PENSACOLA, FLORIDA, FRIDAY MORNING, DECEMBER 17, 1909.

Who Will Give Most to Our Namesake Ship?

Tampa and Jacksonville are raising money to help buy a suitable silver service for the new battleship Florida, which will come off the ways next March, the biggest, strongest and handsomest of Uncle Sam's seafighters afloat. Other Florida cities are interested, but thus far Jacksonville and Tampa, which started their funds some weeks ago, have outstripped all the rest.

Tampa, whose board of trade has discovered that she is "the richest and most important city in the state," is confident of leading the list of municipal contributors; but there are still several months in which to augment the fund for the purchase of the Florida's silver service. Pensacola may catch Tampa and Jacksonville, in spite of all their brag, if Pensacola people, who have more money today than they ever had in their lives before, get busy and commence the raising of a fund.

Every Floridian that can should count it a privilege and a distinction, not a drain or a hardship, to contribute his mite. The Florida is to be a beautiful piece of naval workmanship and it is desirable that as many Florida people as possible have a hand in furnishing her.

Tampa and Jacksonville have a substantial lead, but neither may come under the wire ahead if Pensacola begins to raise her part of the purchase price. The sooner we start the more speedily we increase our chances of winning out in this commendable competition with two sister cities. We ought to get busy.

Friend of the South To Stay in Cabinet.

As we expected, Secretary Wilson does not intend to immediately quit the agricultural portfolio, where he has sat continuously since President McKinley took the oath of office on March 4, 1897, for the model farm in Iowa where the secretary worked out for himself the practical problems of modern husbandry.

The work of Secretary Wilson, great and far-reaching as it already shows itself to be, is not yet done. He is the ablest secretary of agriculture this country has ever had, and he is at the moment actively engaged in certain reforms and developments of his bureau that may not be entrusted to a younger and less seasoned incumbent.

For the American farmer in general, and for the Southern farmer in particular, he has done much through his steadfast and logical advocacy of the South's best farming possibilities and by his earnest advice to people seeking new agricultural locations to go below the Potomac rather than beyond the Missouri. For this reason if for no other, Florida and her sister states, which have room for thousands of new settlers willing to sow and reap for a living, are glad that the Western man with Southern as well as Western and Eastern interests at heart is to continue in a position to urge the settlement of new families from more crowded states in this part of the country.

Even President Taft hates to get up early in the morning—Newspaper headline.

Not, we imagine, when John Hays Hammond telephones the White House that he'll be around at 9 with a bagful of golf sticks; and certainly not when Brother Charlie P. and Arthur Vorys and "Thee" Burton and Judge Warrington take a run down from Ohio to privately notify him of the growing strength of Gov. Judson Harmon and the need of an extra good Republican fight in the Buckeye state next November.

Troubles come not single hosts but in battalions. Old man Zelaya is likely slated for a bloody good licking from Uncle Sam and young Zelaya, who, it appears, came up to the United States and made love to a pretty American girl, only to beat it out again when she took his proposal seriously and fixed the marriage day, has now been sued for breach of promise by the bride he never intended to take. Nothing doing in happiness for the Zelaya family this Christmas!

There should be no empty stockings this Christmas in prosperous Pensacola. Our citizens, most of them, have been peculiarly successful this year; they should not sew their pockets tight when the appeal comes for a dollar, a half or a quarter for the purchases that will make glad the heart of some little boy or girl to whom Christmas, without charitable intervention, will be disappointment day. Let it not be said, to the shame and disgrace of Pensacola, that the poor youngsters of the city were not at least reasonably remembered.

Yes, Santa Rosa is going to have the agricultural school and the demonstration farm. Only \$2,000 will be required, it is estimated by Mr. West and the men that have had the most to do with boosting the project, and at sundown Thursday night \$1,125 in real money—not promissory notes or we'll-try-to-do-it—was at hand. The public-spirited men of Santa Rosa, and likewise the Santa Rosa Star, have worked diligently toward this commendable end. The praise will be divided between the men and the paper.

BOY, HALF-WITTED, PICKED UP IN SUBURBS

At 12 o'clock last night a colored boy, who gave his name as Will Wilson, and who mumbled that he lived on West Garden street, was picked up at Patterson station upon complaint of people in the vicinity, who did not like the way the boy was acting nor the way he appeared in the vicinity on such a night. In spite of the cold weather, he wore neither hat or coat and was thinly clad. Mounted Officer Lowry found the boy and sent him to the station. Arriving there he was locked up for safe keeping, and his relatives, if he has any, may get him out if they show that he is a devoid of reasoning power as he has made out already. The people in the neighborhood of where he was arrested believed he was irresponsible, and that he would have set fire to property there to get warm, as he was about half-frozen. He is about 15 years of age.

RECKLESS THROWING OF ROCKS NEAR UNION DEPOT

Early last night a fusillade of bricks and rocks, hurled by negro boys near the union depot, made traveling right then very hazardous. The boys chased off upon the approach of a policeman and none were arrested, although something may be done later, as some of them are known. A few hours after the occurrence a battleship, which was found near Brent's old mill on Bayou Chico, and it was thought that he had been one of the gang, but it was afterwards found out that he had wandered from his home, and he stated that he lived on West Garden street. Recorder Johnson has good work for all rock throwers in the city, and he is glad to get hold of some of the more chronic ones.

