

LEWIS FOUND DIGGING FOR HIS LIBERTY

WHITE MAN AT COUNTY JAIL, HELD FOR PICKING POCKETS, WAS INDUSTRIOUSLY CUTTING THROUGH JAIL WALL WHEN DETECTED.

Two case knives stolen from the pantry and a bar of iron were made use of last night at the county jail by J. T. Lewis, a white man, held for grand larceny, to dig his way to liberty. When discovered he had scratched quite a hole in the roof and would have been a free or a liberated man in short order. He calmly remarked when faced by the turnkey: "Well, you got me in here and it is my privilege to get out if I can. That was just what I was trying to do."

Lewis is the man who was alleged to have stolen several articles from people here during the circus last month. He was caught after a chase and a stolen watch and identified articles of all descriptions were taken from him. In court when placed on trial before the recorder as a dangerous and suspicious character, two gentlemen arose and identified him positively as a man who had stolen articles from them.

Lewis selected an opportune time to begin digging in the walls. In some manner he had climbed to the top of a cage in the centre of the jail, and was scratching away when the "bull-rings" tender caught him. At the time the prisoners were singing, as they do every evening, and he was taking advantage of this hubbub to try and dig to liberty. It was not believed that he had any confederates. Two white women in the county jail who claim to have traveled extensively stated to the turnkey last night that they know Lewis and that they know his family, but they would not tell whence he hailed. He has three charges of grand larceny docketed against him.

WOMAN AND HER LEGAL STATUS

THIS INVOLVED THE ENTIRE TIME OF COURT AND ATTORNEYS IN CASE OF H. CLAY PIERCE FOR FALSE SWEARING.

By Associated Press. Austin, Tex., Dec. 2.—The question of woman and her legal status involved the entire time and attention of both the court and lawyers here today in the trial of H. Clay Pierce for false swearing. The question involved is whether or not a woman acting as a notary has the right to administer an oath. A young lady clerk in the secretary of state's office administered the oath to Henry Clay Pierce when he swore that his company, the Waters-Pierce Oil company, was not in any way connected with the Standard Oil company. The contention now made by the defense is that this notary, being a woman, has no legal status under the law of Texas, which recognizes neither woman suffrage nor woman's legal standing, and consequently Pierce has committed no crime in having her recognize anything he said.

AFTER ARREST FALLEN WOMAN DRANK POISON

MAMIE BROWN HAD NARROW ESCAPE FROM SELF-DEATH, A QUANTITY OF CARBOLIC ACID HAVING BEEN SWALLOWED.

Energetic efforts on the part of people in the neighborhood until the doctor arrived probably saved the life of Mamie Brown, proprietress of a resort at 112 West Zaragoza street, last night at 8:40 o'clock. Becoming remorseful because she had been arrested in the afternoon and had ridden in the patrol wagon with another woman of the same type, the Brown woman sought a lonely room in her home at the hour named and swallowed a quantity of carbolic acid. She was found shortly afterward by a man, and Officer Kelly, stationed on that beat, was notified. He in turn notified the station and the city physician was called. Pending the arrival of the doctor, antidotes were freely given and these kept her alive. When Dr. Bruce reached the house all the poison was taken from her. After two hours she was out of danger, but a mark on her face showed where the poisonous drug had burned her.

The woman was arrested at 4 o'clock by Officer Allison for drunk and cursing. She was with another woman at the time and some extreme language was heard. Released on bond, she sought her home and was in her usual spirits until groans came from the room in which she had sought seclusion. She admitted to the officer and to others that the reason she had tried to kill herself was on account of having been jailed in the afternoon. At the time of making the statement, however, she was considerably under the influence of liquor, and at the time of taking the acid was also very much intoxicated. The doctor's work soon brought her around.

