AN EXTREME IN ATROCITY

Tampa Horrified by the Fiendish Outrage of a Jealous Cuban on the Woman who Rejected Him

Tampa, Fla., Nov. 30.—This city, not unused to deeds of violence, was terribly shocked yesterday to learn of a more than usually horrible crime committed Sunday night. Maria Acosta was a young widow living alone on Arch street in West Tampa. For some time one Miguel G. Gomez, a Cuban, has been persistent in attention to her, and it is alleged that from time to time he has been ordered from the house as an undesirable company. The supposition is that his nature being fired by the repeated rebuffs of the Acosta woman, he resolved to take revenge. Sunday evening, accompanied by two companions still unknown to the police, he pushed his way into the home of Maria Acosta and poured a bucket of gasoline over her, drenching her clothing thoroughly. One of the confederates blew out the lamp that was burning on the table nearby and Miguel Gomez struck a match and lighted the clothing of the unprotected woman.

The horrible act accomplished, they all three left the house. The woman's screams attracted the attention of the neighbors, who hurried to her rescue. No human flight, however, is so fast as the flight of flames on cotton clothing drenched in an explosive. Willing hands went rapidly to work to save the doomed woman from death but before the flames were extinguished her doom was sealed.

Maria Acosta lived long enough to make a dying declaration to Judge J. J. Boyett. Gomez was arrested and is in jail and the police are searching for his accomplices.

LIVED 152 YEARS

Wm. Parr, England's oldest man, married the third time at 120, worked in the fields until 132 and lived 20 years longer. People should be youthful at 80. James Wright, of Spurlock, Ky., shows how to remain young. "I feel just like a 16-year-old boy," he writes, "after taking six bottles of Electric Bitters. For thirty years kidney trouble made life a burden, but the first bottle of this wonderful medicine convinced me I had found the greatest cure on earth." They're a godsend to weak, sickly, run-down or old people. Try them. Fifty cents at all druggists.

SHORES STREWN WITH SHATTERED SHIPS

Hundreds of Lives Lost in a Fearful Storm Around the Azores
Lisbon, Portugal, Nov. 30.—The shores of the Azores Islands are littered with the wrecks of ships destroyed in the terrible storm of Saturday and Sunday. It is estimated that the dead will number nearly two hundred. Hundreds of houses along the coast have been demolished, and the ruins are now being searched for the bodies of dead and living.

A Religious Author's Statement

Rev. Joseph H. Fesperman, Salisbury, N. C., who is the author of several books, writes: "For several years I was afflicted with kidney trouble and last winter I was suddenly stricken with a severe pain in my kidneys and was confined to my bed for eight days unable to get up without assistance. My urine contained a thick white sediment and I passed same frequently day and night. I commenced taking Foley's Kidney Remedy, and the pain gradually abated and finally ceased and my urine became normal. I cheerfully recommend Foley's Kidney Remedy." Sold by all druggists.

DR. COOK DISCOVERED

Is Taking a Few Days of Rest Near New York
New York, Nov. 30.—They found Dr. Frederick A. Cook last night, that is, an authoritative statement was issued by his brother, W. L. Cook, saying that the explorer who mysteriously dropped from public view yesterday, was still in the vicinity of New York, recuperating. He was on the verge of a nervous breakdown and his retirement was absolutely necessary.

A HAIR'S BREADTH ESCAPE

Do you know that every time you have a cough or cold and let it run on thinking it will just cure itself you are inviting pneumonia, consumption or some other pulmonary trouble? Don't risk it. Put your lungs back in perfect health and stop that cough with Ballard's Horehound Syrup. Price 25c, 50c, and \$1 per bottle. Sold by all druggists.

PROPERTY FOR SALE CHEAP

A well located lot in good part of town, first ward, eight-room house in first-class condition. Lot goes clear through block with big barn on rear. Also fifteen acres of beautiful land well located on Anthony hard road just north of city limits. Ideal for subdividing. All fenced with new wire fence; good house; force pump and drilled well. Will sell both properties or either one, cheap for cash. Address or call on D. M. Honey, city.

FISH AND OYSTERS

Fresh salt and fresh water fish, inside and outside oysters, shrimp, etc., received every day. Temporary location south of west end of the city market building in small wooden building. William Tucker, Phone 219.

WOOD FOR SALE

500 cords of first-class wood for sale at 10c. Montague, Fla. For particulars address C. E. Fogelstrom.

WOOD FOR SALE

When you have a cold the first thing to do is to have the bowels move. Do not take anything that may constipate—and most old fashioned cough cures do constipate. Try Kennedy's Laxative Cough Syrup. It drives the cold from the system by the free yet gentle action of the bowels; it stops the cough; it is pleasant to take. Children like it. Sold by all druggists.

