FOR SENSIBLE PEOPLE, ONLY By BONNIE BURNHAM

Just the finest sort of a man said to me the other day—after he had expounded sagely on various and diverse and unusual questions, and lectured around on things in general—'Life's too short—really, too short, you see, to bother around about the shortcomings of other people.'

There's two remarks however worth thinking a whole lot about—and we're going to think them out one by one this fine sort of Sunday morning!

ously when horribly good souls headed straight into you and your particular stab at the world and its ways—but when you get to knowing people right well—knowing this thing human nature you see, you can pretty nearly come excusing such frailty on the part of some people whose wizzled little souls just glimmer faintly through the meanest sort of little eyes—

parent as she stands in the limelight of the world's opinion! It's the real truth that it takes 25 years—30 years—sometimes 35 years to form the true full seasoned character of a woman.

The young American of today is a hustling, prosperous sort of person—with a mind full up with business affairs, and it's mighty little time that rolls round where opportunity presents itself for just naturally picking other folks to pieces!

And then some lop-sided squint-eyed wisdom spouting person will stand on the street corners and take snap judgment of every unfortunate female who may wander by! And if she's a wise sort of a little person she can glance into the windows of the shops and see the things that these street corner faces say—after she's passed.

LAUNCHING OF THE CHICOPEE

LARGE CROWD PRESENT AT MILTON WHEN WARREN & CO.'S NEW FISHING SMACK WAS CHRISTENED.

The Santa Rosa Star in a recent issue contained the following: Tuesday morning at 10 o'clock a large crowd of citizens and invited guests gathered at Hoodless's Shipyard, Milton, to witness the launching of the new fishing smack 'Chicopee,' just completed for Warren & Co., of Pensacola.

The 'Chicopee' is 32-2 feet in length over all, 21-2 feet beam and 8-2 feet depth of hold. She is built entirely of native oak, pine and cypress, and is the product in its entirety of the Hoodless Shipyard of Milton, owned and operated by Mr. John Hoodless and his three sons, Arthur Hoodless, J. O. Hoodless and C. A. Hoodless.

The 'Chicopee' is the sixth smack built by Mr. Hoodless for the Warren & Co. fishing fleet of Pensacola, which fact alone attests the merits of Milton's shipyard and the high favor that Mr. Hoodless's work has attained for all the good points that are so necessary to those who have to 'go down to the sea in ships.'

Swept Over Niagara. This terrible calamity often happens because a careless boatman ignores the river's warnings—growing ripples and faster current—Nature's warnings are kind. That dull pain or ache in the back warns you the Kidneys need attention if you would escape fatal maladies—Dropsy, Diabetes or Bright's Disease.

PRETTY MESS IS DEVELOPED POLITICAL DEAL, IF CARRIED THROUGH, WILL UPSET CALCULATIONS OF MANY ASPIRING POLITICIANS.

The Miami News-Record is authority for the following: 'The recent announcement of Hon. Lewis Zim, of St. Augustine, that he would be a candidate for congress in the Second district before the primaries of next year is the first indication that certain political conferences that have been held this summer are bearing fruit.'

FROM GOLF LINKS TO OFFICE

MANY a man would be unable to enjoy the healthful exercise of golf if the telephone did not keep him in touch with his business. A word over the wire saves him an hour's delay in leaving the office. There is another reason. The busy man's day is made shorter by the Bell Service, which brings him in instant communication, not only with his fellow townsman, but with correspondents in distant cities.

as a congressional candidate, but leaves something open for after-consideration. 'It has leaked out, in select quarters, that arrangements have been made, by the select few, to launch a ticket shortly after the holidays. This ticket will comprise all who will be candidates next year, and some who are to profit the combination and become candidates for state offices two years after.'

Examination Gems. 'Esau was a man who wrote fables and sold the copyright for a mess of pottage.'

'Divine right is the liberty to do what you like in church.'

'Phoenicians—The inventors of Phoenician blinds.'

'Bacchanal—A native of Bechuana, in Dutch Africa.'

'Cynical—A cynical lump of sugar is one pointed at the top.'

'Immaculate—State of those who have passed entrance examination to college.'

'The Heart—The heart is a comical-shaped bag. It is divided into several parts by a fleshy partition. These parts are called right artillary, left artillary, and so on. The function of the heart is between the lungs.'

'A volcano is a very powerful rock.'

'Metamorphic rocks are those containing metathors.'

'Short History of Keats—Keats wrote a savage criticism on Endymion which brought on consumption.'