Another Attempt. When officers arrested Harry Chamberlain, a marine, in the house of Besie Clark, 28 West Zaragoza street, at an early hour yesterday morning, the woman named made a desperate attempt to have the man freed. Falling to impress the officers with her plea, she grabbed a bottle filled with carbolic acid and tilted it to her mouth. The officers saw her move and promptly knocked the bottle from her fingers. It contained enough acid to kill a dozen people. The woman was drinking at the time and for safe keeping was sent to the station on the charge of drunkenness. In the city court a small fine was imposed. This is the second attempt at suicide within a month on the part of this woman. Chamberlain, too, was arrested, and has a serious charge against him. He was mustered in to accompany a squad of forty marines to the navy yard at Philadelphia for duty in Nicaragua. He came to the city with the squad, but is alleged to have deserted before the train left and the officers were asked to pick him up.

BADLY BURNED BY GASOLINE HE HAD FIRED

PAT LEHAHEY, ENGLISH SEAMAN, SCRATCHED MATCH NEAR GASOLINE TANK AND IGNITED QUANTITY OF EXPLOSIVE FLUID.

Pat Lehahey, who claims to be an English sailor, last night scrambled aboard the auxiliary schooner Nauticus, of the fleet of Saunders & Co., which was moored at the west side of Palafox wharf. Lehahey desired a smoke and without hesitation drew and filled his pipe, then scratched a match. Gasoline was exposed in some part of the boat, and an explosion occurred. Lehahey was badly burned about the arms, and when taken to the police station by Officer Brunner, skin rolled off his wrists in patches. He was given attention by the city physician, but the burns pinned him greatly before the physician saw and prescribed for him. He was not authorized to go aboard the boat, and a charge was made against him as a dangerous and suspicious character. He had just been released from the city jail a few days ago.

When the explosion occurred the boat took fire, and the watchman at the fish house nearby telephoned the fact to the police station. The new fire telephone, No. 1000, was made use of. An alarm was sent from the station to the truck houses. The Nauticus was not damaged to any great extent, several fishermen who were on nearby smacks rushing over and smothering the blaze before the department reached the scene. A crowd numbering into the hundreds gathered on the docks in a few minutes after the alarm had rang out.

We Know That Cottolene Is Pure. What Do You Know About Lard?

Cottolene is made from cotton seed oil. Being the largest producers and distributors of cotton seed oil in the world, we can select oils from the sections producing the best seed. This seed is crushed, and the oil refined by our exclusive process, and made neutral in taste and odor. From Cotton-field to Kitchen—human hands never touch the oil from which Cottolene is made. The result is that when you buy Cottolene you get a cooking fat upon whose purity and cleanliness you can absolutely rely. No one could say the same of lard, made from hog fat; there are too many chances for it to contain germs of disease and uncleanness. Cottolene will make food delicious, nutritious, and healthful. Give it a fair trial and you will never go back to lard.

COTTOLENE is Guaranteed

Your grocer is hereby authorized to refund your money in case you are not pleased, after having given Cottolene a fair test.

Never Sold in Bulk Cottolene is packed in pails with an air-tight top to keep it clean, fresh and wholesome, and prevent it from catching dust and absorbing disagreeable odors, such as fish, oil, etc.

DO YOU KNOW ANY OF THESE NAMES BELOW

For the benefit of those who are still suffering, Gray will give you the names of a few people who are willing to let the world know what wonderful good they have received after using the seemingly marvelous and wonderful Quaker Herb Extract and Oil of Balm, and the quick and permanent cures they are daily producing. Will you still wait and suffer when you see your friends and neighbors all around you being benefited every day? Are you still blind? Is your comprehensiveness dull? If so, ask a few of these kind people, who will gladly tell you what Gray and Quaker Herb Extract have done for them. Don't be a skeptic any longer, spending time and money on medicine you know nothing about. Gray stays at Hannah Bros' drug store every day from 9 a. m. to 9 p. m., to tell you of the wonderful curative powers of the Quaker remedies. Gray stays here for months in order to cure people enough to positively convince the most skeptical that the Quaker Herb Remedies do cure where others have failed. Don't give up in despair. There is a cure in Quaker for you.

