

SPLENDID BUCKEYE WOMEN

Married and Unmarried, Praise the Buckeye Remedy, Pe-ru-na.

Internal Catarrh.
Miss Nora Kelley, R. R. 1, Box 121, London, Ohio, says:
"I write to thank you for the wonderful good your Peruna has done for me. I was a sufferer from kidney and other internal trouble for twenty-two years. Two years ago I began to take Peruna and I only took about three bottles and to-day I can say I am a well person."

Could Not Eat Without Suffering.
Mrs. H. A. Weaver, Somerset, Ohio, writes:
"I can safely and truly say that Peruna has been a blessing to me."
"I had catarrh so badly that I had lost the sense of smell and taste."
"I had stomach trouble so bad that I could not eat anything without suffering afterwards."

"My friends advised me to try Peruna. I bought one bottle and was greatly benefited by it, and so I bought one-half dozen bottles, and will say that I am completely cured of stomach trouble and catarrh."
"I cannot say enough for Peruna."

Pe-ru-na Brought Appetite.
Mrs. Selina Tanner, Athens, O., writes that Peruna relieved her of stomach trouble and brought her a good appetite.

Now Has Best of Health.
Mrs. Victoria M. Pickel, 130 E. Mound St., Columbus, Ohio, writes:
"I have been using Peruna for catarrh, having had a very aggravated case, so bad that it clogged the nasal organs. When I did get the nasal organs opened, the mucus would drop into my throat and make me very sick."
"A friend advised me to take Peruna, and after using four bottles I was cured, and I have no trouble now, and am happy to say that I am enjoying the best of health and attending to my lodge duties, being a member of the Rebecca Lodge of Odd Fellows."
"I would recommend Peruna to those suffering with the same obnoxious trouble."

Catarrh for Several Years.
Mrs. Alice Bogle, 803 Clinton St., Circleville, Ohio, writes:
"I want to inform you what Peruna has done for me."
"I have been afflicted with catarrh for several years. I have tried different medicines and none seemed to do me any good until I used Peruna. I have taken six bottles and can praise it very highly for the good it has done me."
"I also find it of great benefit to my children."

Cairo Is Quiet Under Martial Law at Last; Alexander Is in Jail

(Continued From First Page)

conclusive. The gag used on the girl was identified as James's handkerchief. There is as yet no evidence against Alexander except the dying confession of James.
"A whole regiment of soldiers couldn't have stopped the work of last night's mob," declared Mayor Parsons. Sheriff Davis echoed this sentiment, adding:
"There'd been wholesale bloodshed if the soldiers had been here last night."
No demonstration has been made against the negroes, who compose half of the city's population. The fact that a white man was also lynched has caused them to believe there will be no demonstration against law-abiding negroes.

DAY OPENS QUIETLY.
Cairo was very quiet this morning, after one of the worst nights of mobism ever passed through by any city. The mob had dispersed and only an occasional watcher for the negro Alexander could be seen about the streets.
Alexander is known to be in the custody of the police, but he is secreted in some place the mob could not discover. It is known he was spirited about the city in policeman's clothes.
The confession of the negro James, implicating Alexander in the horrible crime of murder and assault on Miss Anna Pelley, makes him a much-wanted negro. When his hiding place is discovered he surely will be lynched, unless there is a regiment of soldiers here to protect him.
When James, the negro lynched last night, was captured at Belknap and while he was being brought to Cairo, he absolutely refused to make a confession, but when the rope was around his neck and he was given his last chance to make a statement, he said:
"I killed her, but Alexander took the lead."
This morning there was nothing left of the negro's body but a pile of bones. Large crowds of women visited the spot.
The lynching of Henry Salzer, the white man, for the brutal murder of his wife, on Aug. 15, was a rebuke to delayed justice. The people asked for an immediate trial and ever since the case was put off by the court dissatisfaction has been universal. Sal-

MISCALLED "HAIR TONICS"

Most Hair Preparations Are Merely Scalp Irritants, of No Value.
Most hair preparations are merely scalp irritants, miscalled hair tonics. When hair is brittle, lustreless and begins to fall out, the dandruff germ is getting in its deadly work at the root, sapping the vitality. Since science discovered that dandruff is a germ disease there has been only one preparation put on the market that actually destroys the dandruff germ, and that is Newbro's Herpicide. It quickly reduces scalp fever, destroys the germ; and the falling hair stops, and hair grows luxuriantly. Ask your druggist for Herpicide. It always itching instantly, and permits the hair to grow. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

32 BUSHELS OF CORN TO ACRE

THE WONDERFULLY PRODUCTIVE FARMS OF BRADFORD COUNTY TROT OUT FIGURES THAT SHOULD APPEAL TO HOME-SEEKERS IN FLORIDA—SHERIFF IS A FINE FARMER.

