Just at the time the Quakers begin to look for sales to slack up on account of the holidays some remarkable case like the following is reported from some quarter of the city and people from that neighborhood begin to take notice and another rush is on, and the Quakers never know from what direction the next rush is coming, and reports like this are the cause of it all.

Mr. C. A. Ward, 110 N. 7th avenue, has had bad stomach, indigestion, headaches, vertigo, nervous and constipated, weak and languid, more tired in the morning than when returning at night, despondent at times, conditions that cause many sufferers to think of suicide. Now, my dear friend, if you are in this condition the Quakers are here with their famous remedies and waiting to give you back that robust body and clear mind just as they have to many others.

Don't delay if your kidneys are weak, if your stomach is bad and liver sluggish, if your blood is thin, your eyes and skin yellow, if your system is full of malaria and rheumatic pains. Get Quaker Herb Extract and be made well. Hannah Bros. drug store is where the Quaker Health Teacher is located. Call today, 9 a. m. to 9 p. m.

If you have ever thought of buying furniture on the instalment plan, read this story. It may save money for you. The story is in PEARSON'S MAGAZINE for January. It explains the method of the instalment man; what his advertisements mean; his comparative profits; the strings he ties about the furniture; the rights of the buyer and the only time when one can afford to buy in that way. It is written by Richard Barry after a careful investigation, and completely answers the question, "Shall I buy furniture on the instalment plan?"

Judge Gaynor, the new Mayor of New York, makes a statement interesting to the whole country. Also a New York lawyer tells what it will mean to the average man's pocketbook if the law dissolving the Standard Oil Company is applied to other trusts. A Southern man shows what the crossing of white and black blood is doing to the South. Three noted alienists describe the improper treatment of insane in this country. John B. Stanton writes of the amazing power of money. R. W. Shufeldt tells what makes a woman beautiful, and there are seven complete stories of fiction.

## DR. RANDOLPH HAS RESIGNED

CHIEF SURGEON OF THE FLORIDA  
INSANE ASYLUM LEAVES SERVICE OF THE STATE TO ENTER  
PRIVATE PRACTICE.

Special to the Journal.  
Tallahassee, Dec. 25.—At a recent meeting of the commissioners of state institutions the following communication from Dr. James H. Randolph, resigning the position of chief physician at the Florida hospital for the insane, was submitted:

"Chattahoochee, Fla., Dec. 18, 1919.  
"Hon. Albert W. Gilchrist, Governor, Chairman Board of Commissioners of State Institutions, Tallahassee, Fla.  
"Dear Sir: I have the honor hereby to tender you my resignation as chief physician at the Florida hospital for the insane, to take effect April 1st, 1920; and in asking its acceptance I beg to express my appreciation of the many courtesies extended to me during my term of service as such physician.  
"In view of this continuous service, covering practically five years, during which time I have neither sought nor received such extended leave of absence as is customary in many hospitals, I further request your honorable body that I be granted a leave of absence covering the month of March, 1920.  
"Very respectfully,  
"JAMES H. RANDOLPH,  
"Chief Physician, Florida Hospital for the Insane."  
Resignation Accepted.  
Upon consideration thereof, it was ordered that the said resignation be accepted, to take effect April 1, 1920, as requested, and that Dr. Randolph be granted a furlough for the month of March, 1920.  
Upon motion, the following was unanimously adopted:  
The board of commissioners of state institutions having received the resignation of Dr. James H. Randolph as chief physician at the Florida hospital for the insane, the board has reluctantly accepted the same and directs that the secretary convey to Dr. Randolph a suitable expression of the appreciation which each member of this board entertains for the earnest, efficient and valuable service which he has rendered during his five years' connection with the medical staff of the hospital. Throughout that service Dr. Randolph has deserved and had the full confidence of each member of this board, and in his retirement to private practice carries with him their well-earned esteem and best wishes.  
Upon motion it was ordered that physician at the Florida hospital for the insane be paid a salary of twenty-four hundred dollars per annum and furnished a house; that the assistant physician be paid a salary of two thousand dollars per annum and furnished a house, and that after April 1, 1920, the said physicians be required to purchase their own groceries and other supplies used by them and their families, but will be permitted to purchase the same at the hospital commissary at cost prices.  
Upon motion it was resolved that Dr. James H. Randolph be requested to give this board the benefit of his familiarity with institutions for the insane and his acquaintance among medical men connected with work in this line, and communicate with such institutions and physicians, with a view to assisting this board in obtaining the services of a physician, who, in their opinion, will satisfactorily fill the position of chief physician at the Florida hospital for the insane, after Dr. Randolph's resignation becomes effective.

