BLACK WOMAN ASSAULTED A WHITE CHILD

FLOSSIE CHAMBERS SAID TO HAVE BEATEN LITTLE GIRL OF WHITE MAN WHILE BUCK NEGRO STOOD BY, URGING AND APPLAUDING THE FLOGGING.

Flossie Chambers, colored, arrested by Mounted Officer Simmons on a charge of assaulting, was bound over to the county authorities from the city court yesterday. In connection with the alleged assault, Mint Jones, a black negro, was also bound over. The two were locked up at the county jail, as the necessary warrants for their incarceration were made immediately.

According to the testimony adduced in the city court, Flossie Chambers gave a beating to a child of E. M. Pooley, a well-known produce and commission man. Just what led up to the assault was not explained, but it was asserted that Mint Jones, a negro, urged the woman on in her shameful act by applauding and otherwise exhibiting delight over the affair. He was docketed for disorderly conduct, but a more serious charge will be framed when he goes to the criminal court.

Capable witnesses were on hand to give the city recorder evidence should it be desired, but the negroes went to the county authorities, where warrants were made.

While the child was not reported severely hurt, the alleged act of the black woman was said to have been uncalculated.

Chronic Insomnia And Indigestion

The One is Almost Always Associated With and Caused by the Other.

Sleep has been fittingly called "the nature's sweet restorer." It is a condition in which the involuntary functions such as nutrition, circulation, respiration, etc., go on as usual, while the voluntary powers are in repose, and the system undergoes needed repairs. No one has ever been known to sleep longer than three weeks without sleep. It is as necessary in physical economy as food and drink.

Insomnia or chronic sleeplessness, is a symptom with which nearly every sufferer from dyspepsia is annoyed, either constantly or at frequent and irregular intervals. It is a condition in which the involuntary functions such as nutrition, circulation, respiration, etc., go on as usual, while the voluntary powers are in repose, and the system undergoes needed repairs. No one has ever been known to sleep longer than three weeks without sleep. It is as necessary in physical economy as food and drink.

Insomnia is rarely a disease by itself, but is nearly always a symptom of another disease, such as dyspepsia, and in treating this complaint, many persons in their efforts to "woo the god of sleep," resort to the use of such hypnotics, sedatives, soporifics and narcotics as the bromides, chloral hydrate, Dover powders and even morphia.

No greater mistake than this could well be made, and the reckless use of such drugs has caused many a sudden death, while in other cases, even moderate use, has set up an incurable drug-using habit among those who resorted to the use of "sleeping powders."

To cure insomnia or sleeplessness the object should be to remove the cause, and as dyspepsia is the underlying cause in a large percentage of cases, no better or safer remedy can be employed than STUART'S DYSPEPSIA TABLETS. By digesting every particle of food in the stomach, the active and exciting cause of insomnia is cut short at its source and removed.

These tablets contain only wholesome ingredients, and there is no danger of falling into drug-using habits from their use. Every sufferer from insomnia should avoid the egregious error of using hypnotic drugs, as they never cure the trouble, but only make matters worse in the end. Begin taking Stuart's Dyspepsia Tablets at once, using one or two after each meal, and the same number at bed time. It is also well to have a box of these powerful digestives close at hand during the night, so that in case you are troubled with dyspeptic insomnia, uneasiness in the stomach, or any other symptom of indigestion, quick relief may be obtained.

Purchase a package from your druggist at once for 60 cents, and get rid of your insomnia and indigestion. Send us your name and address for sample package. Address: E. A. Stuart Co., 150 Stuart Building Marshall, Mich.

Superb Display of Best Products of South to Be Seen

(Continued From First Page)

collective county exhibits surprised the natives as well as the visitors. Here and there would be a note pinned to an exhibit explaining as one did at the booth of the Magnolia stock farm that "the bushels were gathered from which 109 bushels were gathered from one acre," while another further along in the hall was a display of sweet potatoes by G. L. Barnes, of Foley, and this said: "Eighteen of these potatoes make a bushel." A fifty-foot run of Kudu vine was shown in the Santa Rosa exhibit by P. Tomascio.

ESCAMBIA EXHIBIT. The collective exhibit by Escambia county reflects credit, considering the short time in which to prepare it. The exhibit is in charge of Z. A. Thomas and is tastefully arranged along the West side of the building. It is to be found corn of several varieties, oats, Cassava stalk, hay, soy beans, millet of many kinds, African corn, fodder, pumpkins, turnips, citrus, oranges, peas, beans, watermelons, cantaloupes, tomatoes, sugarcane and many other varieties of both farm and garden products. Included in the Escambia exhibit is an individual display by H. Kohler, who has a booth neatly arranged in which are displayed almost everything that can be grown on a farm or in a garden. This booth is just at the North end of the Escambia space, and attracted much attention and favorable comment during the entire day.

