## Will West Florida Be Considered?

In the last number of The Industrial Record, of Jacksonville, two articles tell of arrangements being made by the railroads to bring people to Florida. The subject is one of consuming interest to citizens of Escambia county no less than to those of other sections of the state. An extract from the first of the articles which we referred to reads:

From present indications this winter will break the record for the number of new settlers coming to Florida. Four parties of several hundred people have arrived in Jacksonville recently from the west; one large party from California were on their way to Crawford, the new town at the junction of the Georgia Southern and Florida and Seaboard Air Line Railways about twenty miles northwest of Jacksonville. Two were from Indiana and Washington and were going to the St. Cloud colony on the Atlantic Coast Line near Kissimmee in the northern portion of the state, and adjacent to the Everglades.

And the peculiarly interesting portion of the second article has this to say:

With a view to turning to Florida some of the immense tide of winter travel which annually makes California a mecca, the Louisville and Nashville Railway Company has had a representative here for several days gathering information and data of all kinds for advertising the advantages of Florida as a winter resort. The Louisville and Nashville, in connection with other roads, operates the South Atlantic Limited to Jacksonville, which train was put on last winter for the first time. It is the aim of the company to make this a very popular train and to this end special attention will be given to promoting the advantages Florida enjoys, and thus attract more and more visitors to this favored state.

Of course The Journal is glad to hear from any source that the Louisville and Nashville railway company proposes to advertise the advantages of Florida and attempt to bring visitors to the state. Its representative at Jacksonville will unquestionably be furnished with useful data by the other roads entering that city as well as by the board of trade. The part it plays in the operation of the South Atlantic Limited is of especial interest to east and south Florida and there will be no hesitation in providing all the information sought.

But what is of more interest to The Journal and the people of Pensacola is what steps the road will take to advertise this section of the state, and what special inducements it will offer to visitors and settlers. We would all like to know whether this, the principal gulf terminus of the L. & N., is to be advertised as such in the company's schedules or whether it is still to figure as a way station between Flomston and River Junction.

The Industrial Record declares that the representative of the road seeks "information and data of all kinds for the advertising of Florida as a winter resort." This may include—certainly should include—West Florida. Let us live in hope. Indeed, let us be optimistic and go even further than that. Let us fondly imagine that the road will advertise the fertile fields of this section in a way to attract home-seekers and likewise give publicity to Pensacola as a place of residence and

a place of business—just as a token of gratitude for favors received and a slight recognition of what this deep water port of export means to the company's treasury.

### BOOST, BOOM, BUILD—THAT'S ALL.

From Peary's anxiety to have Dr. Cook produce his shoes it looks as though the blattent Lieutenant would like to stand in them.

Kentucky Night Riders are again in the saddle, still uncurbed and giving full rein to their passions. They are indeed a lot of burly desperadoes.

The tariff principles of The Ocala Banner are sound as gold and Editor Harris deserves honor for maintaining them so staunchly and for refusing to join others in beating the devil around the stump!

Tell a man he has the hook-worms and he sneaks around the corner with his head down, but tell him he is afflicted with ankylostomiasis and he seeks for all his friends and proudly acquaints them with the fact. And yet Shakespeare foolishly asked, "What's in a name?"

The \$10,000,000 bond issue which the ingenious "harmonizer" declares he will father in order to continue irrigation work out west, may stir the hearts of some of the patriots and recover a few of the votes the G. O. P. lost through the Payne-Aldrich tariff abomination.

Cook had better get a band of Eskimos to guard that cache at Etah where his instruments and records are hid; for, as Shylock wisely remarked, there be both sea pirates and land pirates, the latter as little governed by the amenities of polite society as the former.

The president has reached the far, far west, but has not yet succeeded in fooling the people of that wild and woolly region into the belief that the tariff was revised downward and that Cannon and Aldrich are the best friends of the American people. Fact is those westerers know too much about the nature of the sheepy fleecy staple to allow any man to pull it over their eyes.

