Everybody along the paved streets in the residence section of the city will of course want to improve the grass plots in front of their homes as fast as the paving is finished. This will add to the value as well as to the attractiveness of every piece of property where the grass plot is properly improved and the sooner the work is done the better. If anyone is in doubt as to how to proceed to improve these grass plots, a visit to the Plaza and the city hall grounds, where Landscape Gardener Kimble has made similar improvements, will put him wise. All it requires is a shovel, a garden rake, possibly a wheelbarrow and a little elbow grease, and the work is done. Try it.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portions of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless this inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Halls Catarrh Cure. Send for circulars, free.

Boils, Pimples and Carbuncles

Cannot Exist When Stuart's Calcium Wafers Are Used.

The blood is a natural antiseptic and germ-destroyer. That fact has long been recognized by medical men. Under ordinary conditions it contains within itself sufficietly strong germicidal powers to destroy and eliminate all blood poisons, disease germs, microbes and bacteria.

The blood is alkaline in chemical reaction, and its alkalinity alone will kill many germs. Then, the blood also forms antitoxins which neutralize the poisons formed by the bacteria. A considerable amount of the said bacteria is burned up by the oxygen in the blood. Next are the alexins, which hinder the growth and development of germs, and, finally, it is one of the functions of the white corpuscles to attack and kill the microbes, which they do by millions, and carry them away to the filters—the lymph glands.

But in spite of all these powerful precautions taken by Nature to keep the blood pure, and to enable it to destroy and eliminate all blood poisons, impurities and germs, and thus protect the system from invasion by disease, it very often happens that the blood becomes so overloaded with various impurities and bacteria, that it is utterly impossible for it to destroy and dispose of them without outside assistance.

In such an emergency the only thing left to the blood to do, in order to prevent the self-poisoning of the system, is to send out as many of the impurities as possible through the pores of the skin, where they exhibit themselves in the form of boils, pimples, carbuncles, rashes, and various other localized inflammations and skin diseases.

It is in such cases as this that STUART'S CALCIUM WAFERS, the great blood-purifying and germ-destroying remedy, gets in its fine work. When the blood, overcome by weight of numbers, is struggling to rid itself of poisons, germs and impurities, these wonderful little wafers, whose chief ingredient is **calcium sulphide,** come to its assistance, rendering valuable help in the work of destroying the microbes, removing the impurities, and eliminating the poisons from the system, and the skin diseases, having no further poisons to feed upon, dry up and disappear.

Purchase a box of Stuart's Calcium Wafers from your pharmacist today for 50 cents, and commence taking treatment. Send us your name and address and a free sample package of this wonderful remedy will be sent you free. Address F. A. Stuart Co., 175 Stuart Bldg., Marshall, Mich.