These 65 acres will require about three carloads of high-grade, special mixture fertilizer, and 250 bags of the Maine-grown Spaulding, Rose No. 4 seed. They will be planted between the middle and last of January and will be ready for harvest during the month of April. The growers expect to dig 15 to 20 cars of 150 cwt. barrels to the car. They are sold at Hastings during the month of April every from \$3.50 to \$5 per barrel.

## MISERY FROM STOMACH GOES

THE MOST SEVERE CASE OF INDIGESTION, HEARTBURN, GAS OR DYSPEPSIA VANISHES FIVE MINUTES AFTER TAKING A LITTLE DIAPEPSIN.

Every year regularly more than a million stomach sufferers in the United States, England and Canada take Pape's Diapepsin and realize not only immediate but lasting relief.  
This harmless preparation will digest anything you eat and overcome a sour, gassy, out-of-order stomach five minutes afterwards.  
If your meals don't fit comfortably, or if you eat like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.  
Get from your pharmacist a 50-cent case of Pape's Diapepsin and take a dose just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, Nausea, Debilitating Headaches, Dizziness or Intestinal griping. This will all go, and besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.  
Pape's Diapepsin is a certain cure for out-of-order stomachs, because it takes hold of your food and digests it just the same as if your stomach wasn't there.  
Relief in five minutes from all stomach misery is waiting for you at any drug store.  
These large 50-cent cases contain more than sufficient to thoroughly cure almost any case of Dyspepsia, Indigestion or any other stomach disorder.

## POTATOES ON A LARGE SCALE

LAUREL HILL GROWERS TO  
PLANT SIXTY-FIVE ACRES FOR  
THE EARLY EASTERN MARKETS.

Special to the Journal.  
Laurel Hill, Dec. 22.—C. E. Rutledge, of the big commission house of J. C. Leib & Co. of Baltimore, Md., arrived here last Friday and returned Sunday morning, after taking Friday afternoon and Saturday looking over potato lands and conferring with the growers in this section, looking towards the planting of early Irish potatoes the coming season, with the result that the following gentlemen signed contracts for the planting of a total acreage of 65 acres: G. H. Ellis, 20 acres; J. M. Martin, 20 acres; S. C. French, Jr., 10 acres; John F. Merrill, 10 acres; Eric von Axelsson, five acres.  
Mr. Rutledge, who, by the way, is a first-class grower, was very loud in his praise of the soil in this vicinity, and did not hesitate to state that there is nothing in the way to prevent us from being a big factor in assisting the famous Hastings section in supplying the ever-increasing demand in the Eastern markets for the Florida-grown early Irish potatoes.  
These 65 acres will require about three carloads of high-grade, special mixture fertilizer, and 250 bags of the Maine-grown Spaulding, Rose No. 4 seed. They will be planted between the middle and last of January and will be ready for harvest during the month of April. The growers expect to dig 15 to 20 cars of 150 cwt. barrels to the car. They are sold at Hastings during the month of April every from \$3.50 to \$5 per barrel.

## WESTERN MEN WISH TO MOVE

AND SOME OF THEM, IT IS EXPECTED, MAY BE ATTRACTED TO GULF COUNTRY RATHER THAN TO WESTERN STATES.

