

Mrs. Sagerser, of Missouri.

FACIAL NEURALGIA.

Mrs. C. S. Sagerser, 1311 Woodland Ave., Kansas City, Mo., writes:

"I feel it a duty due to you and to others that may be afflicted like myself, to speak for Peruna.

"My trouble first came after I got gripe eight or nine years ago, a gathering in my head and neuralgia. I suffered most all the time. My nose, ears and eyes were badly affected for the last two years. I think from your description of internal catarrh that I must have had that also. I suffered very severely.

"Nothing ever relieved me like Peruna. It keeps me from taking cold.

"With the exception of some deafness I am feeling perfectly cured. I am forty-six years old.

"I feel that words are inadequate to express my praise for Peruna."

Stomach Trouble Seven Years.

Mrs. T. Froeh, B. R. 1, Hickory Point, Tenn., writes:

"Having been afflicted with catarrh and stomach trouble for seven years, and after having tried four different doctors they only relieved me for a little while. I was induced to try Peruna, and I am now entirely well."

Man-a-lin an Ideal Laxative.

NOTE SENT RUSSIA.

St. Petersburg, Oct. 22.—It is rumored here tonight that the powers have addressed a note to Russia regarding the Manchurian affairs.

NEGRO NABBED FOR A MURDER

SHERIFFS OF SANTA ROSA AND ESCAMBIA COUNTIES ARRESTED BLACK MAN WHO IS SAID TO HAVE TAKEN HUMAN LIFE.

Sheriff Collins of Santa Rosa county woke Sheriff Van Pelt of Escambia county at a late hour last night and together they proceeded to a negro home near Kupfrian's park and placed under arrest a negro who gave his name as Berry McLeod, and who is thought to have murdered a white man two years ago at Holmes Valley, in Washington county. McLeod fits the description of the real murderer closely and a man who knew of the killing and who was near at the time stated that McLeod was the man wanted. The party who swore to the identification was a spotter, who had trailed the alleged murderer to the house and then notified the sheriff at Milton. Sheriff Collins reached here on the 9:45 o'clock train last night and immediately hunted up the Escambia county officer. The prisoner will be taken eastward on the 6:40 a. m. train today.

President Taft an Advocate Permanent and Practical System Inland Waterways

(Continued From First Page.)

forests, for the control of water power sites, and great control of coal and phosphate lands. He said that more than six hundred millions of dollars have been spent on the improvement of waterways in the past.

WASTE OF MONEY.

Instead of working toward a great avenue of commerce, however, the money had been spent in piecemeal projects provided for by congress in response to a clamor from home or as a matter of party considerations.

Criticism of the army engineers for the policy of waterway improvement, the president declared to be unjust. The committee of the senate and the house are responsible for the policy which has been pursued. As long as the limitations of the home clamor and party considerations continue, the president said, only piecemeal work can be expected. The matter should be looked upon, he said, from a business point of view, which, after all, he declared to be a patriotic point of

view and the whole subject of improvement should be considered with reference to their necessity, their practicability and the common good of the country. When approved from these points of view, bonds should be issued and the work carried through with a rush.

CONTROL RAILROADS.

While improved waterways are the best method of controlling railroad rates, the president said, they were not the only means and that the interstate commerce laws should be amended so as to make them effective. The president said he did not believe in radical laws that would cripple railroads and he thought all wise people should agree that the best policy is a square deal to the railroad, that they should be allowed rates which they ought to have and that popular prejudice should not be permitted to deprive them of a reasonable profit.

"We are a funny people," remarked the president. "Before the railroad comes everybody is in favor of it. A month after it comes you can't find anybody in the country in favor of it unless it be a local council."

The president arrived at eleven o'clock this morning and after a short automobile ride was taken to the waterways convention. He returned to Gregory this afternoon, leaving tonight for Houston and Dallas.

Navy Department Will Soon Experiment With Long Distance Wireless

(Continued From First Page.)

shore must not be interrupted by atmospheric disturbances or intentional or unintentional interference by neighboring stations. The messages also must be transmitted with entire secrecy. The apparatus aboard the ships must be capable of transmitting and receiving messages at all times, in all seasons, and in all latitudes for 1,000 miles, and to receive messages from the high powered station for three thousand miles at all times.

Upon the result of these experiments will rest the question of the erection by the navy of a wireless tower at Washington, D. C., as contemplated originally, that in Massachusetts belonging to a private company.

Fall of Conservative Cabinet Brings Feeling of Relief in Spain

(Continued From First Page.)

ministry because of its alleged monarchical tendencies. They predict a series of swift changes bringing about a situation like that which began with the insurrection in the fleet in 1868 and culminated in 1873 with the abdication of King Amadeus and the establishment of a short lived republic.

The liberal papers are filled today with rejoicings over what they term the end of the tyrannical rule of Maura. The El Pais, a Republican organ, hopes that the war in Morocco will be brought to a prompt and honorable conclusion, "to avoid the ruin of the country." The El Pais demands also the passage of anti-clerical laws similar to those of France.