ONCE WASTE—NOW WEALTH

About a quarter of a century ago cotton seed was thrown away as absolutely worthless. Today, products representing an enormous total are made from this once-despised cotton seed. Improved processes of crushing and refining the oil have resulted in a product equal to the purest olive oil in nutritive value. From it is produced a cooking fat (called Cottole) which is claimed by physicians to be purer and much more wholesome than lard, and it is much more economical as well. As this fact becomes generally known the use of cotton seed oil in the form of Cottole will be practically unlimited.

THE CIRCUS

Brilliant Parade and Splendid Performances Being Given by Howe's Great London Shows

Fresh from a tour that has embraced all the European countries, Howe's Great London Shows are in Ocala to entertain the populace with two performances, the superior of which the critics say, are hard to find on the road.

Long before daylight was due this morning three train loads of double length cars rolled into the city and immediately an army of workmen were busily engaged in unloading the dens, tableaux cars, cars of wild animals, horses, ponies and the thousand and one other things that large aggregations are forced to carry.

By 7 o'clock this morning the canvases were spread at the corner of South 8th street and Orange avenue. Flags were flying, the smell of sawdust and pink lemonade was in the air, and circus music was ushered in with due ceremony, aided and abetted by the inevitable small boy.

Early this morning performers were scurrying to and fro, first to the canvases postoffice carried by the show, where they receive mail from home and loved ones, from nearly every country on the globe. Everything was a whirl of hustle. Shortly after 10 o'clock this morning the procession started from the grounds to traverse the principal streets of the city.

A long line of tinsel beauty, gorgeous costumes, pretty women, dashing riders and a herd of elephants, camels and open dens passed before the crowd that lined the streets. The clowns were out in force and with many new and fun making devices amused spectators greatly. The fresh appearance of the performers, the newness of the costumes and paraphernalia excited considerable favorable comment and the parade made a decidedly good impression. It was long, filled with many new features, and compact.

Every feature during the afternoon performance gave satisfaction and sustained Howe's Great London Shows' reputation. The show opened with the grand entry, which gave the audience a chance to admire the horses with the show. These animals are the best seen in this city and rightly deserve the term, "Blue Ribbon Stables." After the entry, the ring, stage and aerial numbers followed in endless succession.

The scheme and motto of Howe's Great London Shows met with the approval of the audience, as every act is arranged and put on so that the spectators are not confused by a myriad of acts offered simultaneously.

The famous Eddy children who created a big sensation at the New York Hippodrome, as the past winter as a special feature for this year won the applause and admiration of the audience in their death-defying poses in midair, suspended from the topmost point of canvas by their teeth alone.

Miss Kate Dooley, "the circus beauty," gave a beautiful series of poses and plastiques on the flying perch.

The bareback riding of Franz Reed, who is a grandson of the once famous circus clown, Dan Rice, was above the average and displayed the fancy trick riding taught by the old school of horsemanship which it omitted by all the young riders of today.

The acrobatic work included the Eddy family, introducing new, novel and up-to-date tricks.

One of the most notable features was a high school menage act by Mrs. Earl and her high school horse, "Roseale," a beautiful black Kentucky thoroughbred and John Smith on "Colonel."

Miss Rosa Eddy and brother in difficult tricks upon the tight wire, several rounds of plaudits, Master Harry Eddy turning a complete somersault upon the wire.

The evening shows will commence at 8 o'clock with goes open an hour earlier. The menagerie is well worth a visit and the circus band concert offers selections of overtures and popular airs of the day for the benefit of those who are particularly fond of good music.

AGAINST THE AMENDMENT

Alabama Decides Not to Immovably Fasten State-Wide Prohibition Into Her Laws

Birmingham, Ala., Nov. 29.—All indications point to a majority of between 18,000 and 20,000 in Alabama against the prohibition constitutional amendment in the election of yesterday. Chairman J. E. Long, who has been in charge of the fight against the amendment, claims that the majority against the amendment will be fully 20,000.

Jefferson county in which is Birmingham, the largest city in the state, in spite of the fact that the fight has been concentrated here, gave a majority of over 1,000 against the amendment. Mobile, Montgomery and Cullman counties show the largest majorities on the victorious side and it appears the amendment carried in but three counties, Talladega, Macon and Sumter, with Lee in doubt.

State of Ohio, City of Toledo, Lucas County—ss.
Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the city of Toledo, county and state aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of catarrh that cannot be cured by the use of Hall's Catarrh Cure. Frank J. Cheney, sworn to before me and subscribed in my presence, this 6th day of December, A. D. 1888. A. W. Gleason, (seal) Notary Public.

Sold by all druggists, 75c. Take Hall's Family Pills for constipation.

COTTAGES FOR RENT

Two cottages for rent in first-class condition facing primary school building. Apply to Mrs. R. D. Fuller.

If you desire a clear complexion take Foley's Orino Laxative for constipation and liver trouble as it will stimulate these organs and thoroughly cleanse your system, which is what everyone needs in order to feel well. Sold by all druggists.

ICE! ICE!

Buy Ice From Red Wagons

They say, but if you will examine carefully the ice which melts so rapidly you will note that there seems to be holes in it, that the center is what is called "snow ice," which, being more porous, allows it to melt quickly.

