

100 YEARS OLD.

Grandma Sanderson, of DeWitt, Mo., Has Lived a Long and Useful Life.

Grandma Sanderson is a wonderful woman. She is in as good health today as ever in her life, although she is over one hundred years old.

In a letter to the Peruna Drug Mfg. Co., she gives the highest credit to Peruna for her excellent health and extreme old age. Read what she says.

Surely the evidence presented by such cases as these ought not only to dispel prejudice against Peruna, but inspire confidence in it.

"I will send you a picture that was taken a few weeks before my hundredth birthday.

"I am a true friend of the Peruna Company. I have derived great benefit from Peruna many times. I can say I regard Peruna a very great medicine. I found out the merit of it a good many years ago.

"A little more than two years ago I contracted a very severe cold, which resulted in la grippe. Owing to the severity of the disease, and my extreme age, my case was considered to be very critical. I employed no doctor, but Peruna was the remedy I used, and to-day my health is as good as it ever was in my life.

"However, I still continue to take Peruna, a spoonful every night before retiring."

Peruna is an ideal tonic for old people. It is a compound of herbal remedies that has been known to the medical profession for many years.

Peruna operates as a tonic by cleansing and invigorating the mucous membranes. This explains why Peruna has become so extensively known as a catarrh remedy. Catarrh is simply a condition of depraved mucous membranes. Peruna changes this depravity into healthful vigor.

A great many old people use Peruna, and would not be deprived of it for any consideration.

People who object to liquid medicines can now secure Peruna tablets.

SIGN ARTICLES FOR BIG FIGHT

JEFFRIES AND JOHNSON PUT UP \$10,000 EACH TO BIND THE MATCH - WILL BE EITHER IN SAN FRANCISCO OR UTAH.

By Associated Press. New York, Dec. 3.—Final articles for the heavyweight championship fight between Jeffries and Johnson were signed this afternoon. The fight will occur either in Utah or California before the Tex. Richards club on July 4. It will be 45 rounds or more, and the referee will be selected 60 days before the contest.

The fighters agree to go in training not less than 90 days before the fight and not to engage in any fights between now and then. Each fighter deposited \$10,000 to bind the match.

Read The Journal's Want Ex-Official of Sugar Trust, Under Indictment.

The federal officials who are probing the sugar trust frauds against the government in New York seem determined to get at the men "higher up" in addition to the subordinates who already have been indicted in the scandal. J. F. Bendoragel, who for 15 years was general superintendent of the big plant in Brooklyn, has been indicted and placed under arrest. The indictments charge him with being connected with the short weight frauds. President Taft also has taken a hand in the movement against the sugar trust officials and an effort will be made to punish some of those who sought immunity through the statute of limitation.

PARDON BOARD ALLOWS CAMP TO PAY A FINE

UPON RECOMMENDATION OF CITY OFFICIALS, MINISTERS, COUNTY SOLICITOR AND OTHERS, SENTENCE IS COMMUTED TO \$1,250 FINE.

Special to the Journal. Tallahassee, Dec. 3.—Upon the recommendation of the trial jurors, county commissioners, county officials, city officials, bar pilots, numerous lawyers, several preachers, county solicitor and scores of representative citizens of Pensacola, the board of pardons today commuted William Camp's sentence to the payment of a fine of twelve hundred and fifty dollars and costs of prosecution. If the fine and costs are not paid the sentence of imprisonment will be enforced.

Meyer Opposes Closing The Southern Navy Yards

(Continued From First Page) tional responsibilities in that area will probably call for supply stations, in part for the heavy fleet, but principally for the torpedo craft, and submarines and the smaller vessels needed there."

REORGANIZATION OF NAVY. The secretary reviews in detail his proposed plan for the reorganization of the navy, and in addition makes many recommendations for the conduct of affairs in his department.

Two more battleships of the all-big-gun type are recommended to be constructed, but, on account of the desire to keep down the expenditures, he asks only for a repair ship in addition to these two proposed giants of the sea.

The completion of the big drydock at the Brooklyn navy yard is urged, and furthermore the secretary says that "it is clear that one dock on the Atlantic coast for doing up the battleships, is not sufficient since that one might be injured." In this connection, he points out that provisions for docking of heavy vessels injured or damaged in action or by stranding are almost entirely lacking, and that but few navy yards exist on either coast which have sufficient water to dock an injured battleship drawing 4 or 5 feet more than its ordinary draft.

SHIP CONSTRUCTION. Ship construction at the navy yards of the United States is opposed as a principle by the secretary. Only occasional work of a check on particular types, does he believe that the United States should build a ship. Shipbuilding concerns should be encouraged, in his opinion, so that the government can profit by their experience and resources, and also because ordinarily the work is done more economically by them than at navy yards.

Furthermore, Secretary Meyer is opposed to congress restricting the construction by one shipbuilding company to one battleship, or to requiring one battleship to be constructed at a navy yard, or on one other ship.

ESTIMATES \$10,011,000 LESS. Estimates for the coming fiscal year were included in the report. They are \$10,011,000 less than the total amount appropriated for the present fiscal year.

The senior officers of the navy are too old, according to the secretary. He announces in his report that he soon will send to the president some recommendations as to new legislation for remedying this effect. "The senior officers of our navy are too old for the responsibilities and arduous duty required in the modern battleship," says the secretary. "They are much older than similar officers in the other principal navies of the world. Not only is this the case, but flag officers arrive at the grade of rear admiral so late that even those of longest possible service do not get adequate training as subordinate flag officers before assuming the chief command."