THE BALDWIN EXHIBIT. The Baldwin county exhibit is one of the most complete of any at the fair. It is in charge of E. G. Miller and Mr. Carney and is located at the North end of the agricultural building. The manner in which the display is arranged shows off the various products to great advantage. Here can be seen everything that the average person ever thought of as being grown on a farm, and many things that he had not thought possible. The display is an immense one. The farm products cover a large variety, there being thirty-two kinds of forage plants, wool cotton, something which is new in this section, Angora goat wool, corn of a dozen varieties, rice, peas, beans, peanuts, pecans, walnuts, three varieties of oranges, some of the famous billion dollar crop, buck wheat, cassava, Japanese persimmon, egg plant, bananas, lemons, candy citron, pumpkins of all kinds, several varieties of sweet and Irish potatoes, a velvet bean vine weighing 90 pounds and a cow pea vine which scales at 18 pounds, four different grades of tobacco, nine varieties of sugar cane, gourds from two inches to three feet in length, one dozen ears of corn in one, nearly 400 jars of preserves of various kinds and some Assyrian triebat, the first ever to be raised in this section, and which is adapted to this climate and soil.

Separate from this display, but nevertheless a part of the Baldwin exhibit, is the Magnolia Farm booth, and it gives some idea what the South-eastern Lumber Co. is doing at its famous farm. Of the forage crops there is hay, beggar weed, Mexican clover, Para grass, mixed hay, velvet beans, pea and crab grass, and a dozen other kinds of forage plants. The forage crops on the farms and fine elms manufactured from the hard products of various varieties, all kinds of cane and the famous Magnolia brand of syrup manufactured at the farm.

SANTA ROSA DISPLAY. Santa Rosa county has a most creditable display, which is shown to advantage on the East side of the building, and included in which is an exhibit from C. H. Simpson's Arcadia farm. There are over twenty varieties of forage plants, a sheep skin, the wool of which has made Santa Rosa famous, a large quantity of the finest home made wines, pecans, potatoes, etc.

This exhibit is devoted almost exclusively to farm products, garden products not being displayed in any great abundance. In the Arcadia display can be seen some of the finest fine hay which has ever been produced in the South, and created comment upon the part of planters during the day. The immense runner of a Kudu vine also attracted much attention, and as the display occupied a central position and was attractively arranged it goes without saying that the Arcadia farm, agricultural building a complete display of farm and garden products as are grown in this section.

In the center of the building and dividing the Santa Rosa and Escambia county exhibits are a hundred or more individual exhibits of corn, potatoes, peanuts, cane, etc.

THE WOMAN'S DEPARTMENT.

One of the strongest features of the fair is that of the woman's department. Mrs. Reed, of Birmingham, is in charge, and has her various exhibits arranged in a telling stage of perfection.

One delightfully artistic nook is devoted to oil, china and water color painting, many really handsome and very creditable pieces of art being on display.

A bit of paper doll designing, the work evidently of a miss of tender years, was especially good. Beautiful sofa cushions, artistic and in a profusion of colors added to this department, as did also potted plants, bouquets, and great creamy nodding chrysanthemums.

The fancy work and the quilts which were on display were revelations unto themselves, and there were exclamations of real feminine delight as the order of the lower courts for the discharge of several indicted Kings county men for bookmaking.

Perhaps the most interesting department, and one which certainly called forth much praise from every one who saw it was the showing of the best of the best looking cakes, delicate pastries, butter, candies, pickles, preserves, pies, honey—in fact, everything which, through the clever process of a woman's handwork, might be transformed into something attractively edible. It was a tempting display—one which sent people scurrying lunging to the first little lunch tent out in the bracing November air. STOCK AND SWINE. The stock and swine exhibits are

Have You Tried?

Lydia E. Pinkham's Vegetable Compound? We can furnish positive proof that it has made many remarkable cures after all other means had failed.

Women who are suffering with some form of female illness should consider this. As such evidence read these two unsolicited testimonial letters. We guarantee they are genuine and honest statements of facts.

Gardiner, Maine.—"I was a great sufferer from a female disease and weakness. The doctor said I would have to go to the hospital for an operation but I could not bear to think of it. Lydia E. Pinkham's Vegetable Compound completely cured me in three months."—Mrs. S. A. Williams, R.F.D. No. 14, Box 39, Gardiner, Me.

So. West Harbor, Me.—"I suffered for years with painful periods, backache, headaches, nervousness, irregularities and inflammation. I consulted two physicians and one advised me to have an operation. I was completely discouraged when I decided to try Lydia E. Pinkham's Vegetable Compound, and it has made me a well woman. I advise all suffering women to take Lydia E. Pinkham's Vegetable Compound."—Mrs. Lillian Robbins, South West Harbor, Me.

Evidence like the above is abundant showing that the derangements of the female organism which breed all kinds of miserable feelings and which ordinary practice does not cure, are the very disorders that give way to Lydia E. Pinkham's Vegetable Compound. Women who are afflicted with similar troubles, after reading two such letters as the above, should be encouraged to try this wonderfully helpful remedy.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.