In a letter from Lincoln, Nebraska, the writer points out how the people of the West appear to have gone land crazy and how the land agents of many parts of the country are reaping a golden harvest through selling lands in South Dakota, Canada, Colorado, New Mexico, Oklahoma, Montana, Idaho, Washington, Texas or Oregon, says the Times-Union.  
In the letter the writer says: "Three years ago one man out of every four in the West was trying to sell mining stock to three others. Today, outside of Colorado and Nevada, you never run across a salesman of this sort."  
"The mining stock method of separating the Western farmer from his home too large bank account, never very successful, was superseded by the interurban electric line promoter. A scheme for a line from Chicago to Denver in ten hours siphoned a lot of money out of Western pockets and the written contract to give the buyer a life pass over the road led to many a sale of brightly printed certificates in interurban corporations at a cut rate. The paper roads have nearly all gone into bankruptcy and the receivers are preparing to retire on the proceeds of their stewardship."  
"The West is just now land crazy. On the main street of Lincoln or adjacent thereto are twenty-two offices of brokers who are advertising South Dakota, Canada, Colorado, Texas, New Mexico, Oklahoma, Montana, Idaho, Washington or Oregon lands. All of them specialize in lands in a certain section."  
"And They Actually Buy."  
"Each Tuesday or Friday an excursion to some part of the West starts out of Nebraska headed for some garden spot and led by a land agent. The same is going on in Omaha, Topeka, St. Joseph and Kansas City. Thousands of farmers and city men are hurrying on trains every week to examine some land that they have a notion they may want to buy. Some are going Northwest, others Southwest, and what is most astonishing, about 60 per cent of them actually buy."  
"So great has the craze become that bankers have begun to sound notes of warning. When the farmers first began laying aside surpluses from their crop sales, they began buying the farm next them for their sons or sons-in-law or for themselves. This demand soon ate up all the supply but the bank balances kept on piling up."  
"The farmers began looking elsewhere, some of them for cheaper lands for themselves after having sold out their old holdings around \$100 a acre. Canada was invaded and lands went up there with a rush. Texas ranchmen began cutting up their immense holdings and selling them off."  
"Picnic For Land Brokers."  
"The land brokers in the cities early saw their opportunity, and aided by the railroads with their low rates, given to encourage immigration and the building up of country they had invaded, began a systematic and extensive boosting. Over at Waterloo, Iowa, was a man of about thirty, who had worked in recent years for a number of farmers. He made a contract with a South Dakota land agency to bring a lot of Iowa farmers up there."  
"About sixty composed his first party. He sold a quarter section apiece to fifty-two of them made so much money on the deal that he started in business for himself."  
"The Texas ranches were beginning to break up and the young Iowan wanted down there and engaged to sell the divided up holdings of one of the big cattle kings who was going out of business at a commission of \$3 an acre. Another train load of Iowa farmers went down there under his guidance, and 80 per cent of them bought, all because they had known their fellow townsman as a man who was on the square and whose word could be depended on."  
"Within a few months the Iowan was buying big tracts of land outright and disposing of them himself. He sent out circulars advertising for agents in every county in Nebraska, Kansas, Iowa and Missouri. To these he offered money for the furnishing of names of men who were looking for land and willing to buy it for almost any price. In Washington and Oregon land with fruit trees at or near the bearing age is selling for \$800, \$1,000 and more an acre."  
"In Montana, where no extensive experiments have yet been made, fruit trees are selling for about \$400 an acre. For this price the company agrees to furnish the trees, usually apples, set them out, attend to them and at the end of five or six years turn them over to the purchaser. They employ expert orchardists to look after the details of the work, and to compensate themselves for the work raise potatoes—they produce up there as high as 700 bushels to the acre—planted between the rows of growing trees."  
"And Why Not Florida?"  
"Now, does it not appear that these people should have their attention attracted to Florida, where they can make as much off ten acres as they can off fifty in the sections to which they are rushing?"  
"The great attraction seems to be cheap lands, and anyone knows that today Florida lands, suitable for the raising of any of the big money crops of the state, can be purchased in their natural state for far less than is asked for those western lands."  
"It has been frequently remarked here in Florida that the state is being far better advertised than ever before. That is a fact, but all the advertising that Florida has received through the

various land companies and the railroads during the past year is not a marker to the advertising that is being done to secure settlers for the vast areas of the western country.  
It's Only Just Begun.

Florida's advertising campaign has only just begun. The men who will persist and carry on extensive advertising campaigns are the ones who are going to make the big profits, and they are entitled to them. It costs a tremendous amount of money to carry on an advertising campaign to sell out all the lands in a colony. This money has to be paid out in cash when the advertisements appear. You can't wait until you have sold your lands before you settle your advertising bills. And then, the people buying land do not, as a rule, pay for them in a lump sum.

**SUN AND SNOW**  
Sometimes Help the Hair to Go.

In any changeable climate the hair is apt to become brittle and to break off stubby here and there. This makes a hair-dressing almost a necessity, especially to ladies. In using a hair dressing why not get the best, one that combines with it the efficiency in killing the dandruff germ, the germ that eats the hair off at the roots, causing what is called falling hair, and in time baldness. Newbro's "Herpicide" is that kind of a hair dressing. You have no idea how delightful your scalp will feel and how stylish your hair will appear, after an application or two of Herpicide. It is certainly a wonderful innovation as a scalp antiseptic and hair-dressing. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.
