THE FLOWER OF LIBERTY.
 What flower is this that greets the morn,
 Its hues from heaven so freshly born?
 With burning star and flaming band
 It kindles all the sunset land:
 O tell us what its name may be—
 Is this the Flower of Liberty?
 It is the banner of the free,
 The Starry Flower of Liberty!

In savage Nature's far above
 Its tender seed our fathers sowed;
 The storm-winds rocked its swelling bud,
 Its opening leaves were streaked with blood,
 Till lo! earth's tyrants shook to see
 The full-blown Flower of Liberty!
 Then hail the banner of the free,
 The Starry Flower of Liberty!

Behold its streaming rays unite,
 One mingling flood of braided light—
 The red that fires the Southern rose,
 With spotless white from Northern snows,
 And, spangled o'er its azure; see
 The sister Stars of Liberty!
 Then hail the banner of the free,
 The Starry Flower of Liberty.

The blades of heroes fence it around;
 Where'er it springs is holy ground:
 From tower and dome its glories spread;
 It waves where lonely sentries tread;
 It makes the land an ocean free,
 And plants an empire on the sea!
 Then hail the banner of the free,
 The Starry Flower of Liberty!

Thy sacred leaves, fair Freedom's flower,
 Shall ever float on dome and tower,
 To all their heavenly colors true,
 In blackening frost of crimson dew,
 And God loves us as we love thee,
 Thrice holy Flower of Liberty!
 Then hail the banner of the free,
 The Starry Flower of Liberty!

BURKE-SALMON.
 Golden October days are ideal for the sealing of love vows and the happy couples who selected yesterday's bright, beautiful day for their wedding day chose both wisely and well.

At 1 o'clock a quiet wedding was solemnized at the Cathedral of the Immaculate Conception, the principals in this interesting ceremony being Mr. Peter Burke, Jr., and Miss Lillian M. Salmon, who were married in the presence of the family, Rev. Father Shaw performing the ceremony. The attendants were the groom's sister, Miss Henrietta Burke, and Mr. Frank L. Roche. Immediately after the ceremony Mr. Burke and his bride left for New Orleans and will go thence to Texas to spend their honeymoon.

The bride is an English girl originally from Kingston, Jamaica, but has been making her home here for the past three years—long enough to become endeared to quite a large circle of friends.

The groom is the second son of Mr. and Mrs. Peter Burke and is one of the highly esteemed business young men of Mobile and is a member of the firm of the Roche Undertaking party.

Mr. and Mrs. Burke, along with the congratulations and best wishes of a host of friends, received many handsome wedding presents. On their return from their wedding trip they will have apartments at the Bienville Hotel Annex where they will be at home to their friends.—Mobile Register.

Bloated Stomach And Belching

Of Gas Is Prevented By Using Charcoal, Which Absorbs and Removes Stomach Gases.

The accumulation of gas in the stomach is caused in the following ways: 1. It may be swallowed in large quantities during certain abnormal conditions of the stomach and food-tract. 2. It may be produced by decomposition of food in the alimentary system. 3. It is often evolved from changes of the mucous secretions themselves. 4. Transuded from the blood. 5. Regurgitated from the duodenum or first portion of the small intestine, and in some cases from a fistulous communication with the large intestine. 6. Gas of an extremely offensive kind is produced by the decomposition of a morbid growth in the stomach, such as cancer, tumor, etc. 7. Some forms of food are more prone than others to cause stomach gas, including sugar, starch, beans, peas, etc.

To relieve the distressing symptoms of gaseous distension of the stomach, no matter what the cause may be, it has been found by numerous experiments that the most reliable and valuable remedy is charcoal, which directly absorbs all gaseous substances in the alimentary system, one end to the other as thoroughly as soap and water cleanses the skin.

The late Dr. Leared of England strongly advocated the use of willow charcoal in the form of lozenges for the alleviation of such stomach symptoms as indigestion, fermentation, decomposition and bloating. It has also been found extremely serviceable in relieving secondary fermentative changes in the large intestine, when administered in the form of an emulsion. In Stuart's Charcoal Lozenges we have the very best form in which this great gas absorbent and purifier can be administered. They are composed of the finest willow wood, treated by a special carbonizing process, and after being combined with pure honey to render them palatable, they are compressed into a lozenge, which is as agreeable to the palate as candy, and no one could possibly object to their taste.

Go to your druggist and purchase a package of your name brand little absorbents, which are capable of absorbing 100 times their own volume in gases, but be sure to ask for Stuart's Charcoal Lozenges, as there are numerous cheap and inferior substitutes on the market, and it may be that you will ever after regret that it did not give satisfaction; if so, don't fail to try Stuart's Charcoal Lozenges, as their superiority and the vast difference between them and the others will be strongly marked and so striking that you will ever afterward decline all substitutes and insist on having this pre-eminently superior brand.

Stuart's Charcoal Lozenges at all druggists, 25 cents a box.

John B. Hirst and daughter, Ida, were Pensacola visitors Wednesday.

"Boots" Malone has sold out and moved to the city. We are sorry to lose so good a neighbor and wish him success in his new location.

Your Boy

Ask your doctor how often he prescribes an alcoholic stimulant for children. He will probably say, "Very, very rarely." Ask him how often he prescribes a tonic for them. He will probably answer, "Very, very frequently." Ayer's Sarsaparilla is a strong tonic, entirely free from alcohol.
