broken-hearted young widows and a severed little fatherless children as one effect of permitting dry counties to be flooded with whisky from a neighboring wet county, why should we be asked to "hands off" and "attend to our own business" and "let other folks run their affairs as they see fit"? If it is not the business of every decent citizen to protect his home, his wife and children as well as his neighbors from such outrages as this, then he has no business, he is unworthy of citizenship, and is a traitor to the state and the Nation whose best interest he is sworn to protect.

The "wet or dry" election in Clay county recently resulted in a victory for the dry of 157 majority. In the election two years ago the dry majority was only 11. A gratifying testimony as to what the people of the county think of prohibition after two years of fair trial. We say "fair trial," perhaps it could hardly be called "fair trial," with "Joyous Jacksonville's" "Bogus Shops" so near to corrupt and degrade morals and even to destroy life. If it hadn't been for the influence of Jacksonville's "joy makers" we have no doubt the county would have rolled up a very much more handsome majority for the dry.

The Jacksonville Times-Union thinks we have passed the experimental stage in prohibition and that we have an appeal to actual effects of prohibition, and express the hope that public sentiment will demand a cessation of sensational methods and appeal to sentiment and demand that the prohibition question be settled by an appeal to reason and in the light of facts and arguments. "Ye know not what ye ask for." If the question were allowed to be settled by the testimony of facts and reason the saloon business would be everlasting abolished before breakfast tomorrow morning. For the simple fact is the liquor traffic produces nothing but that which tends to retard the progress of civilization. Then why in the name of common sense foster and protect it?

Home Testimony

The following letter to the Citizen, the organ of the Alabama Anti-Saloon League, from Mr. A. D. Stevens, a prominent business man of this city, gives the conclusions of a fair minded, wide awake man, who has traveled through Maine this summer, and shows how the facts about the prohibition state disproves the reckless assertion of the liquorites:

A Testimonial on Maine By A. D. Stevens, Jacksonville, Fla.: "Knowing how many conflicting statements are continually made as to the effect of prohibition laws in Maine, the writer took particular pains this summer, during a nine