"Crystal Ice"

The kind we turn out is as clear and perfect as it is possible to make ice, and is the most economical ice to use. Ask the man on the Red Wagon to stop and see you.

ESSENDEN AT THE FAIR

The Most Creditable Display Made by the Teachers and Pupils of the Colored People's Academy

The throngs of visitors at the county fair were much attracted to and by the Essenden display of the handicraft and other evidences of advancement made by the students of that institution. The north end of the building where the exhibits were displayed was a good proof of the wisdom of training folks to do things well.

The work from the academic departments was well prepared, showed care as to selection and won the approval of many competent critics. The academic work covered the range from primary to high school and was further illustrated by a full set of the text books used in the course of study.

Adjoining and back of the academic evidences of work and progress were several cases in some of which were to be seen embroidery work, plain and fancy sewing, millinery work, crochet samples and other designs. This exhibit was closely inspected by a large number and was made more interesting by the explanations of Mrs. Ida Lewis, the director of Essenden's sewing department. She explained the educational and practical values from the course and incidentally added that all the female students were required to take sewing and before any could hope to graduate from the institution they were required to make all their own wearing apparel used upon graduation day.

The students are inspired to work with pride and to become useful through this great civilized art.

Not far from the display of dresses, waists, aprons, etc., stood a case filled with cakes, chicken, biscuits, pies, bread, ham, salads, croquets, etc., which would have been a credit to any metropolitan caterer. This feature of the domestic science department was pleasing and seemed to take some of the older minds back to the time when the colored women all seemed to be gifted in the preparations of table delicacies. A real good cook can command a better place than a half prepared school teacher and her salary will be larger and the work more pleasant. We are glad that Essenden is thoroughly preparing the young woman to do the most important thing.

One and all judge that the better prepared persons can bring their science to bear upon the taste, appearance and healthfulness of the cooked product. Miss Jennie L. Childress, a college graduate, has charge of the girls in this important work and she deserves special mention for calling she is making to be more dignified and important. If all the Essenden girls master the course as it was displayed in the case, we should judge that they can get positions, marry well or delight themselves by cooking so as to add zest to their lives.

The manual training department sent many wood working designs made by the boys. These showed much skill in sawing, planing and joining. The educational value was illustrated and the practical application of the first lessons to building gates, seats, windows, doors and house sections made the plans of the work clear and interesting.

The agricultural department sent some exhibits in the agricultural building. Owing to the drought the elaborate displays of fruit and vegetables made this year are not so numerous as in previous years. It is to be hoped that by another year this may be made. The general opinion expressed was that Essenden was doing a good work and the exhibit made many friends and admirers for the institution. Essenden deserves sufficient to vigorously prosecute its work and we hope to see it rival Tuskegee in extent of usefulness. There is room for it and a great work waits for its speedy development.

The articles seen in the Essenden row were:

Essenden's Exhibit
Essenden Academy's exhibit occupied the whole of the north end of the building set aside for the exhibits of the colored people. Every line of work at Essenden was represented and received great praise from all who saw it. First the text books used in the academic department were shown. These are among the best text books in use. They are modern and are used in many of the leading schools of the North. They are principally by the American Book company. The list is as follows:

Patterson's American Work Book, The Baldwin Primer, Baldwin's School Reader, 1st year, Baldwin's School Reader, 2nd year, Baldwin's School Reader, 3rd year, Baldwin's School Reader, 4th and 5th combined, Baldwin's School Reader, 6th and 7th combined, Minton's Elements of Arithmetic, Milne's Mental Arithmetic, Redway's Natural Elementary Geography, Redway's Advanced Geography, Swinton's New Work Analysis, Field's Grammar School History, Barnes' Elementary English, Maxwell's First Book in English, Maxwell's Introductory Lessons in English Grammar, Maxwell's Advanced Lessons in English Grammar, Smith's Primer of Physiology, Steele's Elements of Physiology, Spencerian Copy Book—System—Nos. 1 to 7, American System of Vertical Writing, Nos. 1 to 7, Peterman's Civil Government, Wentworth's New School Algebra, Wentworth's New Plane Geometry, Maury's Physical Geography, Lockwood's Lessons in English, Myers' General History, Steele's Popular Physics, Webster's High School Dictionary, Steele's Popular Chemistry, Hunt's Progressive Speller (part 1), Goff and Mayne's First Principle of Agriculture, Butler's School English, Williams and Rogers' New Introductory Bookkeeping, Blanks for same (set of eight), Needham's Elementary Zoology, Milne's Plane and Solid Geometry, Andrews' Botany, all year around, Brevard and Bennett's History and Civil Government of Florida.

In addition to these some loose leaf note books were seen, which gave an idea of the work done by the pupils at Essenden in the various classes. Some showed drawings and illustrations of skill and a remarkable display of penmanship. These were admired by many who stopped to look them through and read them.

In a closed glass case a beautiful and tasteful collection of dainties prepared by the girls in the domestic department was displayed.

(Concluded on Fourth Page.)