Here is something that will be of interest to the homeseekers who wish reliable information concerning the fertility of Florida lands:
Sheriff J. N. Langford has proven himself a good farmer as well as a good officer. Last winter he bought a piece of land in Gaskins' addition and the part not reserved for building sites was stumped and broken up for the replanting of garden and field crops. Mr. Langford took a hint given in the Telegraph and ran a disc harrow over the land in advance of the plow, thus cutting up the turf and pulverizing the soil much better than could be done by the common procedure of breaking up with the plow first.

He planted a little of almost everything grown in this section and had good success in every case, but an acre planted to corn deserves special mention, as it gave the unprecedented yield for new land of thirty-two measured bushels to the acre. The land was enriched with commercial fertilizer but given no more cultivation than the ordinary New land being very "thirsty" on account of its lumpy state, the dry weather in the early summer injured the stand considerably, and that the yield was so heavy in spite of this drawback speaks well both for the soil and the cultivator.—Bradford County Telegraph.

GOMPERS TALKS ABOUT HIS CASE

TELLS FEDERATION CONVENTION THERE ARE THREE WAYS BY WHICH EXECUTION OF FEDERAL CONTEMPT SENTENCE MAY POSSIBLY BE AVERTED.

By Associated Press.
Toronto, Nov. 12.—President Gompers devoted some time today to explaining a writ of certiorari, the American Federation of Labor the status of the contempt proceedings under which he, Vice-president John Mitchell and Secretary Frank Morrison were sentenced to jail.
Mr. Gompers said there were three ways in which the case could reach the supreme court of the United States—by writ of error, by writ of certiorari, or by writ of habeas corpus after the defendants had been placed in jail.
Mr. Gompers expressed doubt as to whether a writ of error was available in the District of Columbia. He said that if that course were decided upon by the defendants' attorneys, the supreme court might grant a writ of certiorari in view, he said, of the general acceptance of opinion that this case ought to be brought to the supreme court of the United States in order that the principles involved may be tested.

HOW MUCH COTTON CAN A WOMAN PICK?

Editor Pensacola Journal.
Under the heading of "Wonderful Prodiges of the State of Texas" I notice your paper indulges in some sarcasm at the expense of a writer in the Delmeator, in which it is asserted that a woman hoes as much as three acres of cotton and picked 200 pounds of cotton, besides doing other work.
As to the article referred to in The Delmeator, I know nothing; but I do know that there are women, and girls not grown, who not only can hoe three acres of smooth, clean cotton in a day, but do it. As to the cotton picking, 200 pounds is not an average day's picking for a girl who pretends to be a cotton picker.
You have one woman in Pensacola who has picked 300 pounds of cotton many times. This may sound like "tommyrot," too, but what I say I can prove under oath by the best people in Ellis county, Texas.
"King Cotton" is a great old tyrant. He demands the life-blood of the women and children in the field even more than in the factory, and if some who laugh at the assertions of skill acquired by a life of toil in the cotton fields would go and live the life of unrewarded toil that many of these women and children have lived when cotton was five cents and the corn parched in the field, they would consider it a serious thing.

GASOLINE AND MATCH IN MIX-UP

A negro chauffeur pumped gasoline into an automobile tank at a Garden street garage last night. In trying to find out if the tank was full enough he struck a match and a spark from the match struck the gasoline with expected result. An explosion, and a negro will carry a badly burned arm in bandages for some time. The auto was slightly damaged. In scratching the match, the negro did just what he had many times been cautioned not to do.

WOMAN LASHES COUNTY DOCTOR

ASSAILANT CLAIMS HAMLIN'S PRESCRIPTION HAS RUINED HER EYESIGHT—SHE'S SUING HIM, ALSO THE DRUGGIST THAT PUT UP THE SALVE.

