

THERE IS NO LIMIT TO THE RECORD OF QUAKER

Quaker Remedies Being Recognized in Pensacola as the Greatest of Medicines, Daily Proof Shows this Absolutely—Another Tape-Worm Expelled.

Edward Badgatt, a drayman, who resides at 121 S. DeVilliers street, was born and raised in Pensacola, and is well known by many citizens. This man did not have many of the symptoms usually produced by a monster of this nature and to pass him on the street one would say "That man looks to be in perfect health," and yet the vital forces were being gradually sapped away day by day. In conversation with a number of his acquaintances yesterday one was heard to ask: "Did the Quaker

Remedy make you sick?" "No." "Did they tell you to go without food for three or four days?" "No." "How did it act?" "Well, I just took the medicine according to the directions and the old thing came away alive—head and all complete." "When I need any medicine I will always remember the Quaker. Gray and his Remedies are certainly doing great work in Pensacola and his stay has been less than two months to the present time. He is already sending these treatments by express to many out of town people who have been reading

about the cures in these columns. Express will be prepaid on all orders of \$3.00 or over. The Quaker Herb Extract is sold at \$1.00, six for \$5.00, or three for \$2.50. The Famous Quaker Oil of Balm, 25c., is the greatest rubbing remedy known for pain and can be used internally when required. The Quaker Cough Syrup, Salve and Soap are all good for the purposes intended for them and hold the same reputation as the Herb Extract. If you are ailing, see Gray today—get a treatment and be cured—to stay cured.

Race Track Assured For Pensacola in Near Future

(Continued From First Page)

meant business who were there, as they realized that it meant business on a large scale for the town and county.

W. L. MOYER PRESIDED.

W. L. Moyer was chosen to preside at the meeting. He represented the Merchants' Association. J. M. Clark, of the Owen-Clark Company, was elected as secretary. Mr. Moyer, explaining the object of the meeting, called on anyone more acquainted with such matters to speak on the subject. He said that he would have preferred someone having more knowledge of the matter under consideration selected presiding officer, but before he could decline the office, Mr. Lannon moved the nominations be closed. He was elected by acclamation.

When found that he could not get the Kupfrian's park property he asked the real estate firm to assist in locating a suitable place. It was then that the Packard Land Company had been called in, and the Howell place was offered. It suited Mr. Bickers admirably. Mr. Owen said, for it was away from the water, out of reach of the damp winds and among the pines, all of which was necessary for the care of the horses. Mr. Owen said the price for the place was \$5,400, and that did not make the race horse man take water; on the other hand, the only matter which affected the deal at all was the transportation question.

At the rate of a dollar a day for the care of these hundred horses he said it would mean \$36,000. There would be not less than three and possibly five men to each horse, who received \$5 a day. He said it would be a low estimate to make it \$600,000 for the meet, and more than a million dollars to the town's good. He urged the people to get behind the movement and keep it going to a successful end. Closing he introduced a Mr. Appleyard, from Jacksonville, who gave the audience his personal ideas of the good which had come to the city of Jacksonville, where the same people operated a race track, saying that men who would have nothing at all to do with horse racing had contributed to the fund to get the race track there. He said that Jacksonville had profited by it. Here, he said, the proposition was offered practically without cost, and certainly Pensacola could gain by it wonderfully. He said that sentiment and concerted action, if gotten behind the street car people, would do a heap toward helping out of the present difficulty.

SOMETHING OF BICKERS.

Mr. Owen, of the real estate firm bearing his name, stated that Mr. Bickers had probably been in the city four or five days before he called at the Owen-Clark Company's office, making himself and his object known. His purpose first was to get a lease on Kupfrian's park, but as that property had been sub-divided his request could not be granted.

SOME FIGURES.

Speaking in line with Mr. Owen, Mr. Lannon grew quite enthusiastic. In conversation with Mr. Bickers, he told Mr. Lannon that all was in good shape and he was thoroughly satisfied with location and land site, but the only trouble Mr. Bickers had told Mr. Lannon, was the lack of a car line. Get a car track there, the race horse man had stated, and he was ready to start at once on the track.

STILLMAN ENDORSED IT.

Mr. Stillman said that he had made two engagements to take Mr. Bickers to see some property near Goulding, where transportation facilities would not be so difficult to obtain, but in view of the fact that the Howell place had been selected, he would not further hold out his proposition. He said his land was near Goulding, where there was quite a business settlement now, and where the company would likely have built without much urging. "The proposition, however," he said, "is a good one, and will make Pensacola a live wire town." Reciting recent experiences which he had in construction of a line, he said that it was doubtful if construction material could be gotten on the ground and used inside of the few months intervening before the Spring meet was scheduled. He said that some data on that line should have been forthcoming.