AFTER 11 YEARS GIRL APPEARS

DECLARED LEGALLY DEAD BY THE COURTS, MISS NELLIE BURNS PROVES THE COURTS' DECISION IS WRONG—HAD BEEN KIDNAPPED.

By Associated Press. St. Louis, Dec. 16.—Miss Nellie Burns, aged nineteen, missing for eleven years and just three days ago declared legally dead by the circuit court, today proved the court's decree wrong. It had been supposed she was kidnapped and the court's decision was rendered in a suit to collect insurance on the child's life. At the time of her disappearance, Burns and his wife were estranged and living apart. The wife died and left the child to Mrs. Annie Bosse. Nellie said today that she was on her way to school when her father and uncle seized her and took her to a strange house. She has been living with her father since and is now clerk in a department store in East St. Louis.

Christmas Hinting Begins Early This Year

"Hiram, Dear, Milly Meadows has joined the Organ Fund Society, the Shakespeare Club, and the Jolly Whist Players since she got her Hoosier Cabinet. She says she is going to 'reduce her avoirdupois."

Mr. Husband: Every one of the 300,000 Hoosier Cabinets in use carries a tale of leisure hours.

Are you so indifferent that you will let your wife go on spending six hours in the kitchen, when only three are enough?

Mrs. Wife. Tie a string around his finger to-day.

Will you let your wife suffer drudgery three times every day, taking countless steps around the kitchen, when all this unnecessary work can be saved by getting her a Hoosier Kitchen Cabinet?

Will you let a tiny bit of money stand between your wife's comfort and this great labor saver? \$3.00 will have a cabinet delivered to the house, or it will hold it for Christmas delivery—then, only \$1.00 a week—so little you scarcely will know you are spending it.

We want you to know about this Godsend to the toiling wife. It will last a lifetime and be a constant daily help.

Merely leave her name with us. That is important.

CANNOT ELECT A PRESIDENT

NATIONAL LEAGUE ADJOURNS UNTIL TODAY WITHOUT ELECTING A MAN TO SUCCEED THE PRESENT INCUMBENT, JNO. A. HEYDLER.

By Associated Press. New York, Dec. 16.—The National League adjourned until tomorrow without electing a president to succeed John A. Heydler. The first ballot for president of the National League developed the expected deadlock. Four votes—Philadelphia, New York, Brooklyn and Chicago—were cast for John M. Ward, while Pittsburgh, Boston, St. Louis and Cincinnati voted for President Heydler. Mr. Brush suggested that a compromise candidate be elected, but Heydler and Murphy arose and declared against anyone but Ward. John T. Brush rose from a sick bed today and for the first time in many years attended a National League meeting. President Heydler withdrew from the room when the meeting adjourned. A heated argument in which friends intervened occurred between Charles W. Murphy and Ben Shibe, of the Philadelphia owners, in a hotel corridor over an Indianapolis player whom Shibe charged Murphy had captured by unfair means.

Public Works Board Preparing For New Paving

(Continued from First Page.) The engineer's recommendation was adopted. The city will have to pay for the change in the sidewalk. The engineer recommended grading Romana street, to relieve a congestion of water at the corner of Romana and Baylen streets. At present, however, it was decided to cut drains on either side of Romana street, the engineer figuring that this would not cost above \$175.

SOME UNPAID BILLS.

The Whiddon Construction company submitted a list of bills for work done, and desired apportionments issued against J. N. Andrews, Miss Sal-White Cummings, Jos. I. Johnson, Lonnie White, and Mrs. George Caro. One other bill was in the bunch submitted, but the board learned that this bill had never been contested and it was extracted from the rest of the bunch. Apportionment warrants were ordered in the case of the others.

SOME REQUESTS.

Mrs. Nannie Lovelless, who resided until recently on West Gadsden street, petitioned the board for relief from payment of an extra large water bill, saying that the sidewalk constructors had used water from the premises occupied by her and promised to pay for it. They had not done so, she maintained. The board will take the matter up with the contractors, as other cases were reported of like nature.

Nature's Gift from the Sunny South

Georgia's State Chemist Praises "Nature's Gift from the Sunny South"

J. H. McCandless, State Chemist of Georgia, before a recent gathering of Cotton Seed men, gave emphatic praise to the high quality of *Cottolene*. He said: "The sale of this product and the proclamation that it is made of cotton seed oil have done more to bring cotton seed oil truthfully and favorably before the public than anything else in recent history."

Mr. McCandless then pointed out that a pure, refined, vegetable-oil product such as *Cottolene*, is the only assurance a woman has of a clean, digestible, cooking fat.

It seems a positive wonder in the light of all that has lately been said and written, and of what is known of lard, where it comes from, of what it may be made, that anyone will continue its use, when pure, sweet and healthful *Cottolene* can be so easily obtained.

COTTOLENE is Guaranteed Your grocer is hereby authorized to refund your money in case you are not pleased, after having given Cottolene a fair test.

The Correct Time

to stop a cough or cold is just as soon as it starts—then there will be no danger of pneumonia or consumption. Just a few doses of Ballard's Horehound Syrup taken at the start will stop the cough. If it has been running on for some time the treatment will be longer, but the cure is sure.
