FOR PICTURE SHOW SAFETY

CITY ELECTRICIAN AND BUILDING INSPECTOR MADE INSPECTION OF SEVERAL PLACES OF AMUSEMENT IN CITY YESTERDAY.

For the purpose of guaranteeing absolute safety in the moving picture shows in the city, Messrs. L. LeBaron and James M. Johnson, electrician and building inspector, respectively, began an examination of these places of amusement yesterday, visiting two and giving directions as to the protection of wires and proper sized exits.

The shows visited yesterday were found in good condition, complying almost minutely with the building laws. The management of each place asked for directions, themselves desiring every safeguard possible, and they will comply with every suggestion and order.

Unless every suggestion and order from the two officials is complied with, which means a strict compliance with the city's building laws, license for operation will not be granted.

The officials, as well as the management and general public, desire that the places to be examined be made as absolutely safe as possible, since the shows are largely patronized by ladies and at times very small children.