## AGAINST LAW TO DRAW CHECK FOR LESS THAN \$1

NEW FEDERAL PENAL CODE WHICH IS EFFECTIVE JANUARY 1 CONTAINS A RESTATMENT OF ACT OF 1862, MAKING IT A VIOLATION TO WRITE A CHECK FOR AMOUNT LESS THAN \$1.00.

It is a violation of the laws of the United States to write a check for any sum less than \$1.00, and has been since the year 1862, although it is not known where the law has ever been enforced.

The new penal code, which was passed by congress and approved by the president, and which becomes effective on January 1, 1911, contains a clause which forbids the making, issuance, circulation or paying out of any note, check, memorandum, token or other obligation for less than a dollar.

Passed in 1862.

United States Attorney Wilson was asked regarding the new law yesterday and upon making an investigation, found that it had been passed in 1862, and that in 1877 the supreme court made a ruling on the law, which, while not dealing specifically with the purpose of the law, makes it appear that its passage was for the purpose of preventing people from evading the stamp tax law, which was levied during the civil war. This tax called for a stamp upon all such documents exceeding \$1.00, and it was to prevent the issuance of checks, etc., for smaller amounts that the act was passed.

The stamp tax was later repealed, but through some oversight the other section was not noticed and now through another oversight it has been embodied in the new penal code. No Trouble Expected.

"This act was originally passed in 1862," said District Attorney Wilson yesterday, and is simply a restatement in the new code of an old statute. So far as I know there have never been any prosecution for violations, and there is no use getting uneasy at this late date."

There is no game law against anyone hunting for Plank's Chill Tonic. It is guaranteed to cure malarial chills and fever Ask Hannah Bros. They probably know.

### NEGRO WOMAN GOT BAD BLOW ON HEAD

Marie Robinson, colored, was struck on the head and badly hurt last night, the city physician having been called to dress the wound. She said that Fred Holmes, also colored, was the one who assaulted her and Special Officers Ray and Anderson had Holmes behind the bars in short order. Holmes is a cook aboard the army steamer Poe, but is not enlisted. He did not deny that he had struck the woman.

### MAYOR REILLY HAS APPROVED ORDINANCE

Mayor Reilly attached his signature to the tax ordinance Wednesday afternoon, and the law becomes effective today. The measure in its completeness will be found in The Journal today and those affected will do well to familiarize themselves with provisions as appertaining to themselves and their business. While the law becomes effective October 1, its rigid enforcement will not be adopted for thirty days. At the expiration of that time, a penalty will be exacted from all who have not obtained licenses.

## PENNANT FOR DETROIT TEAM

LOSS OF A DOUBLE HEADER BY PHILADELPHIA GAVE THE TIGERS THEIR THIRD CONSECUTIVE PENNANT.

By Associated Press. Philadelphia, Sept. 30.—The Detroit Tigers are three-time American League pennant winners tonight, for today Philadelphia clinched the coveted flag for them by losing both games of a double header to Chicago. The Tigers lost to Boston, but this made no difference, as they already had a lead of three and one-half games, and with two taken from Philadelphia's percentage gives the Detroit team a four-game lead with only three games to play. If they should lose them all they could not be defeated.

The playing of the Tigers on their last road trip has been beyond expectations. They had a lead when they left home to make the circuit, but judging by past performances on the road and with Philadelphia's record at home it was thought the Tigers would be stopped and Philadelphia take the lead, but all teams failed to stop the Detroiters except the home team, which won three of the four games.

Detroit closes the season at Chicago Sunday and Philadelphia plays the last game of the season next Monday with Washington.

## SOLDIERS AND SAILORS MARCH IN BIG PARADE

TWENTY-FIVE THOUSAND OF THEM SEEN IN HUDSON-FULTON CELEBRATION, CONSPICUOUS RECEPTION BEING GIVEN THE GERMAN BOYS.

