SEVERAL FINE JOBS ARE OPEN

GOVERNMENT WANTS MEN FOR VARIOUS POSITIONS, BUT PEN-SACOLIANS CANNOT GET THEM ON ACCOUNT OF LACK OF INTEREST.

The examination at the government building yesterday for the position of stenographer in the government service brought out the fact that while there are hundreds of positions in the government service open for good men, Pensacolians are filling few of them due to the lack of interest in the civil service examinations.

Yesterday there were ten applicants, the largest number to take an examination in many years, as sometimes examinations are conducted for good positions where there are only one and two present for examination.

FOR THE PUBLIC

New Formula Cures Coughs, Colds, Bronchitis and Hoarseness in Five Hours.

Much is being done in these days to stop the ravages of consumption, but probably nothing has been so effective as teaching the public how to break up a cold and bronchitis by following, to wit: etc., with simple home-mixed medicine. A laxative cough syrup, free from whiskey is the prime requisite. A cough indicates inflammation and congestion and these in turn are due to an excess of waste and poisons in the system.

YOUR KIDNEYS MEAN LIFE OR DEATH TO YOU

Nothing so quickly enervates or so rapidly destroys your physical vitality than weak, diseased kidneys; where there is kidney health there too there is also strength of body.

There is no class of ailments more insidious and deadly in operation than diseases of the Kidneys and Bladder—caused by uric acid poisoning of the blood and system. When any woman neglects her kidneys—and the symptoms of kidney derangement—she does so at her peril.

that are filled by civil service employees paying from \$300 to \$2,000 per year, while numerous positions are open in the Isthmian canal and Philippine services, and which could be secured were there eligible men here.

The fact that citizens here take very little interest in these examinations is the cause for considerable surprise to government officials who are anxious that persons fit themselves and make application.