She Can Eat Pie Now.

A lady recently visited a friend in Keene, N. H., whose husband was very delicate, and yet she noticed that he could eat all the pie he wanted. She began to wonder how it was that he could do it, when she had to give up this delicacy because of disagreeable after effects. She writes as follows:

"I found it was because the pies were made with Cottolene; and as I am a great lover of pie, I began using Cottolene, and have never had a bit of hard in the house since that time. I now enjoy my pie, as it does not give heart-burn as formerly."

Cottolene makes crisp, flaky, "digestible" pie-crust, that tastes good, and does good—lard does you harm.

MANAGER WARREN SPEAKS.

Being asked about the position that his company would take in the matter, Manager Warren of the Stone & Webster company, stated that the company did not feel disposed to build and operate the line just now; that a very heavy expenditure was being made now and that it would be impossible to interest his company in what was certainly a heavily losing game to build and operate the track to the race course the year around. He offered the same terms as were given the East Pensacola Heights Company and other companies which he was building. Should the Stone & Webster Company buy it as soon as it became profitable, he said.

NEW PHASE OF QUESTION.

Asked about operating the line only during the meet, Manager Warren said that was quite a different and altogether new proposition, and he would consider that in a different light. He said the company would operate it during the meet on the transfer system basis, and he was ready to most assure co-operation on such basis.

KEYNOTE OF MEETING.

The keynote of the meeting, however, was expressed in a motion by H. P. Neumann, who proposed that it was the sense of the meeting that the city of Pensacola wanted and desired the race track, and that a committee of five be appointed to confer with the Stone & Webster representatives and see if some sort of an agreement relative to the transportation problem could not be made. He said that if electric cars were unavailable, that steam power be employed until electrical energy was forthcoming. The motion was adopted and Chairman Moyer named on that committee T. H. Lannon, Henry Hyer, Clarence Hutchinson, H. P. Neumann and R. C. Packard.

MILD WASH CURES ECZEMA.

Simple Liquid Found Successful Where All Other Remedies Fail.

Ordinary oil of wintergreen, mixed with thymol, glycerine and other ingredients, is known to cure skin diseases. This prescription, carefully compounded in correct proportion, can now be obtained on a special offer put up in a 25c bottle.

This mild, soothing liquid, known as D. D. Prescription, is washed into the skin and instantly the itch is gone.

That a permanent cure can be effected by the first bottle we cannot guarantee. But ten years of experience with D. D. D. have shown us that every sufferer gets instant relief from the itch; you will feel soothed and refreshed at once.

Call at our store and we shall be glad to tell you more about this standard eczema cure.

Quisite freshness is never makes the hair grow on the face.

Dr. Hebra's Viola Cream is the wonder-worker for the complexion. There is nothing to equal it.

Viola Cream is sold at all reliable drug stores for 50 cents a jar or will be sent charges prepaid, on receipt of price, provided you mention the name of the druggist to supply you.

A trial package of Viola Cream and "Guide to Beauty" will be mailed by the G. C. Bittner Co., Toledo, Ohio, for 10 cents to cover postage, packing, etc.

Cheap soap does great damage to the skin. Wash your face with Viola Skin Soap before and after using Viola Cream. You will be surprised at the result this combination will produce. Viola Skin Soap is sold by all druggists at 25c a cake, or sent prepaid on receipt of price by The G. C. Bittner Co., Toledo, Ohio.

of the company, Mr. Hunt, who had left several days ago for Tampa. He thought next Tuesday night would be ample time in which to present the answer. When the meeting adjourned, Dr. Hutchinson suggested that the committee meet Mr. Warren right away, and after the meeting the conference was held.

COMMITTEE CONFERENCE GETS MUCH SATISFACTION

Directly after the adjournment, the meeting had a conference with Manager Warren. The entire committee remained, and Mr. Moyer, the presiding officer, and Mr. Clark, the secretary, were also present. Every detail was worked out. Mr. Warren said to construct the tract it would entail an expenditure of about \$18,000, plus about \$5,000 for a feeding line. He believed, though, by the use of second hand material, the entire cost could and would be shaved several thousand dollars. Every member of the committee was eager to learn everything in connection with the track building. Mr. Warren explained, and said when material was here, the entire stretch could be put down in less than three weeks. He was sure his company would operate during the meet as had been proposed, and he showed much interest in the idea of the race track. His enthusiasm. His manner with the committee gave the latter much confidence that the company would enter soon a hearty co-operation, and after a conference of fifteen minutes, the gentlemen separated with the idea of the race track in their city, meaning an enrichment to the business people of Pensacola of many thousands of dollars, was not now in the uncertain class, but was really an assured thing.