By Associated Press. New York, Sept. 30.—Twenty-five thousand soldiers and sailors marched today in the great military parade of the Hudson-Fulton celebration. The most conspicuous reception of today was given to the picked body of sailors from the German fleet, who, when they reached the reviewing stand, fell into the formal snap, slap of the parade goose step and burst into "My Country 'Tis of Thee." The thousands of spectators with one voice cheered and cheered again.

The parade followed the order of official precedence. First came Admiral Sir Edward Seymour's men of the British fleet. Then the Germans, and following the men of the Netherlands, Italy, United States coast artillery and United States marine band, naval militia, National guards and lastly the regulars.

There were aquatic sports this afternoon off Riverside Drive, and tonight literary exercises at the Staten Island banquet, attended by Glenn Curtiss, Governor Hughes and Dr. Cook.

### Shorts in September Wheat and Oats Are Severely "Squeezed"

wheat. Two cents—three cents—five cents—but still none of the needed cereal. The sky rocketing had begun and before it stopped and the wheat began to come out \$1.19 had been bid. Some came out at \$1.20 from George Patten, a brother of James A. Patten, leader of the recent big May wheat deal and still more recently a big figure in the cotton market.

Shorts are estimated to have bought between 750,000 and 1,000,000 bushels at the inflated price. No one interest was hard hit with the exception of the firm alluded to, which was compelled to cover a quarter of a million bushels.

The bull pool is said to have been headed by Theodore H. Waterman, of New York and Albany. The pool's holdings, while not extremely heavy, were sufficient to control the market. A "squeeze" in oats enlivened the earlier part of the day.

A BANQUET spread before you would do you no good if you couldn't eat. What good can food do a child when as soon as it enters its stomach it is eaten by worms. That's the reason your baby is ailing, cross, nasty faced and thin. Give it White's Cream Vermifuge. It will expel the worms and act as a tonic for the child.

### IDENTIFIES MURDERED WOMAN AS HIS WIFE

By Associated Press. Spartanburg, S. C., Sept. 30.—"Yes, that's her," was the only comment of "Doc" Foster when shown the body of his murdered wife today. The body of Mrs. Foster was found covered with pine needles in the woods near Beaufort, a mill village. Her skull had been crushed. Foster is held for the crime but denies his guilt and says the last time he saw her was when she left Tuesday for a neighboring village in a hack with a white man and negro driver. He says he does not know either of the men.

### NO ARBITRATION IN THE OMAHA ST. CAR STRIKE

By Associated Press. Omaha, Neb., Sept. 30.—All efforts to bring about a settlement of the street car employes strike by arbitration have so far been ineffective.

Last night a riot call came from the Ames avenue car barn and a sheriff's posse was sent in answer. It was found that the crew of a Florence car had refused to carry a load of residents of that suburb home after collecting their fare. The passengers drove the crew off and ran the car home themselves. The car men walk-

by the official reception committee. Here the president and his escort reviewed a parade of soldiers, marines, school children, Igorrotes, Indians, Eskimos and Japanese in costume.

Two hundred children maneuvered before the president and formed the letters T-A-F-T. The Igorrotes have been looking forward eagerly to the president's visit. Most of their babies born at the fair have been named for him.

After the parade, Mr. Taft and his hosts went through the United States, Philippines, Hawaiian and Alaska

buildings. While the president and party were in the buildings other persons were excluded.

The president ate luncheon informally with sixty persons in the New York building, the meal occupying an hour. During this hour the great natural amphitheatre on the shore of Lake Washington had been filling with people and when the president took a seat upon the platform he looked upon 25,000 persons.

The exercises at the amphitheatre had been ordered cut to the briefest possible time, but the president was asked to speak as long as he chose.

The president was today initiated into the Arctic Brotherhood and received a membership certificate inscribed on Caribou skin and embellished with twenty gold nuggets from as many Alaska and Yukon camps.