Poley's Honey and Tar clears air passages, stops the irritation in the throat, soothes the inflamed membranes, and the most obstinate cough disappears. Sore and inflamed lungs are healed and strengthened, and the cold is expelled from the system. Refuse any but the genuine in the yellow package.

LATHAM EXEMPLIFIES AEROPLANE'S CAPABILITIES

By Associated Press.

Blackpool, Eng., Oct. 22.—The capabilities of the aeroplane in the hands of a daring pilot were exemplified here today when Hubert Latham, the French aviator, gave an exhibition that first entertained and then terrified the spectators. In a monoplane Latham battled against a gale that was blowing 30 miles an hour and he twice circled the course. As the machine struggled in the teeth of the gale it appeared at times to stand still in the air. When, however, Latham came about in the wind, the monoplane was driven at a rate estimated to be between 80 and 100 miles an hour. At one time he barely escaped being carried out to sea and the crowd, which had been worked up to a high pitch of excitement, ceased to cheer and besought the aviator to come down. When Latham did alight he was not permitted to attempt a further flight while the wind continued high.

TELEPHONE CO.'S IN BIG MERGER

By Associated Press.

Toledo, Ohio, Oct. 22.—The Blade today, upon information said to be authentic, publishes a statement that a merger of independent telephone interests with the Bell company is almost completed. The combined stock of all the companies, which will fall in the hands of the Bell, is said to be more than thirteen million dollars.

INVESTIGATING PEONAGE.

St. Paul, Minn., Oct. 22.—A committee consisting of John C. Elder, of Washington, D. C., chairman, Congressman John Burnes, of Alabama, and Charles P. Neill, of Chicago, took testimony today behind closed doors in the federal building to ascertain whether a condition of peonage exists among the laborers in the lumber camps of northern Minnesota.

THREE STRAIGHT GAMES FOR COLTS

Three straight games were won by the Colts in a series with the Stanleys, the Colts breaking two league records, the team getting 783 pins. Brockett's Colts getting an individual score of 204.

COUNTY FAIRS OF GREAT VALUE

STATE CHEMIST ROSE SAYS THEY ARE VERY NECESSARY IN BUILDING UP AGRICULTURAL INTERESTS.

State Chemist Rose, in accepting an invitation to be present at the Tri-County Fair, November 9-12, says: "Such fairs are necessary to build up our agricultural and kindred industries, and are, in my opinion, of the greatest value in teaching our own people what to do and how to do it, and showing others what the possibilities of our state are.

"The 'Farmers' Institute,' the 'Demonstration Farm,' and 'County Fair' are the three most important adjuncts to development of the state possessa.

SIX TRAINMEN MEET DEATH

SWITCH ACCIDENTALLY LEFT OPEN ON PENNSYLVANIA ROAD CAUSES COLLISION OF PASSENGER AND FREIGHT.

By Associated Press.

Richmond, Ind., Oct. 22.—Six trainmen were killed and several passengers injured in a collision between a passenger and freight train on the Pennsylvania railroad near Collinsville today. A switch accidentally left open caused the wreck.

CAR SHORTAGE IS BEING FELT

By Associated Press.

Baltimore, Oct. 22.—The threatened shortage of coal cars is here and the situation. The Consolidated Coal Co. is now one hundred thousand tons behind with deliveries and other companies are suffering.

TWELVE DROWNED BY RECENT FLOOD

By Associated Press.

Manila, Oct. 22.—Incomplete reports show that twelve were drowned during the recent floods in northern Luzon. Destruction of property was heavy. Floods in the vicinity of Daguapan continue and water in the streets there has reached a depth of five feet.

SEEKING INJUNCTION.

St. Louis, Oct. 22.—Arguments were continued here today before Joseph Stephen, minister in chancery in the "cattle rate" cases in which 52 railroads seek an injunction against the interstate commerce commission to prevent a decrease in charges for cattle shipments. If the railroads win the rate on cattle from Texas and Oklahoma, as well as other states, will be raised from \$36 to probably \$42.

ONLY ONE ESCAPED.

Hartshorn, Okla., Oct. 22.—Of thirteen men who were in the entry of the Rock Island Coal Company's mine No. 10 at the time the explosion occurred here yesterday, all but one are dead. James Johnson, a trapper boy, is still alive, but his condition is critical.

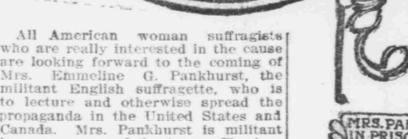

ACTRESS VICTIM IN THE SUIT CASE MURDER MYSTERY

AMELIA ST. JEAN

Two men one a chauffeur and one a physician, have been arrested in connection with the now famous Tiverton (R. I.) suit case murder mystery. The arrests were made at Fall River, Mass., and the police feel sure that the dismembered body of the young woman found near Tiverton was that of Miss Amelia St. Jean, a pretty young French girl who lived at Woonsocket. The girl was last seen alive near her home on the day before the mutilated body was found. She formerly traveled with a theatrical company and was a young woman of some dramatic talent. She is believed to have been murdered and her body cut up and carried in an automobile to the lonely roadside spot where it was found.