Special to the Journal.
Tampa, Nov. 12.—Dr. A. C. Hamblin, Hillsborough county physician, was approached by a woman as he descended his office steps on upper Franklin street and subjected to numerous lashes about the body and head from a small whip held in the irate female's hand.
The doctor's assailant was Mrs. Sidney Venago, who recently sued the doctor and a well known drug firm of this city for the respective prescribing and putting up of a salve for her which has, as she alleges, ruined her eyesight.
Mrs. Venago waited at the foot of Dr. Hamblin's office stairs and when the physician came down to the sidewalk on his way home she applied the whip, accompanying it with his person with excited exclamations of "You will lie about me, will you, 'Come down to the police station with me,' and other loud remarks."
Dr. Hamblin warded off the blows calmly and as soon as he could free himself from Mrs. Venago, got into his auto and drove home.
The woman was subsequently arrested on instructions from Chief of Police Woodward.
The cause of the whipping, according to Mrs. Venago's statement, is that, after she and her husband had entered suit against Dr. Hamblin and the drug store for \$50,000, the doctor told untrue things about her and she wanted to personally punish him for telling them. Dr. Hamblin denies having ever told the stories that the woman alleges he did and stoutly maintains that the salve he prescribed for the woman was a harmless one and that she has no cause for action against him.
Dr. Hamblin has been the efficient county physician of Hillsborough for a number of years and bears a splendid reputation, both as a man and physician.

NEGRO BURKE BRINGS SUIT

WANTS DAMAGES OF \$5,000 BECAUSE, AS HE ALLEGES, HE WAS PUT OFF TRAIN OF SOUTHERN ROAD AT GEORGIA STATION.

Special to The Journal.
Jacksonville, Nov. 12.—In the circuit court, Wm. Burke, colored, by his attorney, John E. Hartridge, instituted suit against the Southern Railway company for \$5,000 damages, alleging in his bill of complaint "that on last Wednesday he purchased a ticket at Macon, Ga., to Brunswick, Ga., and became a passenger on the train of the defendant company without knowing that it was necessary to change cars at Jesup, Ga., to complete the trip to Brunswick, Ga., and was not so informed at the time of the purchase of the ticket, nor afterwards by the conductor, though the conductor punched plaintiff's ticket."
"On Thursday last a short distance beyond St. Mary's river, in Georgia, a conductor other than the conductor who had punched the ticket, by reason of the fact that said car was destined to Florida, unlawfully, by force and with great and unnecessary violence, expelled plaintiff from the car, and in doing so assaulted plaintiff and shoved him off the car to the ground while the train was in motion, having only slowed down and not coming to a stop, by reason of which plaintiff fell upon his face and was bruised and hurt, and by reason of his expulsion sustained much suffering and distress and great mortification of his feelings and manhood."
"That he was put off in the woods, and not at a station, and not having any means to purchase a ticket or pay his way to another point, was compelled to, and did, walk into the city of Jacksonville, Fla., to his great personal injury, discomfort and mental and physical suffering, and by reason of the expulsion he became and is entitled to recover not only damages for his personal injuries, but \$4.95 paid to defendant for his ticket."

WEALTHY MRS. W. H. CHAPMAN FLEES FROM EUROPEAN SUITORS

Mrs. William Hayes Chapman, the pretty young widow whose seventy-six-year-old bridegroom died a year ago, leaving her \$10,000,000, has returned to America, declaring she was forced to flee from Europe to escape a swarm of titled suitors. The English papers have had her engaged to nearly every titled single man in the old world in the last six months, and when she arrived in New York she took occasion to flatly deny that she paid any heed to these fortune seeking admirers except possibly one. Just before she sailed it was reported that she was to wed the son of Lord Falconer. This, she said, was absurd. She was not so emphatic, however, when General Spiridovich of the Russian army was mentioned. It is believed that she and the general are really engaged.

BARON LIANG AND PARTY HERE TO INVEST \$20,000,000 IN SHIPS AND GUNS FOR CHINA

The most important event bearing upon the open door policy in China is the arrival in San Francisco of a commission headed by Baron Liang, son of Liang Cheng, former minister to the United States. This commission comes for a tour of inspection of all the shipyards and arms factories of the United States, and on these visits will depend the placing of contracts for \$20,000,000 worth of battleships and war munitions. China is about to place contracts for several more modern battleships and a vast number of big guns for strengthening her coast defenses. The rapid increase and improvement of China's army, together with the purchase of war munitions, point more conclusively to the much talked of "awakening" than anything else. Similar commissions of inspection have been sent to other countries, and all the markets of the world are expecting a permanent business impetus as soon as these contracts are let. Baron Liang is one of the most highly educated men in the orient. The members of his suite are all prominent in the affairs of the empire. He was preceded to this foreign office and Captain Charles J. Etti, artillery instructor to the imperial Chinese army. These men with the prominent officials who arrived with the Baron will accompany him on the inspection tour.