Recommendations for the legal establishment of a naval reserve of officers and men and in regard to the development of a naval militia are also promised.

Board of Safety Had Very Breezy Discussion Regarding Pay Rolls

(Continued from First Page.) He made a satisfactory arrangement with the creditor and the case stopped there.

POLICE REPORT. Chief of Police Sanders rendered the report of his department for the month of November. Arrests numbered 644, and the total amount in fines imposed was \$2,553. Of this \$401.50 had been remitted and collection of the sum of \$143 had been suspended. Total amount turned over to the treasurer for \$1,997.75. There had been 3,102 meals served at the

police station during the month, at a total cost of \$194.23, or about 61.4 cents per meal. The report was received and filed.

OTHER REPORTS. Fire Chief Becker made report of the fire bill for his department for November. He had used 42 sacks of oats, 9 sacks of corn and 42 bales of hay, costing \$173.49, or about \$0.84 per head of stock. This report was also filed.

The chief also made report upon the matter of some indebtedness which members of the fire department had contracted and which was now in fair way of settlement.

The city electrician also made report for his office. There had been no wire trouble during the month and there had been no interruption to either fire or police service. The report was received and filed.

ALLOWANCES AND LEAVES. Chas. E. Cobliger asked for fifteen days leave of absence to go out of the city. He is a member of the fire department, and his application had the approval of the chief and it was allowed.

Jas. P. O'Shea also desired a leave of absence for fifteen days. This was also granted.

Policeman Benjamin desired a fifteen-day leave to go to his relatives in Atlanta. This was allowed.

T. F. Britson was granted two days of pay for time he had lost on account of injuries received. He on duty. It was endorsed by the fire chief and allowed.

Frank St. Mary, another fireman, requested pay for eight days of lost time for injuries received while fighting a fire. This was also endorsed by the chief and allowed.

NEW APPLICATIONS. Applications for positions on the police force were received from James March, J. F. Sikes and Geo. W. Howse. None of them bore the endorsement or approval of the police chief, and all were referred back to him.

Applications for positions in the fire department were received from R. C. Forrest and John Campbell. Action on these two papers was postponed until another meeting.

To Repair the Trucks. Bids for repairing trucks were received from the following: Morrison & Co., \$127 and 25 cents for each new spoke in wheels; Spitzer Bros., \$126 and 50 cents for each new spoke, and Pensacola Buggy Works, \$105 and 60 cents for each new spoke in the wheels. The last-named bid was accepted. A time limit of ninety days was put on the work by the board.

Attained Averages. Mr. Elliott, of the police examining committee, reported upon the averages of the four officers who were recently examined. Officer Jones made an average of 92 per cent., while that made by Henderson, Fillingim and Clark was 90 per cent. each. They were all duly elected members of the police department.

Pay Roll Discussion. All bills having been offered for approval, the discussion on the city payroll was prompted. The chairman had refused to approve the pay sheet on account of extra time which had been given to a good many of the officers, but when it was explained that all the officers in uniform worked extra during the several days of the circus being in the city, the roll was quickly approved. The discussion was held further on by the board to members of the fire department had been indiscriminately signing for other members, and this was regarded as not in accord with the ideas of good business management. Attention was called to this by Mr. Hanson, who explained that he only wanted things to go through smoothly and in perfect accord with anyone's ideas of good business management. He moved, as an offset to the claim, that men would be delayed in getting their money if they had to wait for the board to meet, that the meeting dates be changed. This was killed on a vote. To provide for better handling of payrolls in future, when the chairman said that he had not seen but a few of them, the chairman was authorized to approve them and that the meeting dates of the board remain as at present.

After accepting an invitation to partake of chowder at the police station, a motion to adjourn was heard.

Dead Statesman Who Is Mourned By Whole Nation

David A. De Armond, who lost his life when his home at Butler, Mo., was destroyed by fire, was one of the most distinguished statesmen that Missouri ever sent to the halls of congress. He was notably free from the habit of playing politics, vigorous in his likes and dislikes and a patriot of the old school. He was in congress continuously from 1890, coming into national prominence at the same time that William Jennings Bryan, whom he admired and always supported, became a national figure. Mr. De Armond was born in Altoona, Pa., in 1844. He was educated as a lawyer and reached a high position in the legal profession before he entered politics. Two of his sons are officers in the United States army.

AFTERNOON SESSION OF RECORDER'S COURT

At 4 o'clock Friday afternoon 10 frightened boys appeared before Recorder Johnson in a special session of the city court. All the boys attend school and it was desired that they lose no time from their studies, hence the unusual hour for the session.

All of them were charged with defacing school property, in that they benched ink, etc., over the Classical school building. They were all found to have participated in the mischief, but judgment was suspended.

Recorder Johnson said last night that he thought it would be several days before judgment was given. Another boy will shortly be arrested, while the last one is out of the city, such return having been made on the warrant.

PHYSICIANS DOUBT THAT CHILD WAS MURDERED

By Associated Press. New York, Dec. 3.—Doubt that little Lottie Moninger, whose body was found yesterday on the roof of a tenement house, was the victim of a brutal murder, was created by one of the physicians who testified in the autopsy. He said a chewing gum was found in the larynx and this may have caused death. The marks on the body, said, might have been caused by paroxysms during the strangling occasioned by the gum.
