DUST AND GERM PROOF
Sanitaire Beds are dust-proof and everything about them can be kept absolutely free from dust and disease-breeding germs, because there is no spot where dust can lodge, or germs exist, and the snow white surface of finish rep dust and vermin life.

Sanitaire Beds are cast practically in one piece, with joints welded together. the finest particles of dust cannot work in between them.

The construction is extra strong so side rails will never sag nor posts ever get out of plumb. The guarantee protects you.

Sanitaire Beds are made in all sizes—double, three-quarter, single and in the modern twin beds, which are so much in favor.

We have a complete line of these on display in our store. Come in and see for yourself how beautiful they are.

Let us show you the manufacturer's guarantee. It's worth while—if you are going to buy a bed in the near future.

LITTLE WONG JOE IS BARRED
CELEBRITY CANNOT ATTEND THE WHITE PUBLIC SCHOOL OF AUGUSTINE, ACCORDING TO RULES

Shall Little twelve-year-old Wong Joe, through whose six years, the spirit of the Jap has become fused with the spirit of the white child, be admitted to the public school of Augustine, according to the rules of the school? That is the question which now confronts the school officials and which took up a portion of the attention of the Jap officials in its discussion at the meeting last night. It was hotly debated, but the resolution was sustained by the officials of the school.

In the question of the spirit of the Jap, there is a difference of opinions. The Jap officials are of the opinion that the spirit of the Jap is not being fully emphasized in the school, and that if the spirit of the Jap is not fully emphasized, the school is not fully functioning. The question of the spirit of the Jap is a very important one, and it is one that must be settled by the school officials. The school officials must be able to settle this question, and they must be able to settle it in a way that will be fair to all.