Mr. Herman Le Rolland, who is employed at Warren Fish Co., Baylen street wharf, suffered 11 years with bloating, belching, palpitation of heart, shortness of breath, dizziness, growing weaker and thinner day by day, most always had a ravenous appetite, after using Quaker Herb Extract four days expelled a 58-foot tape worm—now well, cured completely. Little Baby Nix, two years old, who resides at Perdido Bay, with its parents, was walking and doing nicely, but not an attack of what was called

spinal trouble, and it might never have walked again. The child was falling very fast and many of their friends thought the child could not live; the mother, very much worried, brought the baby to Gray, the Quaker Health Teacher, at Hannah Bros' drug store, and after being told of the powers of the Quaker Herb Extract and Oil of Balm, procured a treatment and in two weeks the child was well again. The friends could scarcely believe how quickly the child was brought back to health. Mr. Carlos Ezgano, stomach trouble; better after one bottle of Extract had been taken. Mrs. J. M. Shelby, 109 DeVilliers street, headache, heartburn, weak, all run down, suffered female troubles; after taking Quaker Herb Extract ten days, better after one bottle of Extract had been taken. Mr. A. L. Stearns, who resides at 812 Aragon street, procured the Quaker Herb Extract for his little 7-year-old child, Vernon; his stomach, and even the child's face would blot so he could scarcely see out of his eyes; he also had kidney trouble; well after 10 days. But the strange part of all, the father took the Extract and expelled a 58-foot tape worm, head and all complete. Mr. R. M. Fleming, on the L. & N. R. R., resides at Roberts Station, suffered for years with catarrh of stomach and kidneys. His wife, who was suffering the change, was weak, languid, tired feeling, headache, pains in back and stomach. Both better after

using Quaker Herb Extract and Oil of Balm 10 days. Little Max Sufert, 3 years old, resides with parents at Little Bayou, after taking Quaker Herb Extract two weeks expelled a monster 32-foot tape worm, and is now well. Edward Badgart, 121 S. DeVilliers street, expelled 64-foot tape worm after taking Quaker Herb Extract 17 days. Envoy in Salvation Army, Mr. Thad Watson, had indigestion, kidney and stomach troubles, bloating, belching, fluttering of the heart, dizziness; better after one bottle of Extract. Mr. J. H. Reynolds, an old soldier and superintendent of the county farm, has suffered for years with kidney, kidney trouble, and rheumatism; has used many treatments with no benefit whatever, but after using one bottle of Quaker Herb Extract and Oil of Balm has no pains and is better every day. Says it is the best medicine he ever used. Now, my friends, by giving you these names and addresses of your neighbors and friends, so you can call, write, phone, wire at Gray's expense, see if Gray does not tell you the truth. He is not giving you names of people in New York, Chicago, St. Louis or San Francisco, but people you see every day. Ask them about the Quaker Herb Extract. Call today at Hannah Bros' Gray is there. He has hundreds of other names, but space will not permit their use in this issue. Gray proves what he says from 9 a. m. to 9 p. m. daily.

Every year the Giver of Gifts drives down from the Northland with a load of good things drawn from his store house—his magazine—of good things. Note that definition of magazine—"a store house!" An illustration of this definition is the December number of The Ladies' World, a magazine—or store house—of good things. Buy a copy and see the good things supplied by Supreme Court Justice David J. Brewer, Burges Johnson, Grace MacGowan Cook, C. G. D. Roberts, Albert Bigelow Paine, Edith M. Thomas, and others. Good things by the artists, too: Williamson, Brehm, Linnell, Stevens, Potter, Rosenmeyer. A superlative magazine from cover to cover—a store house of literary and artistic treasures by the greatest gift makers. A copy is waiting for you at your news-stand—five cents. It will suggest to you the pleasure of giving twelve of these "store houses" as a Christmas present. You can make this gift of a year's subscription to the greatest home magazine (store house of good things) for only fifty cents, paid to your news man or direct to THE LADIES' WORLD NEW YORK The cost is little—the return remarkable.