TWO MILITANT ENGLISH SUFFAGISTS WHO COME TO AID CAUSE IN AMERICA

All American woman suffragists who are really interested in the cause are looking forward to the coming of Mrs. Emmeline G. Pankhurst, the militant English suffragette, who is to lecture and otherwise spread the propaganda in the United States and Canada. Mrs. Pankhurst is militant in every sense of the term. She is a brawny woman of large mold, a born leader and gifted with powers of oratory that any stump speaker would be proud to possess. Her able second and lieutenant is her daughter Christabel, who bears the distinction of being one of the first women sent to prison in England for the cause of equal suffrage. The young woman

was taken to jail six years ago for rushing the house of commons. Mrs. Pankhurst will preside at a big suffrage meeting in Brooklyn, after which she will go to Troy for the suffrage convention. Then she probably will tour the country.

The Senseless Bickering of Christian Sects may be "what's the matter with American churches." That bickering reaches its highest degree at the very tomb of Christ in Jerusalem. James Creelman found the Turk, who sometimes kills Christians for sport, mounting guard at the Holy Sepulchre to prevent vandalism and to keep Christians apart. There they use knives; here we are content with words. But the spirit is the same. This is an astounding story of the Christian spirit at the Holy of Holies, but the application is to the Christian spirit in America and its decreasing attraction for the public. Christians will find much food for thought in this story, the other fellows great material for argument.

The names and methods of certain Congressmen who are getting rich at the expense of the city of Washington are given in the same issue. Judge Foster, senior judge of the New York Court of General Sessions, outlines a surprising but certain way to reduce criminality. Also Herman A. Metz tells what he thinks of political reformers. Perriton Maxwell gives the story of W. A. Rogers, the greatest American cartoonist, and there are seven short stories of fiction, with a corker by E. Phillips Oppenheim.

Pearson's Magazine for November

PAUL DE KOCK'S MASTERPIECE (Author of the Latin Quarter)

GUSTAVE, literally translated, bound in Roxburgh de luxe buckram, full-page illustrations on Japan paper, depicting the scenes of gaily in real Parisian life, only \$2.00. This fascinating story in all other editions of De Kock, because it contains so many bewitching incidents, has always been bound in TWO VOLUMES and sold for \$2.00 or more per volume. This volume offers you something everything in the two-volume edition, page for page, same type, de luxe, etc. This volume, and PEARSON'S MAGAZINE for a year, are yours for only \$2.00. The most-value magazine and book offer ever made. Address Department No. 4.

FEDERAL JUDGE DECIDING PANAMA LIBEL CASE.

JUDGE A. B. ANDERSON

Judge A. B. Anderson of Indianapolis announced at the close of the first day's argument in the so called Panama libel case, in which the government sought to have Messrs. Williams and Smith of Indianapolis News removed to Washington for trial, that the case was more or less political. He feared, he said, that the removal of the defendants from one jurisdiction to another under such a charge would not only be a serious menace to liberty, but it would curtail the freedom of the press to a grave extent.

DENOUNCE LAWLESSNESS.

Danville, Va., Oct. 22.—The Farmers' Tobacco Union, at its session here, adopted the following resolution which has just been made public: Resolved, that the Farmers' Union Tobacco Growers, representing the states of Kentucky, North Carolina and Virginia, denounce in no uncertain terms any act of lawlessness of any nature or kind whatever.

LONG FLIGHT MADE.

College Park, Md., Oct. 22.—Wilbur Wright, with Lieut. Humphreys as a pupil, made a flight of forty-two minutes duration this evening. This was the longest flight made here.

KERMIT JOINS TEDDY.

Nairobi, E. E. A., Oct. 22.—Kermit Roosevelt and Tarlton Leslie, who have been hunting near Karaka, re-joined the others of the Roosevelt party here today.

WM. JOHNSON & SON

OPERATING BY TELEPHONES

NEW PLAN IS ADOPTED BY THE SEABOARD—THE EXPERIMENT TRIED BETWEEN RALEIGH AND MONROE, N. C.

On September 4th the Seaboard Air Line put into service its new telephone train dispatching circuit between Raleigh and Monroe, North Carolina, 148 miles. This part of the road is single track and handles a heavy traffic, the movement of trains being assisted by a block telephone system. The dispatcher is located at Hamlet, North Carolina, 95 miles from Raleigh.

Western Electric telephones and Gill main line bridged selectors are used throughout this equipment. There are 29 selector way stations and two siding telephones located in the weatherproof booths at blind sidings. Two portable telephones are provided for wreck cars. These may be connected to the dispatcher's line at any point by means of a joined line pole.

W. F. Williams, superintendent of telegraph, who has charge of the work, states that the telephone circuit has worked perfectly ever since being put into service. He says that the transmission could not be better, and to indicate the character of the circuit he has installed, states that he has heard a watch tick over the entire 148 miles of the line.

The officials of the road consider that the service on this division has been very distinctly improved since adopting the telephone, while the dispatchers find that they can handle the business faster, more comprehensively and with less fatigue.
