She was an unusually sweet and charming young girl, and her death is a sad blow to all who knew her.

The Ladies' Guild of Christ church entertained a number of the members and friends of the church yesterday afternoon at the home of Mrs. John C. Avery, where the public had been invited to attend a floral wedding. Miss D. Spencer won the first prize, a dainty

The palate is almost tickled with Scott's Emulsion of Cod Liver Oil. The stomach knows nothing about it, it does not trouble you there. You feel it first in the strength it brings; it shows in the color of cheek and smoothing out of wrinkles.

It was a beautiful thing to do, to cover the odious taste of Cod Liver Oil, evade the tax on the stomach, and take health by surprise.

It warms, soothes, strengthens and invigorates.

THE REV. MR. GAVIN TO SPEAK AT SALVATION ARMY HALL.

AFTER SUFFERING ONE YEAR

Cured by Lydia E. Pinkham's Vegetable Compound

Milwaukee, Wis.—"Lydia E. Pinkham's Vegetable Compound has made me a well woman, and I would like to tell the whole world of it. I suffered from female trouble and fearful pain in my back. I had the best doctors and they all decided that I had a tumor in addition to my female trouble, and advised an operation." Lydia E.

Pinkham's Vegetable Compound made me a well woman and I have no more trouble. I hope I can help others by telling them what Lydia E. Pinkham's Vegetable Compound has done for me." Mrs. EMMA IMSE, 833 First St., Milwaukee, Wis.

The above is only one of the thousands of grateful letters which are constantly being received by the Plunkham Medicine Company of Lynn, Mass., which prove beyond a doubt that Lydia E. Plunkham's Vegetable Compound, made from roots and herbs, actually does cure these obstinate diseases of women after all other means have failed, and that every such suffering woman owes it to herself to at least give Lydia E. Pinkham's Vegetable Compound a trial before submitting to an operation, or giving up hope of recovery.

Mrs. Plunkham, of Lynn, Mass., invites all sick women to write her for advice. She has guided thousands to health and her advice is free.

ABOUT BLEACHED HAIR.

One has only to be a beauty doctor to know how many dear geese there are who are not satisfied with nice brown, or black, dark colored hair. A young woman has to follow your profession more than twice to hear that the majority of the heads, which so eagerly sold their birthright for a mess of temporary golden locks, would give a good deal to be brown or black or dark colored again.

For there is no rest for the peroxide head—it won't either stay beautiful or go back to its old color with unnumbered diodes. And all the time there is poor miss or madame, mortified out of her wits by the varying shades of yellow, or red, by the

strawlike quality of her hair, by its dead look and scantiness.

For all this comes at least, and the beauty doctor hears it when the sufferers write her for a harmless dye—as if dyes were ever harmless!—or beseech her to tell them what in the name of goodness to do.

What is there to do? Well, a whole lot of things, but the first of them is in the nature of the first aid to the injured.

The roots of hair, which have been bleached by this powerful medium, especially by the blinding tint, have gone, and, in a long time, have either been utterly destroyed, or else are in a fair way to lose their little remaining vigor. So, in order that this hair may be even colored satisfactorily, granting the case is so extreme as to require a dye—some life must be brought back to it by natural methods. With the bleaching stopped instantly, the poor head must be massaged twice a week with olive or castor oil; it must have heating shampoos, brushing, airings. It must be left to go without heating cushions and without the worriment of metal hairpins. In short, it must be held in the arms and nursed like a sick baby!

Expert massage will bring the best results, but if this cannot be afforded, let the patient use her own hands, dipping only the tips of the fingers in the oil, and rubbing these with a circular pinching movement all over the scalp, every part of the scalp being thoroughly manipulated.

If the hair is parted in the middle of the head from the forehead to the nape of the neck, and one-half done at a time, the operation will seem easier.

An excellent tonic for peroxide hair or hair which has been faded by the salt baths and sun, is made as follows: Sweet almond oil, one pint; alkanet root, two and one-half ounces; oil of cloves, nineteen grains; oil of mace, nineteen grains; oil of rose, nineteen grains; oil of cinnamon, one dram; tincture of musk, fifteen grains.

Put the alkanet, coarsely powdered, in the almond oil, place over a low heat and let warm gradually, leaving the root in till the oil is richly colored. Then strain through coarse muslin and add the other oils, massaging the tonic into the scalp after the hair has been shampooed and dried.

The night after shampooing brushing comes next for this lifeless hair, which has refused at last to take even peroxide acceptably, and if this also can be done by other hands than the patient's the benefit will be all the more marked.

Foley's Kidney Remedy will cure any case of kidney or bladder trouble that is not beyond the reach of medicine. Cures backache and irregularities that if neglected might result in Bright's disease or diabetes. W. A. D'Alemberte, druggist and apothecary, 121 South Palafox Street.

HELD FINE MEETING AT FORT BARRACKS.

The W. C. T. U. held a very well attended meeting yesterday afternoon at the First Presbyterian church, and also last night at the fort, where a large number of the soldiers were in attendance at the gymnasium. Special musical numbers were rendered, the evening having been one of the most successful during the history of this particular line of endeavor among the W. C. T. U. ladies.

THE DIFFERENCE

Coffee Usually Means Sickness but Postum Always Means Health.

Those who have never tried the experiment of laying off coffee and drinking Postum in its place and in this way regaining health and happiness can learn much from the experience of others who have made the trial.

One who knows says: "I drank coffee for breakfast every morning until I had terrible attacks of indigestion producing days of discomfort and nights of sleeplessness. I tried to give up the use of coffee entirely but found it hard to go from hot coffee to a glass of water. Then I tried Postum."

"It was good and the effect was so pleasant that I soon learned to love it and have used it for several years. I improved immediately after I left coffee and took on Postum and am now entirely cured of my indigestion and other troubles all of which were due to coffee. I am now well and contented and all because I changed from coffee to Postum."

"Postum is much easier to make right every time than coffee for it is so even and always reliable. We never use coffee now in our family. We use Postum and are always well."

"There's a reason" and it is proved by trial.