ENUMERATORS DESIRED FOR ESCAMBIA CO.

SUPERVISOR T. D. WHITE WRITES J. E. CONCANNON THAT GOOD MEN ARE WANTED FOR THE VARIOUS DISTRICTS OF THE COUNTY.

Able and intelligent census enumerators are desired for Escambia county, according to a letter received by J. E. Concannon from Census Supervisor T. D. White of Chipley, who advises that politics will not count in the selection of men who are properly fitted for such positions. There are twenty-three enumeration districts in this county, and a good man is wanted for each.

The matter of selection of good men as enumerators is a very important one, and it is the desire to obtain men who can give good service and at the same time give the city and county justice in the matter of population. Upon the selection of proper men depends whether or not the census will be taken satisfactorily. Mr. White's letter to Mr. Concannon is as follows:

"Chipley, Fla., Nov. 20, 1909.

"Mr. J. E. Concannon, Pensacola, Fla.

"Dear Sir: I enclose you a transcript of the districts of Escambia county as made out by the director of the census, Washington, D. C., and would like to have you furnish me some good names for the several districts in your county. You know that I can't consider politics, but want efficient men. They will be warned in due time that they are not appointed to this place as politicians, but as workers under the civil service rule. They will not be even allowed to talk politics, and should they do so, they will be removed at once, should I find it out and have satisfactory proof of same. The enumerators will be allowed to cast their votes for whoever they like, without discussing the matter to anyone.

"Respectfully,

"T. D. WHITE,"

"Supervisor."

"P. S. No person holding any office in this state for honor or for pay will be allowed a place on my staff, therefore, please do not recommend an officer of any kind to me for enumerator."

by what is much more important, recognition of belligerency. Recognition of belligerency is a matter of the highest consequence to the insurgent forces. Once their belligerency is recognized, Zelaya will be held to strict accountability for any prisoners he might take, as the United States undoubtedly will see to it that they are treated in every respect as prisoners of war, according to civilized standards.

Belligerency also would improve the status of the revolutionary government before the world and at the same time it would measurably increase its responsibility.

FITTING OUT PADUCAH UNDER RUSH ORDERS

COUGHING BURST

BLOOD VESSEL

Says Danger Avoided and Cures Coughs in 5 Hours.

A writer for the medical press states that coughing is responsible for the bursting of blood vessels quite frequently. A cough or cold means inflammation (fever) and congestion, and these in turn irritate that the body is full of poisons and waste matter. Simple relief, as found in patent medicines, and whiskey often result in more harm than good, as they cause more congestion. A tonic-laxative cough syrup will work marvels and here follows a prescription which is becoming famous for its prompt relief and thorough cures. It rids the system of the cause, except it be consumption. Don't wait for consumption to grasp its victim, but begin this treatment, which cures some in five hours. Mix in a bottle one-half ounce fluid white cherry bark, one ounce compound essence cardol and three ounces syrup white pine compound. Take twenty drops every half hour for four hours. Then one-half to one teaspoonful three or four times a day. Give children less, according to age.

CREDIT

Claims are useless unless they are "backed up by the goods." The man or woman, who desires for Thanksgiving the best clothes their money will buy can find them here. Clothes on easy credit terms that assure the newest style, the greatest service and most lasting satisfaction. Ask us to prove our claims.

Handsome Styles FOR WOMEN

The remarkable demand we have had for our Ladies' Suits this season is the greatest evidence that our prices, materials and styles have pleased women better than what they could get elsewhere. You will eventually learn of the great money-saving advantages our store offers, why not now?

THANKSGIVING SUITS FOR MEN.

Right here in your own town, you can buy from us and enjoy the best styles of the world in exclusively modeled, carefully tailored, snappy clothes. The smartest dressed men wear our clothes, because they fit better, look neater, assure better quality for the money than any other store can possibly offer. Great shipment of Thanksgiving suits and overcoats just received to be sold at unusually low prices.

"If what you want is advertised or sold elsewhere, it's cheaper here."

Change in our firm name means better service to our customers.
